Social Movements And Political Reform In Hong Kong:

Social Movements and Political Reform in Hong Kong Linda Butenhoff, 1999-09-30 Hong Kong society is often regarded as politically apathetic Yet throughout its history Hong Kong experienced periodic waves of social movement activity In part the perception of an apathetic populace stems from the colonial government's laissez faire policies the society's concentration on economic development the maintenance of traditional Chinese culture and a consensus that Hong Kong would revert to Chinese sovereignty Since Hong Kong was a colony instead of evolving into a democratic government Great Britain instituted a system of elite consultation and absorption of the masses political problems through indirect participation Butenhoff addresses the question of why social movements emerged and how they influenced the process of political reform Her study presents and analyzes the activities of social movements so that a clearer picture of civil society and political change from below emerges Butenhoff integrates the literature on Hong Kong civil society and social movements into an integrated approach to analyze social movement influence in Hong Kong politics Her three case studies the independent labor movement the nontraditional Christian movement and the democracy movement are analyzed using a social movement framework She evaluates the forces that drive and sustain social movements and argues that while the Chinese and British governments debated the fate of democratic Hong Kong the Hong Kong people have been overlooked throughout the process And as a result Hong Kong social movements play an essential role in raising the awareness of the people and bringing to light the voices from below

The Dynamics of Social Movements in Hong Kong Stephen Wing Kai Chiu, Tai Lok Lui, 2000-01-01 Studies of Hong Kong society have long focused one sidedly upon economic prosperity and political stability Contributors to this volume redress this imbalance by taking a critical view of Hong Kong's political development from the perspectives of social conflict and collective action Instead of looking at Hong Kong from the top this volume documents the active role played by local actors from below political groups student activists trade unions women groups environmentalists and community organizers and their impact on social and political development in Hong Kong society in the context of political transition and democratization economic restructuring and an emergent local identity

Women's Movements in Asia Mina Roces, Louise Edwards, 2010-06-10 *Women's Movements in Asia* is a comprehensive study of women's activism across Asia. With chapters written by leading international experts, it provides a full overview of the history of feminism as well as the current context of the women's movement in 12 countries: the Philippines, China, Indonesia, Japan, Burma, Singapore, Vietnam, Malaysia, Thailand, Cambodia, Hong Kong, Korea, India, and Pakistan. For each of these countries, the manner in which feminism changes according to cultural, political, economic, and religious factors is explored. The contributors investigate how national feminisms are influenced by transnational factors such as the women's movements in other countries, colonialism, and international agencies. Each chapter also considers what Asian feminists have contributed to global theoretical debates on the woman question, the key successes and failures of the movements, and what needs to be addressed in the future. This breadth of coverage, together with suggestions for further reading and watching and an integrated cross-national timeline, makes *Women's Movements in Asia* ideal for use on courses looking at women and feminism in Asia. It will appeal both to students and specialists in the fields of gender, women's, and Asian studies.

China's New United Front Work in Hong Kong Sonny Shiu-Hing Lo, Steven Chung-Fun Hung, Jeff Hai-Chi Loo, 2019-07-15 This book explores the dynamics of China's new united front work in Hong Kong. Mainland Chinese penetrative politics can be seen in the activities of local pro-Beijing political parties, clans, and neighborhood associations, labor unions, women, and media organizations, district federations, and some religious groups. However, united front work in the educational and youth sectors of civil society has encountered strong resistance because many Hong Kong people are post-materialistic and uphold their core values of human rights, the rule of law, and transparency. China's new united front work in Hong Kong has been influenced by its domestic turn toward hard authoritarianism, making Beijing see Hong Kong's democratic activists and radicals as political enemies. Hong Kong's one country, two systems is drifting toward one country, two mixed systems with some degree of convergence. Yet Taiwan and some foreign countries have seen China's united front work as politically destabilizing and penetrative. This book will be of use to scholars, journalists, and observers in other countries seeking to reckon with Chinese influence.
