Socialist History Journal 23 Migrants And Minorities:

Voices of Challenge in Australia's Migrant and Minority Press Catherine Dewhirst, Richard Scully, 2021-12-03 This book brings together long obscured histories to discuss Australia's cultural social and political diversity in depth The history of Australia's migrant and minority print media reveals extensive evidence for the nation's global connectedness from the colonial era to today A fascinating and complex picture of Australia's long term transnational ties emerges from the smaller enterprises of individuals and communities in the distant and more recent past This book explores the authentic voices of minority groups which challenged the dominant experiences patterns and debates that have shaped Australia

The Fertility of Migrants and Minorities in Europe Bianca Brünig, 2023-10-19 This book analyses the relationship between assimilation and fertility intentions for migrants and minorities in Europe Building upon assimilation theory it is argued that both migrants and minorities assimilate in the process of intercultural encounters Given that fertility is part of the cultural dimension of assimilation it is likely to be influenced by assimilation Therefore theories on assimilation and fertility are merged theoretically as well as empirically Using data from the Generations and Gender Survey the empirical section builds upon a comparison of Turkish migrants in Germany and the Turkish minority in Bulgaria Building upon cluster analyses six clusters within Germany as well as five clusters in Bulgaria are developed to account for heterogeneity of groups Comparing these clusters in terms of assimilation and fertility intentions it becomes clear that the Turkish minority does not differ in their fertility intentions from the majority For Germany Turkish migrants differ from German natives regarding their fertility intentions but differences are explained by assimilation especially structural characteristics When comparing migrant and minority differences in fertility exist and are accounted for by cultural dissimilarity

The Transnational Voices of Australia's Migrant and Minority Press Catherine Dewhirst, Richard Scully, 2020-11-13 This edited collection invites the reader to enter the diverse worlds of Australia's migrant and minority communities through the latest research on the contemporary printed press spanning the mid nineteenth century to our current day With a focus on the rare radical and foreign language print culture of multiple and frequently concurrent minority groups newspaper ventures this volume has two overarching aims firstly to demonstrate how the local experiences and narratives of such communities are always forged and negotiated within a context of globalising forces the global within the local and secondly to enrich an understanding of the complexity of Australian voices through this medium not only as a means for appreciating how the cultural heritage of such communities were sustained but also for exploring their contributions to the wider society

Migration, Post-Socialism, and Diasporic Experiences. Fragmented Lives, Entangled Worlds / Migration, Postsozialismus und Diaspora-Erfahrungen. Fragmentierte Leben, verflochtene Welten Alina Jašina-Schäfer, Nino

Aivazishvili-Gehne, 2024-11-18 **The Unsettling of Europe** Peter Gatrell, 2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time

and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe Colonial, Refugee and Allied Civilians after the First World War Jacqueline

Jenkinson,2020-04-02 Following the First World War and in actions that challenged Britain's reputation as a liberal democracy various government departments implemented policies of mass repatriation from Britain of populations of colonial and friendly migrants and refugees Many of those repatriated had played a significant part in the war effort and had given valuable service in the combat zones and on the home front serving in the armed forces in labour battalions and employed in key wartime industries such as munitions work the merchant navy and wartime construction This book sets out to uncover why central government decided to implement a policy of repatriation of friendly peoples after the war It also explores the imposition of wartime and post war legal restrictions on these groups as part of a major shift in policy towards reducing the settlement and limiting the employment of overseas populations in Britain **Narratives and Practices of Migrant and**

Minority Incorporation in European Societies Zenia Hellgren,Alexander Gamst Page,Thomas Sealy,2025-02-20 This book explores the disjuncture that emerges at various levels in European diversity management policies and their translation into practice It shows that state wide strategies can only guide diversification outcomes not wholly control them and in practice national level integration policies rely on multi level involvement including authorities at regional or local levels and civil society organisations The book demonstrates a complex and varied picture of the ways in which different European countries engage with ethnic diversity as well as to the internal consistency of the philosophical underpinnings of this engagement As such it draws attention not just to ways in which diversity is done but illuminates processes and narratives which are messy contested and contradictory This book is of key interest to scholars students and practitioners involved in integration ethnic and cultural diversity studies migration and immigration citizenship ethnicity and more broadly to European studies and the wider social sciences British Communism and the Politics of Race Evan Smith,2017-10-02 British Communism

and the Politics of Race explores the role that the Communist Party of Great Britain played within the anti racism movement in Britain from the 1940s to the 1980s As one of the first organisations to undertake serious anti colonial and anti racist activism within the British labour movement the CPGB was a pioneering force that campaigned against racial discrimination popular imperialism and fascist violence in British society The book examines the balancing act that the Communist Party negotiated in its anti racist work between making appeals to the labour movement to get involved in the fight against racism

and working with Britain's ethnic minority communities who often felt let down by the trade unions and the Labour Party. Transitioning from a class based outlook to an embrace of the new social movements of the 1960s-70s the CPGB played an important role in the anti racist struggle but by the 1980s it was eclipsed by more radical and diverse activist organisations.

Struggles for a past Kevin Myers, 2024-06-04 This book examines the construction of ethnic communities and of multicultural policy in post war England. It explores how Irish and Afro Caribbean immigrants responded to their representation as alien races by turning to history. In cultural and educational projects immigrants imagined, researched, wrote and pictured their pasts. They did so because they sought in the past dignity, a common humanity and an explanation of the hostility that had greeted them in England. But the meaning of the past is never fixed. Encouraged and conditioned by the burgeoning field of race relations, these histories were interpreted as expressions of difference. They asserted it was claimed specific ethnic needs and identities. They were the nation's other histories. Drawing on a wide range of sources and covering many different debates, the book seeks to recover the inclusive historical imagination of radical scholars and activists who saw in the past the resources for a better future.

Race, Ethnicity and Migration in Modern Japan: Imagined and imaginary minorities Michael Weiner, 2004

Revolutionary Refugees Christine Lattek, 2006 Filling an important gap in our understanding of the growth of early German socialism, this book is the first to combine the two crucial aspects of the study: socialist political theory and social and cultural environments. An essential student read.

Blacks in Niagara Falls Michael B. Boston, 2021-08-16 Blacks in Niagara Falls narrates and analyzes the history of Black Niagarans from the days of the Underground Railroad to the Age of Urban Renewal. Michael B. Boston details how Black Niagarans found themselves on the margins of society from the earliest days to how they came together as a community to proactively fight and struggle to obtain an equal share of society's opportunities. Boston explores how Blacks came to Niagara Falls in increasing numbers, usually in search of economic opportunities, later establishing essential institutions such as churches and community centers which manifested and reinforced their values and interacted with the broader community seeking an equitable share of other society opportunities. This singular examination of a small city significantly contributes to Urban History and African American Studies scholarly research which generally focuses on large cities. Combining primary source data with extensive interviews gathered over an eighteen year period in which the author immersed himself in the Niagara community, Blacks in Niagara Falls offers an insightful study of how one small city community grew over its unique history.
