Turk, 2012-01-19 Chronic back pain continues to be a major cause of distress disability work loss and a huge cost to society This book examines the risk factors and mechanisms involved in the transition from acute to chronic back pain It integrates genetic biomechanical neurobiological psychophysiological psychosocial and socioeconomic risk factors      Illness and Culture in the Postmodern Age David B. Morris, 2023-11-15 We become ill in ways our parents and grandparents did not with diseases unheard of and treatments undreamed of by them Illness has changed in the postmodern era roughly the period since World War II as dramatically as technology transportation and the texture of everyday life Exploring these changes David B Morris tells the fascinating story or stories of what goes into making the postmodern experience of illness different perhaps unique Even as he decries the overuse and misuse of the term postmodern Morris shows how brightly ideas of illness health and postmodernism illuminate one another in late twentieth century culture Modern medicine traditionally separates disease an objectively verified disorder from illness a patient s subjective experience Postmodern medicine Morris says can make no such clean distinction instead it demands a biocultural model situating illness at the crossroads of biology and culture Maladies such as chronic fatigue syndrome and post traumatic stress disorder signal our awareness that there are biocultural ways of being sick The biocultural vision of illness not only blurs old boundaries but also offers a new and infinitely promising arena for investigating both biology and culture In many ways Illness and Culture in the Postmodern Age leads us to understand our experience of the world differently We become ill in ways our parents and grandparents did not with diseases unheard of and treatments undreamed of by them Illness has changed in the postmodern era roughly the period since World War II as dramatically as technology transportation and th      **Psychological Approaches to Pain Management, Second Edition** Dennis C. Turk, Robert J. Gatchel, 2013-12-09 This book has been replaced by Psychological Approaches to Pain Management Third Edition ISBN 978 1 4625 2853 0      Clinical Pain Management : Practice and Procedures Harald Breivik, Michael Nicholas, William Campbell, Toby Newton-John, 2008-09-26 Largely reorganised and much expanded in this second edition Practice and Procedures brings together in a single volume general methods of pain assessment and presents the wide range of therapies that can be provided by a range of health care disciplines Authored by a multidisciplinary team of experts chapters can stand alone for readers looking      **Chronic Pain, Loss and Suffering** Ranjan Roy, 2004-01-01 Loss and grief are an inherent part of chronic illness But while much has been written on grief associated with death and dying the grief and losses accompanying chronic illness have received relatively little scholarly attention In Chronic Pain Loss and Suffering Ranjan Roy a leading expert on chronic pain addresses the complex issues related to loss among those with chronic illness For many patients with chronic intractable pain disorders the course of their illness is unpredictable and varied Many seeming losses are transient and can be redeemed over time for instance through retraining and physical therapy but are still serious and pose a challenge to the common understanding of the grief process

Clinical understanding of grief is undergoing a revolution From its Freudian roots it is shifting more and more to a social psychological perspective The phase task orientation of grief has come under serious scrutiny and this book demonstrates some of the problems inherent in that conceptualization in its application to the chronically ill The author attempts to combine the current state of knowledge through an examination of contemporary literature and clinical application He presents a series of comprehensive case studies which together indicate that the key challenge for many patients is loss of self esteem and control The chapters deal with a range of losses such as job loss declining ability to function loss of family and sexual roles old age and its related losses and suicide Through discussion of the trials and tribulations and successes that chronically ill patients encounter in their journey this work will assist clinicians in helping patients come to terms with their new reality and establish a renewed sense of self
