Philosophy and Engineering: Reflections on Practice, Principles and Process Diane P Michelfelder,Natasha McCarthy,David E. Goldberg,2014-01-13 Building on the breakthrough text Philosophy and Engineering An Emerging Agenda this book offers 30 chapters covering conceptual and substantive developments in the philosophy of engineering along with a series of critical reflections by engineering practitioners The volume demonstrates how reflective engineering can contribute to a better understanding of engineering identity and explores how integrating engineering and philosophy could lead to innovation in engineering methods design and education The volume is divided into reflections on practice principles and process each of which challenges prevalent assumptions and commitments within engineering and philosophy The volume explores the ontological and epistemological dimensions of engineering and exposes the falsity of the commonly

held belief that the field is simply the application of science knowledge to problem solving Above all the perspectives collected here demonstrate the value of a constructive dialogue between engineering and philosophy and show how collaboration between the disciplines casts light on longstanding problems from both sides The chapters in this volume are from a diverse and international body of authors including philosophers and engineers and represent a highly select group of papers originally presented in three different conferences These are the 2008 Workshop on Philosophy and Engineering WPE 2008 held at the Royal Academy of Engineering the 2009 meeting of the Society for Philosophy and Technology SPT 2009 at the University of Twente in the Netherlands and the Forum on Philosophy Engineering and Technology fPET 2010 held in Golden Colorado at the Colorado School of Mines

[Urgency and Severity: Pauline Rationale for Expulsion in 1 Corinthians 5:1-13](#) David E. Bosworth,2024-05-21 When Paul heard that a Christ follower in Corinth was in an incestuous relationship with his stepmother the apostle insisted the man be removed immediately from the congregation This dramatic response is surprising as Paul responds to other serious situations with much less vehemence Why did Paul react to the immoral man with such urgency and severity Using socio cultural tools this study explains the importance of group identity and witness for Paul s ecclesiology The argument lays a foundation for contemporary readers to appraise contexts where an expulsive response to sin might be appropriate

Information Technology and the World of Work Daphne Gottlieb Taras,James T. Bennett,Anthony M. Townsend,2017-07-12

Information technologies have become both a means and an end transforming the workplace and how work is performed This ongoing evolution in the work process has received extensive coverage but relatively little attention has been given to how changing technologies and work practices affect the workers themselves This volume specifically examines the institutional and social environment of the workplaces that information technologies have created

Learning Lessons From Waco Jayne Seminare Docherty,2001-11-01 Heated debates about what really happened in Waco are a recurring public drama Yet little or no attention has been given to the work of the negotiators who talked with the Branch Davidians In this important book Jayne Seminare Docherty utilizes largely unexplored sources of data to explain why fifty one days of negotiations by federal officials failed to get all of the Branch Davidians to exit the compound Learning Lessons from Waco applies a theory of worldview conflicts to the more than 12 000 pages of the negotiation transcripts from Waco Through perceptive analysis of the situation Docherty offers a fresh perspective on the activities of law enforcement agents She shows how the Waco conflict resulted from a collision of two distinct worldviews the FBI s and the Davidians and their divergent notions of reality By exploring the failures of the negotiations she also urges a better understanding of encounters between rising religious movements and dominant social institutions Finally the resulting model is applicable to other conflict resolution processes
