

A close-up photograph of Bill Clinton, the 42nd President of the United States, speaking. He has grey hair and is wearing a dark suit, white shirt, and a patterned tie. His mouth is open as if he is in the middle of a speech. In the background, to the left, is the American flag, and to the right is a blue flag with white stars, likely the Presidential flag. The lighting is focused on his face.

Votes, Money, And The Clinton Impeachment Irwin Morris, 2018-03-09

In the first in depth examination of politics of the Clinton impeachment Morris looks at the impact of local constituencies on impeachment rather than the popular press focus on partisan animosity and ethical standards. Though most legislators sided with their constituents on the issue of impeachment a significant number nearly all Republican did not. Using the most recent work on the impact of money on elections Morris investigates the financial dynamics of the Clinton impeachment and argues that our current system of campaign finance enabled House Republicans to impeach the President and provided them with the means to retain their majority in the House. Morris also argues that money and the ability to raise it play a far more important role in the American political system than previously realized often determining the winners and losers in the most important controversies and conflicts facing the nation. **Breaking the Deadlock** Richard A. Posner, 2001-07-05

The 2000 Presidential election ended in a collision of history law and the courts. It produced a deadlock that dragged out the result for over a month and consequences real and imagined that promise to drag on for years. In the first in depth study of the election and its litigious aftermath Judge Posner surveys the history and theory of American electoral law and practice analyzes which Presidential candidate really won the popular vote in Florida surveys the litigation that ensued evaluates the courts the lawyers and the commentators and ends with a blueprint for reforming our Presidential electoral practices. The book starts with an overview of the electoral process including its history and guiding theories. It looks next at the Florida election itself exploring which candidate really won and whether this is even a meaningful question. The focus then shifts to the complex litigation both state and federal provoked by the photo finish. On the basis of the pragmatic jurisprudence that Judge Posner has articulated and defended in his previous writings this book offers an alternative justification for the Supreme Court's decision in *Bush v Gore* while praising the Court for averting the chaotic consequences of an unresolved deadlock. Posner also evaluates the performance of the lawyers who conducted the post election litigation and of the academics who commented on the unfolding drama. He argues that neither Gore's nor Bush's lawyers blundered seriously but that the reaction of the legal professoriat to the litigation exposed serious flaws in the academic practice of constitutional law. While rejecting such radical moves as abolishing the Electoral College or creating a national ballot Posner concludes with a detailed plan of feasible reforms designed to avoid a repetition of the 2000 election fiasco. Lawyers political scientists pundits and politicians are waiting to hear what Judge Posner has to say. But this book is written for and will be welcomed by all who were riveted by the recent crisis of presidential succession. *Bill Clinton* Allan Metz, 2002-03-30
