Drama of Democracy Lisa Björkman,2025-09-02 The performative arts of political communication and representation in Mumbai In an era of global political passions many have wondered whether some sort of natural affinity exists between political style and substance Does liberal democracy speak the language of rationality and sincerity while political emotion imagery and embodiment properly belong to authoritarianism Taking an ethnographic approach to the relationship between political form and political content Drama of Democracy explores the material substance of representations things like heady crowds and rousing images together with language based forms of political communication such as public oration and community meetings Drawing on a decade of research in the city of Mumbai Lisa Bj rkman shows that embodied performance is the very site and substance of representation and demonstrates how Mumbaikars evaluate performative bids
