The Comintern In Mexico:

The Comintern in Mexico Donald L. Herman, 1974 *The Comintern and the Global South* Anne Garland Mahler, Paolo Capuzzo, 2022-12-30

The Comintern and the Global South Global Designs Local Encounters studies the relations and productive tensions between the Third International intellectual histories of racial justice and anti imperialism as well as other forms of internationalism Building on extant institutional histories of the Third International it moves in new directions by focusing on the points of intersection often conflictual and short lived with anti imperialist anti racist and nationalist organizing making the Third International a site of encounter between a global political project and more local and regional contexts Due to the broad range of geographic and linguistic expertise of the contributors this book traces routes of exchange that are often elided in existing studies of the Third International The chapters address how actors from Global South contexts shaped key debates on for example the role of Black Indigenous and migrant labor the Islamic question and the peasant question which challenged Bolshevik epistemological frameworks All such questions involved political subjectivities that the Comintern tried to reductively frame within a global revolution driven by Moscow resulting in the Comintern's ultimate disintegration Nevertheless this juncture between the Comintern's global designs and its local encounters left a significant legacy that would later be reconfigured in mid century anticolonial movements
