Smith, 2021-12-14 This book offers unique interdisciplinary insights into developing connections between reflective practice and employability particularly through the lenses of the education and social work professions It recognises the various meanings that can be applied to the notion of reflection and examines the challenges of using reflective practice in the workplace The chapters explore the tensions that arise from preparing professionals to be agents of change and concerned with social justice and equity Further the book provides much needed perspective on how diverse positions can be identified and leveraged and shared meanings negotiated in the creation of meaningful professional learning resources for early career teachers and social workers and across the career continuum Bringing together contributions from internationally renowned scholars Reflective Practice in Education and Social Work is essential reading for early career and experienced professionals in education and social work academics and practitioners seeking further professional development in reflective practice **Practicing Critical Reflection in Social Care Organisations** Jan Fook, 2021-09-09 This book explores concrete examples of different strategies and activities aimed at creating and embedding critically reflective learning and working environments within organisations whose prime function is social care Critical reflection has long been recommended as a general professional skill and is a core component of the practice capabilities in social work in countries across the Western world However despite unequivocal support for it in social work education sustaining critical reflection within organisations as both an individual and collective practices supported by organisational cultures is problematic With contributions from social work practitioners and educators who have sought to embed critical reflection into broader activities and cultures within their organizations the book addresses common features of critical reflection and challenges and benefits in specific case studies.
