Autobiography of intercultural encounters Martyn Barrett, Michael Byram, 2022-11-30 A tool for developing intercultural competence and facilitating the emergence of intercultural citizenship in those who use it In the contemporary world encounters with people from other cultural backgrounds have become part of our everyday lives These intercultural encounters may be used as an opportunity to learn about other cultures to develop our capacities for effective and respectful communication to think about our own cultural affiliations and to reflect on ways in which we might take action for the common good The Autobiography of intercultural encounters AIE is an educational resource that can be used by learners to achieve all of these outcomes It supports learners in thinking about and learning from intercultural encounters that they have experienced either face to face through visual media such as television films magazines or through the internet Revised and updated editions of the various versions of the AIE that have been developed can be found in three separate volumes which accompany the present volume The present volume contains two accompanying papers Context concepts and theories and Concepts for discussion The former discusses the policy context and conceptual and theoretical issues relating to intercultural encounters and is intended for readers who wish to understand the ideas that underlie the design of the AIE The latter provides less technical discussions of key concepts related to culture identity and intercultural encounters and can be used with learners in upper secondary education or the early years of higher education and in non formal and informal education U.S. Government Research Reports , 1964 The Many Faces of Tolerance Ewa A. Golebiowska, 2014-05-23 This book presents a systematic account on Poles attitudes toward ethnic religious political and sexual minorities It

investigates Poland's reputation as an intolerant anti-Semitic and homophobic country. Counter to a simplistic image of Poland as a hotbed of intolerance, the book shows that Polish intolerance has many faces. For one thing, Poles' attitudes toward diversity vary from one group to another. For another, the extent to which Poles' attitudes are more or less negative depends on the right or activity they are asked to support and who the respondents happen to be. The book is the most comprehensive and empirically sophisticated synthesis of Poles' attitudes toward diversity to date. Previous research tends to describe Poles' attitudes toward a single minority at a time and only examines subgroup differences in their thinking about diversity. The *Many Faces of Tolerance* is a multi-faceted analysis of Poles' sentiments toward historically and currently discriminated against groups that assesses Poles' acceptance of different minorities and authoritatively analyzes its sources. As part of this endeavor, the book develops a ranking of influences on Poles' tolerance, undertakes a forecasting of future changes in tolerance in Poland, and proposes practical strategies to ameliorate existing intolerance. Women in Management Worldwide

Ronald J. Burke, Astrid M. Richardsen, 2016-08-12. Organizations today are facing unprecedented challenges including an ageing workforce, potential talent shortages, an increasingly competitive international environment, and the need to utilize the talents of the best qualified people regardless of gender. More women than men in many cases are graduating from universities and gaining the requisite experience to qualify for advancement to higher levels of management. In this expanded and revised third edition, Professors Burke and Richardsen, together with a list of international contributors, address women's progression in the workforce and into the upper echelons of management. They cover a range of professions and a geographically dispersed territory, thereby advancing the understanding of women in management within a traditional context and making a substantial contribution to the literature for both an academic and practitioner audience. The broader regional perspective offers a comprehensive overview of the challenges and opportunities facing women in the workplace and promotes the ongoing analysis of the interface between women's career aspirations and societal and organizational norms, assumptions, and values. Following the same format as the previous edition, the country-by-country analysis allows for the data between countries and regions to be compared for the differences to be addressed and a more holistic picture of the situation in a given country to be assessed. *Women in Management Worldwide* will appeal to researchers, policy makers in a range of countries interested in workforce issues, talent management, and gender equality, as well as consultants working with international organizations on HRM and organizational effectiveness challenges. **Catalog of audiovisual productions**
