The Colonial Volunteers The Defence Forces Of The Australian Colonies 1836 1901:

The Colonial Volunteers Bob Nicholls,1988-01-01 **A Military History of Victoria, Australia 1803-1945** Bob Marmion,Andrew Dagg,2024-02-06 This is a case study of possibly the most complex defensive system in Australia between 1803 and 1945 Defending Victoria was such a wide ranging and demanding task that the colony and later the state of Victoria was known as the Gibraltar of the South This book fills a major gap in Australian military and naval history Using Victoria as a case study the book shows how defence developed from the idea of a basic sand fort emanating from a fear of French invasion during the early 19th century into a complex modern three dimensional defensive system incorporating air land and sea defences as well as radar and secret defence technology by the 1940s The book is not a simple narration of facts and events but a substantial addition to Australian military history on account of its extensive analysis of the political social economic and technological factors which impacted defence over many decades of the 19th century *Sir William Rooke Creswell and the Foundation of the Australian Navy* Sheila Dwyer,2014-03-26 The six Australian colonies united on 1st January 1901 to become the Commonwealth of Australia One of the reasons given for this federation was that the Commonwealth could provide a common defence William Rooke Creswell argued that as an island continent Australia could not defend itself without a navy He saw no point in having a 70 000 strong army if only one enemy battleship could destroy port cities and disrupt maritime trade and sea communications Creswell was not alone in his campaign to establish a navy for Australia but he was the one constant advocate throughout the years from his first proposals on a navy for Australia in 1886 to when the first ships of the Australian Fleet sailed into Sydney Harbour in October 1913 **British Imperialism and Australian Nationalism** Luke Trainor,1994 As the debate about an Australian Republic becomes more heated this first detailed study examines the relationship of the Australian colonies with Britain and the Empire in the late nineteenth century and looks at the beginnings of Australian nationalism **The imperial Commonwealth** Wm. Matthew Kennedy,2023-07-25 From the late 1800s to the early 1900s Australian settler colonists mobilised their unique settler experiences to develop their own vision of what empire was and could be Reinterpreting their histories and attempting to divine their futures with a much heavier concentration on racialized visions of humanity white Australian settlers came to believe that their whiteness as well as their Britishness qualified them for an equal voice in the running of Britain s imperial project Through asserting their case many soon claimed that as newly minted citizens of a progressive and exemplary Australian Commonwealth white settlers such as themselves were actually better suited to the modern task of empire Such a settler political cosmology with empire at its center ultimately led Australians to claim an empire of their own in the Pacific Islands complete with its own unique imperial governmentality *The Archaeology of Watercraft Abandonment* Nathan Richards,Sami Kay Seeb,2013-06-05 The historical importance and archaeological potential of deliberately discarded watercraft has not been a major feature of maritime archaeological enquiry While research on the topic has appeared since the 1970s as books chapters and articles

most examples have been limited in focus and distribution and in most cases disseminated as unpublished archaeological reports i e the gray literature So too has there been a lack of a single source representing the diversity of geographical historic thematic and theoretical contexts that ships graveyard sites and deliberately abandoned vessels represent In contrast with much of the theoretical or case specific literature on the theme of watercraft discard this volume communicates to the reader the common heritage and global themes that ships graveyard sites represent It serves as a blueprint to illustrate how the remains of abandoned vessels in ships graveyards are sites of considerable research value Moreover the case studies in this volume assist researchers in understanding the evolution of maritime technologies economies and societies This volume is intended to expose research potential create discussion and reinforce the significance of a prevalent cultural resource that is often overlooked **Chinese in Australian Fiction, 1888-1988** , **The Torch and the Sword** Craig A. J. Stockings, 2007 Since the 1860s hundreds of thousands of school aged Australians have undergone military and youth development training in various army cadet programs This is the first book to tell the cadet story across both time and space in a single narrative presenting a general history of the army cadet movement in Australia from 1866 to 2006

Blood Brothers Jeff Hopkins-Weise, 2007-01-22 By the middle of the nineteenth century the very existence of European colonial settlement in New Zealand was under threat With Queen Victoria s British forces stretched thinly across the globe the New Zealand colony had to look to its sister colonial states in Australia for support This ground breaking work shows for the first time in detail how the military social and economic brotherhood later embodied in the notion of the Anzac spirit began not on the sandy beaches of Gallipoli but 50 years earlier in the damp forests and fields of the North Island of New Zealand Oceans of Consolation David Fitzpatrick, 2019-06-30 An ocean of consolation was what one young Irish emigrant in rural Australia called a letter from his father in County Clare in 1855 Similar strength of feeling is often found in the intriguing letters that David Fitzpatrick has unearthed for this extraordinary collection Oceans of Consolation offers historians and family researchers novel and sophisticated ways of reading old letters It opens to us the daily preoccupations of ordinary women and men with little education and fewer material possessions as they try to overcome the separation from family and friends created by emigration Fitzpatrick includes the personal correspondence of fourteen families of Irish emigrants in the Australian colonies giving equal attention to letters to and from Australia He reproduces in full more than one hundred letters dating from 1843 to 1906 and includes a generous selection of contemporary engravings and photographs Fitzpatrick s detailed commentaries offer biographical narratives for all of these emigrants tracing their Irish backgrounds and Australian careers Parting company with editors of comparable collections he pays special attention to the words and idiom by which letterwriters expressed their everyday concerns and sought or offered reassurance and advice He believes that personal letters provide not only unique evidence of the hopes and fears of emigrants but also an important avenue for exploring popular Irish culture
