Enter the Undead Author George Pate, 2019-03-13 Many narratives of theater history suggest that the 1960s marked the start of a turning away from traditional script-based playwright-centric production practices Literary studies in this period began exploring the concept of the death of the author along similar lines But the author refused to die quietly and authorship reasserts itself in even revolutionary and avant-garde theaters throughout the latter half of the twentieth century The model of authorship valorizing individuality ownership and originality serves to maintain traditional modes of production that reproduce and uphold dominant ideologies even when the products created by those modes of production claim to buck tradition or run counter to cultural currents This ideology of authorship plays a part in playwrights shutting down productions of their own plays in the privileging of individual authorship over joint authorship even in collaborative genres and in the insistence on originality even in performance traditions rooted in a shared repertoire This tension between the theoretical death of the author and the growth of actual authors' abilities to control access to and even in some cases interpretations of their work exposes the deftness with which dominant ideologies and their attendant modes of production can repurpose the aesthetics of even countercultural or revolutionary movements in theater

The Comedian as Confidence Man Will Kaufman, 1997 In this lively and fascinating analysis of humorists and their work Will Kaufman breaks new ground with his irony fatigue theory The Comedian as Confidence Man examines the humorist's internal conflict between the social critic who demands to be taken seriously and the comedian who never can be the irony fatigue condition Concentrating on eight American literary and performing comedians from the 18th 19th and 20th centuries this study explores the irony fatigue affect that seems to pervade the work of comedians those particular social observers who are obliged to promise Only kidding folks even when they may not be in G B Shaw's words they must put things in such a way as to make people who would otherwise hang them believe they are joking If these social observers are obliged to become in
