Bottomore, 2012-09-10 First published in 1975 this collection of essays embodies a conception of sociological thought as a critical analysis of social theories and doctrines of social institutions and political regimes of recent social movements They deal in particular with some conservative versions of sociology and with attempts to develop more radical theories they extend the author's previous writings on classes elites and politics and they analyse some of the problems of socialism in the late twentieth century There is a close unity of theme throughout the book in its critical attempt to formulate new intellectual bases for future radical and egalitarian politics It is written with that quiet wisdom and impressive command of sources which readers have come to associate with Professor Bottomore's work **Critical Issues in Social Studies Research for the 21st Century** William B. Stanley, 2001-06-01 The authors of the nine other chapters in this book have struggled with the issues discussed above in several different ways The chapter authors represent a wide range of views and expertise within the field of social studies Some have been leading social studies scholars for three or four decades Other authors represent new voices that have begun to shape the direction social studies will take in the future The topics examined here include the debate over how to define social studies social studies and the impact of the standards accountability movement the contextual constraints restraints on teaching social studies education for democracy rationales for teaching history multicultural education global education social studies and educational technology and the nature and effectiveness of social studies research Vance Packard and American Social Criticism Daniel Horowitz, 2000-11-09 Vance Packard's bestselling books *Hidden Persuaders* 1957 *Status Seekers* 1959 and *Waste Makers* 1960 taught the generation that came of age in the late 1950s and early 1960s about the dangers posed by advertising social climbing and planned obsolescence Like Betty Friedan and William H Whyte Jr Packard 1914 was a journalist who played an important role in the nation's transition from the largely complacent 1950s to the tumultuous 1960s He was also one of the first social critics to benefit from and foster the newly energized social and political consciousness of this period Based in part on interviews with Packard Daniel Horowitz's intellectual biography focuses on the period during which Packard left magazine writing to author his most famous works of social criticism Horowitz traces the influence of Packard's education and early years in rural Pennsylvania providing a deeper understanding of his thought and his later books Packard's life Horowitz contends illuminates the dilemmas of a freelance social critic without inherited wealth or academic affiliation His career also expands our understanding of how one era

shaped the next underscoring how the adversarial 1960s drew on the mass culture of the previous decade Originally published in 1994 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Time, Labor, and Social Domination Moishe Postone, 1996 Moishe Postone undertakes a fundamental reinterpretation of Karl Marx's mature critical theory He calls into question many of the presuppositions of traditional Marxist analyses and offers new interpretations of Marx's central arguments He does so by developing concepts aimed at grasping the essential character and historical development of modern society and also at overcoming the familiar dichotomies of structure and action meaning and material life These concepts lead him to an original analysis of the nature and problems of capitalism and provide the basis for a critique of actually existing socialism According to this new interpretation Marx identifies the core of the capitalist system with an impersonal form of social domination generated by labor and the industrial production process are characterized as expressions of domination generated by labor itself and not simply with market mechanisms and private property Proletarian labor and the industrial production process are characterized as expressions of domination rather than as means of human

emancipation This reinterpretation entails the form of economic growth and the structure of social labor in modern society to the alienation and domination at the heart of capitalism This reformulation Postone argues provides the foundation for a critical social theory that is more adequate to late twentieth century capitalism *Routledge Handbook of Post Classical and Contemporary Persian Literature* Kamran Talattof,2023-06-05 Routledge Handbook of Post Classical and Contemporary Persian Literature contains scholarly essays and sample texts related to Persian literature from the 17th century to the present day It includes analyses of free verse poetry short stories novels prison writings memoirs and plays The chapters apply a disciplinary or interdisciplinary approach to the many movements genres and works of the long and evolving body of Persian literature produced in the Persianate World These collections of scholarly essays and samples of Persian literary texts provide facts general information instructions ways to understand analyze and appreciate this body of works and the field s state of the art research the problematics of the topics regarding one of the most important and oldest literary traditions in the world Thus the Handbook s chapters and related texts provide scholars students and admirers of Persian poetry and prose with practical and direct access to the intricacies of the Persian literary world through a chronological account of key moments in the formation of this enduring literary tradition The related Handbook also edited by Kamran Talattof *Routledge Handbook of Ancient Classical and Late Classical Persian Literature* covers Persian literary works from the ancient or pre Islamic era to roughly the end of the 16th century *Education for Political Life* Iaan Reynolds,2023-07-27 Through a detailed reading of Karl Mannheim s early explorations in the sociology of knowledge this book argues for Mannheim s relevance for contemporary social and political theory As a philosophical project of self reflection the early sociology of knowledge is distinctive for its blend of Marxist social theory and phenomenological investigation making it a valuable resource for current philosophical attempts to relate thought to its social conditions Furthermore the struggle documented in the early days of this project against social critique s tendency to obscure its own perspective provides the best standard by which to assess its own limitations *Essays in Arabic Literary Biography: 1850-1950* Roger Allen,Terri DeYoung,Joseph Edmund Lowry,Devin J. Stewart,2009 The essays which discuss authors in a variety of literary genres and across the spectrum of the region concerned from Iraq in the East to Tunisia in the West provide clear evidence of the gradually changing roles of the indigenous and the imported which are an intrinsic feature of the movement known in Arabic as al bahada cultural revival and the way in which Arab litterateurs chose to respond to the inspiration that such changes inevitably engendered *Encyclopedia of Nineteenth-century Thought* Gregory Claeys,2005 Covering the period from 1789 to 1914 this work primarily deals with key figures and ideas in social and political thinking but entries also include science religion law art concepts of modernity the body and health thereby covering comprehensively the intellectual history of the period **Dickens, Money, and Society** Grahame Smith,2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the

The Philosophy of Philip Rieff William G. Batchelder IV, Michael P. Harding, 2025-01-23 Arguing that Philip Rieff was a Freudian who departed in vital and fascinating ways from Freud and a committed modern who nevertheless viewed modernity as a disaster this book makes clear his thought transcends contemporary left right culture war dichotomies Alasdair MacIntyre described Rieff's early work as a permanently valuable contribution to the human sciences The essays in this volume engage with Rieff's teaching both early and late across a number of different axes and from a number of disciplinary perspectives placing him into dialogue with thinkers such as Plato Nietzsche Freud Weber Heidegger Strauss Pieper Wilde and more The Philosophy of Philip Rieff conveys the utility of Rieff's theory for thinking through various contemporary issues from religion culture and race to the role of elites in a democratic society Philip Rieff's thought offers a key to unlocking the cultural trajectories of late modernity and this interdisciplinary volume engages that work in its depth and complexity while suggesting Rieff's place in the wider philosophic tradition
