These philosophers indicated ways that society should function and how people should behave to maximize happiness and obey the law. The just way to resolve the issue of placing a statue at the park should be dealt with by the City Council. They agreed for the small religious group to erect one and opened the discussion about other groups placing theirs. While the first group discerns its erection to celebrate its doctrines, the others are equally justified to place their statues. However, this would lead to clutter, impeding the park's function and limiting the freedoms of individuals who do not follow any of these religions. In this way, it would be prudent to ban all statutes as each group would be dealt with equally. The initial small religion's permission would result in clutter at the park as others would undeniably feel their rights were denied if they were limited from putting up statues. Furthermore, it is unfair to allow only well-established religions or those with large followings to erect statues while denying their smaller

Salmon, 1995-04-22 Public Opinion and the Communication of Consent offers an unprecedented range of scholarly perspectives on the relationship between public opinion and communication With contributions written from social scientific historical critical and cultural traditions the book illuminates the importance and richness of treating public opinion as a multifaceted concept Written by leading thinkers in the field some of the work's chapters offer state of the art reviews of research findings while others are scholarly treatises on some aspect of communication public opinion and society Topics covered include The nature and institutions of public opinion the influence of media on public opinion social and psychological contexts of public opinion the role public opinion assessment plays in a democratic society Christianity and Civil Society Jeanne Heffernan Schindler, 2008-01-01

Christianity and Civil Society responds to the crisis of American democracy as perceived by such diverse thinkers as Christopher Lasch Michael Sandel Mary Ann Glendon and Robert Putnam Despite their philosophical differences these thinkers highlight a common theme a decline in the institutions of civil society once held to be the vital center of the American polity In place of these institutions such as the family neighborhood church and civic associations one finds a disturbingly reduced socio political stage dominated by an abstract triumvirate of the individual state and market as prime actors Whether taking their inspiration from the political theology of St Thomas Aquinas and papal encyclicals or from John Calvin and his heirs in the Reformed traditions the authors assembled here find the doctrinal resources of Christianity indispensable to defending the irreducible identity and value of the social institutions that serve as the connective tissue of a political community By drawing upon a treasury of social thought little known to most Americans Christianity and Civil Society offers a fresh vantage point from which to assess the crisis of our polity as well as the best prospects for its renewal

Bishirjian, 1982 *Recognition and Ambivalence* Heikki Ikäheimo, Kristina Lepold, Titus Stahl, 2021-07-06 Recognition is one of the most debated concepts in contemporary social and political thought Its proponents such as Axel Honneth hold that to be recognized by others is a basic human need that is central to forming an identity and the denial of recognition deprives individuals and communities of something essential for their flourishing Yet critics including Judith Butler have questioned whether recognition is implicated in structures of domination arguing that the desire to be recognized can motivate individuals to accept their assigned place in the social order by conforming to oppressive norms or obeying repressive institutions Is there a way to break this impasse Recognition and Ambivalence brings together leading scholars in social and political philosophy to develop new perspectives on recognition and its role in social life It begins with a debate between Honneth and Butler the first sustained engagement between these two major thinkers on this subject Contributions from both proponents and critics of theories of recognition further reflect upon and clarify the problems and challenges involved in theorizing the concept and its normative desirability Together they explore different routes toward a critical theory of recognition departing from wholly positive or negative views to ask whether it is an essentially ambivalent phenomenon Featuring original systematic work in the philosophy of recognition this book also provides a useful orientation to the key debates on this important topic **Liberalism, Nationalism, Citizenship** Ronald Beiner, 2003 Liberals believe that the purpose of politics is to guarantee that individuals

do not face unfair impediments in pursuing the lives they choose for themselves Nationalists believe that the purpose of politics is to ensure that a people's sense of authentic nationhood wins full expression in powers of collective sovereignty or self rule Both of these forms of political commitment yield world transforming political philosophies but do either of these visions do adequate justice to a philosophically robust ideal of shared citizenship and civic membership In Liberalism Nationalism Citizenship Ronald Beiner engages critically with a wide range of important political thinkers and current debates in light of the Aristotelean idea that shared citizenship is an essential human calling Virtually every aspect of contemporary political experience globalization international migration secessionist movements the politics of multiculturalism pose urgent challenges to modern citizenship Beiner's work on the philosophy of citizenship is essential reading not just for students of politics and political philosophy but for all those who rightly sense that these kinds of recent challenges
