## **Social Expectations And Perception The Case Of The Slavic Anthracite Workers:**

**Social Expectations and Perception** Michael A. Barendse, 1981 This study was prompted by the author's observation of a sharp dichotomy in interpretations written before and after the mid 1960s relying largely on the same data regarding the impact of Slavic immigrants on the Pennsylvania anthracite fields. Investigations dated between 1902 and 1964 blamed the Slavic immigrants for the exploitation of anthracite mines, the failure of unionization until 1902 and the relative social backwardness of Northeastern Pennsylvania. The old view led to the split labor market theory which holds that immigrants tend to divide the labor market by their willingness to work for lower wages than those demanded by the established work force. Since 1964 historians such as Victor Greene and Harold Aurand have shown that Slavic immigrants in the anthracite fields were in fact a progressive social influence. Dr Barendse starts with a hypothesis to explain the interpretive dichotomy that social reality is a cultural construct created out of the perceptions and expectations of its creators even when these are professional historians and social scientists. According to this hypothesis based on studies in the sociology of knowledge by Goffman, Berger and Luckman, pre 1964 experts expected Slavic immigrants to be poorly adapted to the social environment of the coal region and therefore perceived the behavior they studied as confirmation of that expectation. A very different picture emerges when the same source material is examined without such biases: the Slavic immigrants, despite alien languages and customs, made a remarkably fast adjustment in the 1890-1902 period as attested to by their acquiring real estate, founding complex organizations such as the Polish National Church, demanding equal treatment on the job and spearheading United Mine Workers organizing strikes. The monograph includes a brief history of the anthracite industry from 1740 to 1890 when the Slavs arrived, a survey of immigration history and an epilogue on the assimilation of Slavic Americans into American society down to the present.

**Dapper Dan Flood** William C. Kashatus, 2010 Dapper Dan Flood explodes the myths surrounding Pennsylvania's most controversial and colorful congressman.

**The Ruined Anthracite** Paul A. Shackel, 2023-08-01 Once a busy if impoverished center for the anthracite coal industry, northeastern Pennsylvania exists today as a region suffering inexorable decline, racked by economic hardship and rampant opioid abuse, abandoned by young people and steeped in xenophobic fear. Paul A. Shackel merges analysis with oral history to document the devastating effects of a lifetime of structural violence on the people who have stayed behind. Heroic stories of workers facing the dangers of underground mining stand beside accounts of people living their lives in a toxic environment and battling deprivation and starvation by foraging, bartering and relying on the good will of neighbors. As Shackel reveals the effects of these long-term traumas, he sheds light on people's poor health and lack of well-being. The result is a valuable on-the-ground perspective that expands our understanding of the social fracturing, economic decay and anger afflicting many communities across the United States. Insightful and dramatic, *The Ruined Anthracite* combines archaeology, documentary research and oral history to render the ongoing human cost of environmental devastation and unchecked capitalism.

Forgotten Radicals Walter T. Howard, 2005 This detailed investigation of Communists and their Party in the hard coal fields of northeastern Pennsylvania known as the Anthracite draws on sources such as the central archives of the Communist Party of the United States to examine the origins growth and decline of the relatively small but active Marxist Leninist organization that operated there during the first half of the 20th century Anthracite Just mentioning the name of the hard coal region of Pennsylvania conjures up classic images of labor violence and class conflict Molly Maguires Lattimer and the 1902 national coal strike Yet this legendary tradition of labor and class discord has prompted no historian to chronicle the complete story of

the region's largest and most active radical group in the 20th century American Communists. They are forgotten radicals. Chronicling the story of these forgotten radicals allows us to examine American Communism in an important area of the highly industrialized state of Pennsylvania where a major capitalist enterprise, the hard coal industry, employed a large contingent of immigrant workers for about half of the 20th century. To be sure, studying these radicals permits us to explore the overall historical pattern of American Communism—the founding of the Party in 1919, the challenges of the 1920s, the heyday of the thirties, the turns of World War II and the decline during the McCarthy period—in a regional context. Thus *Forgotten Radicals* fills a niche in local studies of rank and file Communist activity. *Undermined in Coal Country* Bill Conlogue, 2017-10-15. A study of lives and landscapes in Pennsylvania's Lackawanna Valley and what the region's history of mining reveals about human folly and endeavor. The Chronicle of Higher Education. Deep mining ended decades ago in Pennsylvania's Lackawanna Valley. The barons who made their fortunes have moved on. Low wages and high unemployment haunt the area and the people left behind wonder whether to stay or seek their fortunes elsewhere. Bill Conlogue explores how two overlapping coal country landscapes, Scranton, Pennsylvania, and Marywood University, have coped with the devastating aftermath of mining. Examining the far-reaching environmental effects of mining, this beautifully written book asks bigger questions about what it means to influence a landscape to this extent and then to live in it. In prose rivaling that of Annie Dillard and John McPhee, Conlogue argues that if we are serious about solving environmental problems, if we are serious about knowing where we are and what happens there, we need to attend closely to all places—that is, to attend to the world in a cold, dark and disorienting universe. Unearthing new ways of thinking about place, pedagogy and the environment, this meditative text reveals that place is inherently unstable. **Diamonds in the Coalfields** William C.

Kashatus, 2010-07-27. Between 1876 and 1960, nearly 100 northeastern Pennsylvanians played, managed, coached or umpired in the major leagues. Many were the sons of immigrant coal miners and living and working conditions in America were quite different from what they had been used to. Baseball became an important part of the assimilation process and it thrived as a church-sponsored form of recreation and entertainment for the coal miners and their families. This work explores the childhood and minor and major league experiences of Christy Mathewson, Stan Coveleski, Stanley Bucky Harris, Hughie Jennings, Ed Walsh, Nestor Chylak, Joe Bolinsky, Jake Daubert, John Buck, Freeman Mike, Gazella, Pete Wyshner, John Edward Murphy, Steve O'Neill, John Picus, Joe Lefty, Shaute, Steve Bilko, Harry Dorish, Bob Duliba, Joe Professor, Ostrowski and Stan Pawloski, 21 players, managers and umpires who exemplify the great talent, dedication, humility and hardship that many northeastern Pennsylvanians experienced. *Polish American Studies* Konstantin Symmons-Symonolewicz, 1986. **Before Chappaquiddick** William C. Kashatus, 2020-06-01. On July 18, 1969, a car driven by Senator Edward M. Kennedy plunged off a bridge on Chappaquiddick Island off the coast of Cape Cod. Mary Jo Kopechne, a twenty-eight-year-old former staffer for Kennedy's brother Robert, died in the crash. The scandal that followed demeaned Kopechne's reputation and scapegoated her.

for Ted Kennedy's inability to run for the presidency instead of acknowledging her as an innocent victim in a tragedy that took her life William C Kashatus's biography of Mary Jo Kopechne illuminates the life of a politically committed young woman who embodied the best ideals of the sixties Arriving in Washington in 1963 Kopechne soon joined the staff of Robert F Kennedy and committed herself to his vision of compassion for the underprivileged social idealism tempered by political realism and a more humane nation Kashatus details her work as an energetic and trusted staffer who became one of the famed Boiler Room Girls at the heart of RFK's presidential campaign Shattered by his assassination Kopechne took a break from politics before returning as a consultant It was at a reunion of the Boiler Room Girls that she accepted a ride from Edward Kennedy a decision she would pay for with her life The untold and long overdue story of a promising life cut short Before Chappaquiddick tells the human side of one of the most memorable scandals of the 1960s Purchase the audio edition
