## **Social Control In Europe 1800 2000:**

*Social Control in Europe: 1800-2000* Herman Roodenburg, 2004      Cultures of Conflict Resolution in Early Modern Europe Stephen Cummins, Laura Kounine, 2017-05-15 Disputes, discord and reconciliation were fundamental parts of the fabric of communal living in early modern Europe. This edited volume presents essays on the cultural codes of conflict and its resolution in this period under three broad themes: peacemaking as practice, the nature of mediation and arbitration, and the role of criminal law in conflicts. Through an exploration of conflict and peacemaking, this volume provides innovative accounts of state formation, community and religion in the early modern period.

**Social Control in Europe** Petrus Cornelis Spiereburg, Eric Arthur Johnson, Clive Emsley, 2004 This two-volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe. The uniqueness of these volumes lies in two main areas. First, the contributors compare methods of social control on many levels, from police to shaming, church to guilds. Second, they look at these formal and informal institutions as two-way processes. Unlike many studies of social control in the past, the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated. Hardly passive victims of discipline and control, these folks instead claimed agency in that process, accepting and resisting, and thus molding the controls under which they functioned. In both volumes, an introduction outlines the origins and the continuing value of the concept of social control. The introductions are followed by two substantive sections. The essays in part one of volume 1 focus on the interplay of ecclesiastical institutions and the emerging states; those in part two of volume 1 look more explicitly at discipline from a bottom-up perspective. The essays in part one of volume 2 explore the various means by which communities, generally working-class communities in nineteenth and twentieth-century Europe, were subjected to forms of discipline in the workplace by the church and by philanthropic housing organizations. It also notes how the communities themselves generated their own forms of internal control. Part two of volume 2 focuses on various policing institutions, exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control, repression and surveillance.

**Caring for the Socially Marginalised in Interwar Europe, 1919-1939** Michele Mioni, Stefano Petrungaro, 2024-11-07 This book investigates the mixed economy of welfare that assisted socially marginalised people in interwar Europe, namely the state, local authorities and a combination of voluntary and informal actors. While literature has traditionally emphasised the key role of the state, the cooperation between public authorities and private actors has always been a staple of social policy in Europe throughout history. The interwar years prominently featured these entanglements between the increased public sphere of action and the voluntary sector. Focusing on three thematic areas: warfare and its effects, boundaries of aid and institutional segregation, and gender and religion, the authors present case studies from various European countries between 1919 and 1939. All contributions explore the variegated world that composed the so-called mixed economy of welfare. By shifting the emphasis to the collaborations and frictions between social

marginals non state actors and public authorities on a local national and transnational level the book challenges too simplistic distinctions between public and private initiatives and reveals the cultural political and practical common traits that featured in European care for marginals across a variety of geographical variations and socio political contexts *The Routledge Handbook of Homelessness* Joanne Bretherton, Nicholas Pleace, 2023-05-22 The Routledge Handbook of Homelessness brings together many of the world's leading scholars in the field to provide a cutting edge overview of classic and current research and future trends in the subject Comprising 41 chapters and divided into four sections the handbook includes A comprehensive introduction to homelessness referring to history culture causation and definitions Contemporary and historical debates around homelessness in different academic disciplines Homelessness relating to gender sexuality youth families migration rurality veterans and health A range of country specific studies to illustrate the ways in which homelessness is researched and understood around the world Methods of engagement and modes of analysis With contributors from around the world and editors from the Centre of Housing Policy at the University of York this handbook provides a groundbreaking and authoritative guide to theory method and the primary interdisciplinary debates of today on homelessness It will be essential reading for students academics and professionals across the disciplines of sociology human geography public policy housing policy social policy social work economics and criminology

**Violence and Colonial Order** Martin Thomas, 2012-09-20 This is a pioneering multi empire account of the relationship between the politics of imperial repression and the economic structures of European colonies between the two World Wars Ranging across colonial Africa Southeast Asia and the Caribbean Martin Thomas explores the structure of local police forces their involvement in colonial labour control and the containment of uprisings and dissent His work sheds new light on broader trends in the direction and intent of colonial state repression It shows that the management of colonial economies particularly in crisis conditions took precedence over individual imperial powers particular methods of rule in determining the forms and functions of colonial police actions The politics of colonial labour thus became central to police work with the depression years marking a watershed not only in local economic conditions but also in the breakdown of the European colonial order more generally

**Crime, Police, and Penal Policy** Clive Emsley, 2007-07-05 This book provides a synthesis of recent research on the history of crime and criminal justice in Europe from the mid 18th to the mid 20th centuries It tackles the subject chronologically paying due attention to the evolving economic social and political aspects of the continent over the two centuries It addresses specifically the different forms of criminal offending and the changing interpretations and understandings of that offending at both elite and popular levels It explores how both old regimes and the new nation states that emerged in the early 19th century responded to criminal activity with the development of police forces and the refinement of forms of punishment

**What We Knew** Eric A Johnson, Karl-Heinz Reuband, 2008-07-31 The horrors of the Nazi regime and the Holocaust still present some of the most disturbing questions in modern history Why did Hitler's party

appeal to millions of Germans and how entrenched was anti-Semitism among the population. How could anyone claim after the war that the genocide of Europe's Jews was a secret? Did ordinary non-Jewish Germans live in fear of the Nazi state? In this unprecedented firsthand analysis of daily life as experienced in the Third Reich, *What We Knew* offers answers to these most important questions. Combining the expertise of Eric A. Johnson, an American historian, and Karl Heinz Reuband, a German sociologist, *What We Knew* is the most startling oral history yet of everyday life in the Third Reich.

**Ordinary Violence in Mussolini's Italy** Michael R. Ebner, 2011. *Ordinary Violence in Mussolini's Italy* reveals the centrality of violence to Fascist rule, arguing that the Mussolini regime projected its coercive power deeply and diffusely into society through confinement, imprisonment, low-level physical assaults, economic deprivations, intimidation, discrimination, and other everyday forms of coercion. Fascist repression was thus more intense and ideological than previously thought and even shared some important similarities with Nazi and Soviet terror.

**Mussolini's policemen** Jonathan Dunnage, 2017-10-03. How successful was Mussolini in creating a force of loyal and committed policemen to defend his regime and assist in the creation of a new fascist civilization? How far were the Italian police transformed under Mussolini, and how did policemen experience the dictatorship? This book examines Italy's regular police in the context of fascism's efforts to modernise and establish ideological control over the state. Contrasting the regime's idealised representations with the more humdrum realities of everyday practice, the book considers the impact of the dictatorship on the Italian police and their personnel. Presenting an inside perspective on fascist repression, it focuses particularly on recruitment, training, and professionalism in the Interior Ministry Police, as well as officers' ideological orientation, working conditions, and quality of life. This book will appeal to students and researchers in police history, Italian fascism, and more generally conflict and oppression in the twentieth century.

**Crime and Justice 1750-1950** Barry Godfrey, Director Barry Godfrey, Paul Lawrence, 2013-06-17. This book provides an introductory text for students taking courses in recent criminal justice history. Chapters cover the key issues central to an understanding of the historical background to the current criminal justice system, covering the crime of murder, the emergence, establishment, and development of the police, crime and criminals, criminals and victims, the courts, and punishment, women and children, and surveillance and the workplace. In addressing each of these issues and developments, the authors explore a range of historiographical and criminological debates that have arisen, looking at the ways in which the disciplines of criminology and history are converging and offering new perspectives on both modern and historical

*Pursuing Johns* Thomas C. Mackey, 2005. In *Pursuing Johns*, Thomas C. Mackey studies the New York Committee of Fourteen and its members' attempts to influence vagrancy laws in early 20th-century New York City as a way to criminalize men's patronizing of female prostitutes. It sought out and prosecuted the city's immoral hotels, unlicensed bars, opium dens, disorderly houses, and prostitutes. It did so because of the threats to individual character such places presented. In the early 1920s, led by Frederick Whitin, the Committee thought that the time had arrived to prosecute the men who patronized

prostitutes through what modern parlance calls a john s law After a notorious test case failed to convict a philandering millionaire for vagrancy the only statutory crime available to punish men who patronized prostitutes the Committee lobbied for a change in the state s criminal law In the process this representative of traditional 19th century purity reform allied with the National Women s Party the advanced feminists of the 1920s Their proposed Customer Amendment united the moral Right and the feminist Left in an effort to alter and use the state s criminal law to make men moral defend their character and improve New York City s overall morality Mackey s contribution to the literature is unique Instead of looking at how vice commissions targeted female prostitutes or the commerce supporting and surrounding them Mackey concentrates on how men were scrutinized Book jacket *Twentieth-Century Spain* Julián Casanova, Carlos Gil Andrés, 2014-07-03 This is a much needed new overview of Spanish social and political history which sets developments in twentieth century Spain within a broader European context Juli n Casanova one of Spain s leading historians and Carlos Gil Andr s chart the country s experience of democracy dictatorship and civil war and its dramatic transformation from an agricultural and rural society to an industrial and urban society fully integrated into Europe They address key questions and issues that continue to be discussed and debated in contemporary historiography such as why the Republic was defeated why Franco s dictatorship lasted so long and what mark it has left on contemporary Spain This is an essential book for students as well as for anyone interested in Spain s turbulent twentieth century

**Criminal Law in Liberal and Fascist Italy** Paul Garfinkel, 2016 The author explains the sustained and wide ranging interest in penal law reform that defined this era in Italian legal history

**International Encyclopedia of Civil Society** Helmut K. Anheier, Stefan Toepler, 2009-11-24 Recently the topic of civil society has generated a wave of interest and a wealth of new information Until now no publication has attempted to organize and consolidate this knowledge The International Encyclopedia of Civil Society fills this gap establishing a common set of understandings and terminology and an analytical starting point for future research Global in scope and authoritative in content the Encyclopedia offers succinct summaries of core concepts and theories definitions of terms biographical entries on important figures and organizational profiles In addition it serves as a reliable and up to date guide to additional sources of information In sum the Encyclopedia provides an overview of the contours of civil society social capital philanthropy and nonprofits across cultures and historical periods For researchers in nonprofit and civil society studies political science economics management and social enterprise this is the most systematic appraisal of a rapidly growing field
