## **Socialist Ownership And Political Systems:**

*Socialist Ownership and Political Systems* Włodzimierz Brus, 1975-01-01      **Socialist ownership and political systems. translated** Włodzimierz Brus, 1975      *The Transformation Of Communist Systems* Bernard Chavance, Charles Hauss, Mark Selden, 2019-06-26 In the confrontation between the two main economic systems that has marked the twentieth century capitalism has been declared the winner by default over its adversary socialism Today establishing a market economy has become the primary goal of the formerly socialist countries The history of economic reform helps explain this remarkable turning point Attempts to improve the old centralized system by expanding enterprise autonomy in Poland the Soviet Union and East Germany and more radical reforms that limited the role of central planning in Yugoslavia Czechoslovakia Hungary and China encountered social and political obstacles or had unexpected and undesired effects During the 1980s the idea of a socialist market economy which had been seen as a third way between capitalism and centralized socialism was abandoned as economists gradually came to support a free market rather than the dogma of planning Through a comparative and historical analysis of change in socialist and post socialist systems this timely and original book clarifies the policies and pitfalls in this extraordinary transition Bernard Chavance provides a succinct introduction and analysis of the politics and economics of Eastern Europe from the creation of the Stalinist system in the Soviet Union through what he argues have been three major waves of reform since the 1950s to the dismantling of most socialist governments in the 1990s Exploring the link between the one party regime and the growing rigidity of socialist economic systems the author analyzes the failure of both incremental and radical reforms to adapt to new economic challenges thus leading to the ultimate collapse of communist regimes in Europe      Ideology in a Socialist State Ray Taras, 1984-12-13 Analyzes the changes in ideology of Poland's rule from the October events of 1956 to the lifting of martial law in 1983 to suggest that ideological change has represented the regime's chief means of responding to a postwar cycle of crises      **A Comparative Study of Representative Systems** Yezhong Zhou, 2024-03-27 This book demonstrates the social and historical conditions for the existence and development of the representative system and uncovers the laws dictating its occurrence development and operation Due to the barriers of language and cultural communication the understanding of democracy differs in western and Chinese cultures which leads to many misinterpretations and even bias The book displays the merits and drawbacks of different forms of democracy on the basis of a comparative study of the different representative systems and argues that different representative systems can co exist side by side and that the selection of the appropriate form of democracy must reflect the actual conditions in a given country Therefore a blind evaluation or criticism is unreliable The book could provide good opportunities for western scholars to see how the Chinese scholars understand democracy and the representative system help the westerners to understand the forms of democracy with Chinese characteristics and rationality of the socialist people's representative system grasp the true essence of Chinese Constitution and democracy and

give up their bias towards China for a better communication and mutual understanding This book constructs a theoretical framework for studying the representative system and provides a solid foundation for its further research promoting the improvement and development of constitutional jurisprudence Even today the comparative study of the basic theories system building and operation of the representative system are of great theoretical significance and practical value in the Chinese political development and reform The book is primarily intended for graduates and scholars in the areas of constitutional jurisprudence on China and abroad It is a must read for constitutional researchers and those who want to know the essential differences between Chinese and Western constitutional jurisprudence      **Transition from Socialist to Market**

**Economies** S. Ichimura,T. Sato,W. James,2009-10-21 20 years after the collapse of communism in Central Eastern European countries and 30 years after the start of market oriented reforms in China this book provides a framework for understanding the differing emphasis and sequencing of two reforms and explores in depth these issues in the demise of communism and the triumph of the market economy      *The Politics of Knowledge* David L. Szanton,2004-09-20 The usefulness and political implications of Area Studies programs are currently debated within the Academy and the Administration where they are often treated as one homogenous and stagnant domain of scholarship The essays in this volume document the various fields distinctive character and internal heterogeneity as well as the dynamism resulting from their evolving engagements with funders US and international politics and domestic constituencies The authors were chosen for their long standing interest in the intellectual evolution of their fields They describe the origins and histories of US based Area Studies programs highlighting their complex generative and sometimes contentious relationships with the social science and humanities disciplines and their diverse contributions to the regions of the world with which they are concerned      The British Study of Politics in the Twentieth Century Jack Hayward,Brian Barry,Archie Brown,2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations      *Socialist Models of Development* Charles K. Wilber,Kenneth P. Jameson,2013-10-22 Socialist Models of Development covers the theories and principles in socialism development This book discusses the social evolution of different countries and the historical backgrounds that influence such evolution The opening sections deal with the socialism and economic appraisal of Burma Iraq Syria Tanzania and Africa These topics are followed by discussions of the prospects and problems of the transition from Agrarianism to Socialism of some countries including Angola Guinea Bissau and Mozambique Other sections examine the Socialist Cuba and the intermediate regimes of Jamaica and Guyana The North Korean model of socialism a comparative study of Romanian socialism and Greece capitalism as well as a socialist model of economic development of the Polish and Bulgarian are presented The concluding sections are devoted to the role of management in socialist development and to the agricultural productivity under socialism The book can provide useful information to sociologists political analysts students

and researchers      **Marxism and 'Really Existing Socialism'** A. Nove, 2013-09-27 The late Alec Nove explores the relationship between Marxist ideas and the Soviet reality and presents a methodology for understanding Soviet type societies

Marxism and "really Existing Socialism" Adam Przeworski, Alec Nove, 2001 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality

**Socialist Planning** Michael Ellman, 1989-03-09 First published as a second edition in 1989 *Socialist Planning* was the standard introductory text on the economics of socialist planning

**The Economics of Feasible Socialism** Alec Nove, 2013-10-18 This is a path breaking book Characteristically readable controversial and full of insights Nove identifies a workable socialist programme achievable in the lifetime of a child born today that avoids far fetched or utopian assumptions This text has been immensely influential in the West and is available in translation in China Hungary and the Soviet Union Alec Nove begins by demonstrating why Marx's theories provide a misleading guide to the issues facing economists under any realistically conceivable socialism He goes on to discuss the problems experienced by communist ruled countries especially the Soviet Union and to suggest possible remedies and solutions Nove also examines problems of transition in the context of Western industrialised countries and the Third World He concludes by outlining a possible efficient and human socialism and examines objections to these ideas from the Left and the Right

Socialism After Communism

Christopher Pierson, 1995 Christopher Pierson assesses the evidence of terminal decline but finds rather a whole series of deep seated challenges to traditional forms of socialist and social democratic thinking Above all these problems are to be found in the political economy of social democracy and its commitment to incremental change in the context of an increasingly globalized market economy The latter chapters of the book are devoted to an assessment of market socialism one of the most vigorous and innovative attempts to seek to recast socialist aspirations under these quite changed circumstances In essence market socialism represents an attempt to reconcile new forms of social ownership with the seeming ubiquity of the market Having outlined this position Pierson carefully and systematically critiques it and in the process develops a set of distinctive arguments about the nature of social ownership the potential of the labor managed economy and the appropriate forms for an extension of economic democracy     The Soviet Economic System Olimpiad S. Ioffe, Peter B Maggs, Olimpiad S Ioffe, 2019-07-11 A comprehensive analysis of the Soviet economy from a legal perspective this book discusses the Soviet theory of legal regulation of economic activity and the formal structure of economic legislation The authors argue that two contradictory tendencies characterize the Soviet economic regulatory system reform and retreat from reform Legal reform efforts usually result from the attempt to increase economic efficiency which typically involves according greater independence to lower level economic organizations The danger that political power might be undermined however eventually leads to the reestablishment of the dominance of the central authorities over lower level decisionmaking Drs Ioffe and Maggs also examine the tensions in labor law which must reconcile the needs of the economy for job mobility and high worker morale with administrative ideals of strict discipline and the legal aspects of technology transfer In addition emphasis is placed on the ways that economic legislation is developed and applied in practice the authors note in particular the progress that has been made in systemization and codification of economic legislation     Soviet Law and Soviet Reality Olimpiad S. Ioffe, 2024-12-02     Economic Reform and Political Change in Eastern Europe Judy Batt, 1988-06-21 Economic reform the introduction of elements of the market into a planned economy has been the central political problem for socialist states for at least three decades This book seeks to elucidate the nature of the problem through a reconsideration of the general theoretical issues and through a comparative analysis of the practice of economic reform in two countries Czechoslovakia and Hungary     **Three Political Systems** Martin Burch, Douglas Jaenicke, John Gardner, 1985     The Economics and Politics of Socialism Wlodzimierz Brus, 2013-11-05 The volume focuses on the socio political aspects of economic transformations in the Eastern European Socialist countries Particular emphasis is laid on the problem of interrelations between the plan and the market and between economic incentives and social consumption The volume also examines economic and political factors in the wider political context particularly looking at the question of democratization within industry and politics
