Walter Benjamin Marcelo Exp sito, 2013

Borges, Second Edition Lisa Block de Behar, 2014-03-11 Borges cites innumerable authors in the pages making up his life s work and innumerable authors have cited and continue to cite him More than a figure then the quotation is an integral part of the fabric of his writing a fabric made anew by each reading and each re citation it undergoes in the never ending throes of a work in progress Block de Behar makes of this reading a plea for the very art of communication a practice that takes community not in the totalized and totalizable soil of pre established definitions or essences but on the ineluctable repetitions that constitute language as such and that guarantee the

expansiveness through etymological coincidences of meaning through historical contagions through translinguistic sharings of particular experiences of a certain index of universality This edition includes a new introduction by the author and three entirely new chapters as well as updated images and corrections to the original translation **Awake, Emerging, and Connected** Victoria Turner, 2024-07-31 Millennials and Gen Zers have been characterized as individualistic capitalist consumers as politically unengaged and spiritually selfish or only interested in identity politics This edited collection by bringing together younger generations of theologians activists campaigners artists and those working in politics academia the church economics or community work offers a new narrative of justice one that is globally aware and actively intersectional Bringing together powerful young voices with a wealth of contextually grounded experiences of faith and justice spreading over Mexico India Nagaland Germany Wales Ecuador South Africa Palestine Brazil Canada Indonesia Scotland England and the Pacific the chapters in this book imagine daring new possibilities Together the chapters reveal a generation who face a burning politically and religiously right leaning egotistical world and who know clearly that the legacies of Empire which continue white hegemony patriarchy heterosexuality normalized cisgender identities the class war colonial debts Western epistemology and ecological extraction must be overcome and replaced by a transnational solidarity of resistance and reimagination **Sobre la imposibilidad de la traducción** Dámaso López García, 1991 *The Archives of Critical Theory* Isabelle Aubert, Marcos Nobre, 2023-09-30 On the occasion of the 100th anniversary of the foundation of the Institute for Social Research in Frankfurt am Main in 1923 this book aims at shedding light on the archives of some of the key thinkers of Critical Theory of Society also well known as Frankfurt School To pay homage to this current of thought this contributed volume aims to make the archives speak for themselves to show the public the quantity of unpublished material still existing by the authors of the Critical Theory which are now in funds in different parts of the world in Germany in Italy or in the United States and to show that Critical Theory remains alive 100 years after its inception The volume starts by presenting the archives of Karl Marx and Friedrich Engels the thinkers who inspired Critical Theory and the archives of the Institute for Social Research itself Then it dedicates separate sections to the archives of Walter Benjamin Max Horkheimer Theodor W Adorno Friedrich Pollock Herbert Marcuse Leo L wenthal and Jürgen Habermas The book is composed of chapters written by researchers and editors who worked in the different funds as well as chapters written by or interviews with researchers who were or are in charge of some of the archives or who are especially familiar with the material The Archives of Critical Theory will be an invaluable tool for researchers in many disciplines working with Critical Theory of Society such as Sociology Anthropology Political Science Philosophy History Education Law and Cultural Studies among others Readers will find information about the content of each archive and the history of its constitution The various contributions present many ways in which the materials may be explored and explain how such explorations affected or may yet affect the state of the research **Historia de la filosofía III** Johannes Hirschberger, Raúl Gabás, 2015-02-09 La presente obra es ya un cl

Notes for a Decolonial Political Theology Silvana

Rabinovich, 2023-12-29 At the crossroads of ethics poetics and politics this innovative book outlines a series of notes to decolonize political theology The author proposes counter hegemonic forms of reading which deconstruct domination by embracing fragility The book opens with a diapason of prejudicelessness as a decolonial key focusing on prejudices that hinder critical attention to a colonial political theology that perpetuates hatred The first set of notes aims to deorientalize the Semite by reading midrashic and biblical texts in the present context the second seeks to decolonize language by exploring the power of translation and the third ponders decolonial theologies to outline a justice of the other Connecting a number of fields authors and epistemologies the book addresses the Israeli Palestinian conflict and brings together Jewish thought continental philosophy and Latin American perspectives It engages with a range of thinkers including Benjamin and Arendt and features an interview with Enrique Dussel as well as a foreword by Gil Anidjar This is an important methodological proposal for interdisciplinary and intercultural political theology and a valuable contribution towards rethinking the paradigm of political theology beyond its Eurocentric and colonialist premises
