**Historical Dictionary of the People's Republic of China** Lawrence R. Sullivan, 2016-08-03 When the Chinese Communist Party CCP assumed power in October 1949 China was one of the poorest nations in the world and so weak it had been conquered in the late 1930s and early 1940s by its neighbor Japan a country one 10th its size More than five decades later the People's Republic of China PRC is an emerging economic political and major military power with the world's fastest

growing economy and largest population 1.35 billion in 2015. A member of the United Nations Security Council since the early 1970s and a nuclear power, China wields enormous influence in the world community while at home what was once a nation of largely poverty-stricken peasants and urban areas with little to no industry has been transformed into an increasingly urbanized society with a growing middle class and an industrial and service sector that leads the world in such industries as steel and textiles while becoming a major player in computers and telecommunications. All the while the country has remained under the tight political control of a one-party system dominated by the Chinese Communist Party that despite periods of intense political conflict and turmoil governs China with a membership in 2014 of 88 million people, the largest single organization on earth. This third edition of *Historical Dictionary of the People's Republic of China* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about China.

**Nonfinancial Defined Contribution Pension Schemes in a Changing Pension World** Robert Holzmann, Edward Palmer, David Robalino, 2012-06-21. Pensions are under scrutiny worldwide in view of increasing life expectancy and adverse demographics. This volume offers an overview of unfunded individual accounts introduced in the mid 1990s in Italy, Latvia, Poland, and Sweden in order to assure a successful adulthood and an even better start for the offsprings.

*China's Economy In Transformation Under The New Normal* Sarah Yueting Tong, Jing Wan, 2017-07-07. This book examines the recent development and prospect of the Chinese economy as the country adapts to changing domestic and external settings. After more than three decades of near double-digit annual expansion, the country's growth decelerated considerably to enter a new era of the so-called New Normal. At the macro level, considerable amount of overhaul is required to improve governance and enhance regulatory effectiveness. These include monetary policy adjustment, financial sector development, and taxation reforms. As the Chinese government at both the central and local levels plays an important role in promoting growth, issues such as the role of local government and the reform of state-owned enterprises are examined in this book. Topics such as the development of private consumption and industrial upgrading are also assessed. The book discusses several matters considered important to China's social and economic cohesion, including the management of agricultural product reserves, the development of a functioning social security system, and regional development. To help project a long-term view of China's economic strength, the book also examines such factors as development in population and the labour market. This book provides a comprehensive analysis of China's economy and identifies the recent developments that matter to China's economic future.

**China's Social Policy** Kinglun Ngok, Chak Kwan Chan, 2015-10-23. This book critically and comprehensively examines China's welfare development amidst its rapid economic growth and increasing social tensions. It covers the main policy areas from China's inception of the open-door policy in 1978 to the new administration of Jinping Xi and Keqiang Li, including social security, health, education,

housing employment rural areas migrant workers children and young people disabled people old age pensions and non governmental organisations In particular it critically analyses the impact of policy changes on the well being of Chinese people

**Chinese Social Policy in a Time of Transition** Douglas Besharov, Karen Baehler, 2013-05-17 The story of China's spectacular economic growth is well known Less well known is the country's equally dramatic though not always equally successful social policy transition Between the mid 1990s and mid 2000s the focal period for this book China's central government went a long way toward consolidating the social policy framework that had gradually emerged in piecemeal fashion during the initial phases of economic liberalization Major policy decisions during the focal period included adopting a single national pension plan for urban areas standardizing unemployment insurance re-establishing nationwide rural health care coverage opening urban education systems to children of rural migrants introducing trilingual education policies in ethnic minority regions expanding college enrolment addressing the challenge of HIV AIDS more comprehensively and equalizing social welfare spending across provinces among others Unresolved is the direction of policy in the face of longer term industrial and demographic trends and the possibility of a chronically weak global economy Chinese Social Policy in a Time of Transition offers scholars practitioners students and policymakers a foundation from which to explore those issues based on a composite snapshot of Chinese social policy at its point of greatest maturation prior to the 2007 global crisis

Sino-Latin American Economic Relations K.C. Fung, Alicia Garcia Herrero, 2012-01-30 This book analyses the economic and policy relationships between China and Latin America Key issues covered by the contributors include international trade and direct investment empirical analysis of the complementary and intra industry trade nature of Latin American and Chinese trade the comparison of the production and trade of parts and components in East Asia and in Latin America and an examination of policy issues such as policies towards small and medium sized enterprises as well as pension reforms

A Protestant Church in Communist China John Craig William Keating, 2012-02-16 Freedom of religious belief is guaranteed under the constitution of the People's Republic of China but the degree to which this freedom is able to be exercised remains a highly controversial issue Much scholarly attention has been given to persecuted underground groups such as Falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government This study investigates the history of one such official church Moore Memorial Church in Shanghai This church was founded by American Methodist missionaries By the time of the 1949 revolution it was the largest Protestant church in East Asia running seven day a week programs As a case study of one individual church operating from an historical rather than theological perspective this study examines the experience of people at this church against the backdrop of the turbulent politics of the Mao and Deng eras It asks and seeks to answer questions such as were the people at the church pleased to see the foreign missionaries leave Were people forced to sign the so called Christian manifesto Once the church doors were closed in 1966 did worshipers go underground Why was this particular church especially chosen to be the first re

opened in Shanghai in 1979 What explanations are there for its phenomenal growth since then A considerable proportion of the data for this study is drawn from Chinese language sources including interviews personal correspondence statistics internal church documents and archives many of which have never previously been published or accessed by foreign researchers The main focus of this study is on the period from 1949 to 1989 a period in which the church experienced many ups and downs restrictions and limitations The Mao era in particular remains one of the least understood and seldom written about periods in the history of Christianity in China This study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise co operation and compliance that categorizes church state relations in modern China

**Handbook of Asian Aging** Hyunsook Yoon, Jon Hendricks, 2018-10-26 In western countries the rising tide of population aging took 100 years to alter the face of societies but Asia is experiencing comparable changes in not much more than a quarter of a century Contributors to The Handbook of Aging describe the magnitude of these changes and their effects on the aged and on societies attempting to adapt to the dramatic improvements in life expectancy brought on by rapid economic and social transformations Asia encompasses a vast reach from Pakistan and India to Japan the Philippines and Indonesia and in this book including Australia The Handbook of Aging provides a framework for making sense of the meeting between reverential views of the elderly and contemporary priorities as Asia arrives at the crossroads The need for innovative approaches to social policy and personal practices is nowhere more evident than in Asian countries where modern marketing economies have forced hard political choices The economic tigers of the Asian Pacific region experienced the aging of their populations ahead of other Asian countries but solutions reached during times of financial boom are being re examined as economies come back to earth with soft or hard landings The Handbook of Asian Aging provides an atlas of the far reaching changes that are afoot and that will become even more pronounced in the near future

*Aging China* Robert Stowe England, 2005-02-28 China the world's most populous nation will enter a period of rapid aging very shortly that will redefine that country Between 2010 and 2040 the portion of people 65 and older will rise from around 7% to between 25 and 30% of the population As China ages can it retain the youthful dynamism now driving it China the world's most populous nation will enter a period of rapid aging very shortly that will redefine that country Between 2010 and 2040 the number of people 65 and older will rise from around 7% to between 25 and 30% of the population As China ages can it retain the youthful dynamism now driving it This book is an effort to try to capture the broad outlines of the significant economic market social and demographic factors that will shape the future of China and the role that aging will play in the whole mix of influences Aging in developed societies and economies has been widely studied In such nations as Japan Germany Italy and Spain for example we know that as populations age their societies decline leaving fewer younger workers to support the growing number of people who will become dependent on costly health care systems or whose basic needs such as food and shelter will need to be subsidized But less work has been done in assessing the potential impact of aging in

developing countries where the majority of people may be working poor not middle class as in the case of China As China restructures its economy the old benefits packages previously available to urban workers and not rural workers are being replaced by a patchwork of benefits across a wide range of enterprises China's Surging Economy John Wong,2007 The Chinese economy today is at a critical crossroads Sustained rapid growth has given rise to structural strains as well as sectoral imbalances It has also generated socio economic problems such as rising income inequality rural discontent and environmental degradation All of these must be addressed before China can enter the next lap of high growth Containing 12 chapters this volume is a collaborative effort of leading economists from Beijing Singapore and elsewhere in the region in analyzing China's economic growth prospects and their concomitant problems and constraints **Social Investment and Social Welfare** James Midgley,Espen Dahl,Amy Conley Wright,2017-05-26 This book contributes to the growing literature on social investment by discussing the way social investment ideas have been adopted in different countries and in various academic and professional fields including social policy development studies and non profit management Documenting the experience of implementing social investment in different communities it encourages a One World perspective that integrates these diverse experiences and promotes policy learning between different nations Household and Living Arrangement Projections Yi Zeng,Kenneth C. Land,Danan Gu,Zhenglian Wang,2013-12-16 This book presents an innovative demographic toolkit known as the ProFamy extended cohort component method for the projection of household structures and living arrangements with empirical applications to the United States the largest developed country and China the largest developing country The ProFamy method uses demographic rates as inputs to project detailed distributions of household types and sizes living arrangements of all household members and population by age sex race ethnicity and urban rural residence at national sub national or small area levels It can also project elderly care needs and costs pension deficits and household consumption The ProFamy method presented herein has substantial merits compared to the traditional headship rate method which is not linked to demographic rates and projects limited household types without other household members than heads The book consists of four parts The first part presents the methodology data estimation issues and empirical assessments The next parts present applications in the United States part two and China part three concerning demographic social economic and business research policy analysis including forecasting future trends of household type size elderly living arrangements disability and home based care costs and household consumption including housing and vehicles The fourth part includes a user's guide for the ProFamy software to project households living arrangements and home based consumptions This book offers an invaluable toolkit for researchers analysts and students in academic public and private businesses whose work is related to levels and rates of change in households population and consumption patterns
