Wraga,Peter S. Hlebowitsh,Founding Editor Tanner,Daniel Tanner,2012-08-06 The Research Review for School Leaders Volume III is specifically designed as a practical resource for school leaders whose schedules preclude opportunities to locate and review key research on every issue they must address It places comprehensive current and accessible reviews of educational research at their fingertips and is organized to make the research and practices it summarizes useful to them in their professional endeavors This is the third volume of the Review

Although the title has changed its purpose and substance is continuous with the work of the earlier volumes The first Annual Review of Research for School Leaders 1996 summarized research on the status of public schooling interdisciplinary curriculum and educational applications of computers The second volume 1998 addressed the topics of middle level education the extracurriculum mathematics education reform and drop outs The present Volume III offers educational leaders reviews of research on five timely educational issues citizenship education multicultural education gifted and talented education classroom assessment and scheduling A basic premise of this volume is that to make sound decisions professionals need to be up to date on current research related to the problems with which they grapple A second premise is that research cannot simply be imposed in a formulaic way on a local setting the nature of the particular problem to be solved will always bear upon the relevance of research to a specific context Thus this volume is envisioned as a helpful resource for school leaders as they engage in important discussions of the research with teachers school board members parents and other interested parties as they collaboratively seek effective resolutions to local educational problems
