Late Victorian Utopias: A Prospectus, Volume 1 Gregory Claeys, 2021-03-24 This collection of literary utopias calls for a complete overhaul of existing assumptions about utopian writing in this period The representation of utopian texts in these volumes shows that William Morris is far from representative of basic trends in the genre in this era This is Volume 1 of 6 and looks at selected works from 1875 to 1879 Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World Edward Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, 1904 The Life of Saul Bellow Zachary Leader, 2015 Professor Leader marks the centenary of Bellow's birth with an account of the novelist's life The biography will be published in two volumes **The Neoconservatives** Peter Steinfels, 2013-11-19 More than three decades ago in *The neoconservatives* Peter Steinfels described a nascent movement predicting that it would be the sixties most enduring legacy to American politics Now in a new foreword to that portrait he traces neoconservatism's fateful transformation What was a movement of dissenting intellectuals creating a new modern kind of conservatism became a phalanx of political insiders urging the nation to flex its muscles overseas The neoconservatives describes the founders of the movement disenchanted liberals recoiling from the turmoil of the sixties a decline in authority and a loss of tough minded leadership at home and abroad Written contemporaneously to the birth of the movement that would profoundly mark American history *The neoconservatives* holds clues Steinfels argues to how and why neoconservatism swerved from its original promise even as it successfully implanted itself as an influential and aggressive element in our politics **Morality and the Literary Imagination** Gabriel R. Ricci, In a letter to Boccaccio Petrarch

extolled the virtue of poetry and letters for promoting an understanding of both human nature and morals The letter was designed to console him after hearing a prediction that he was soon to die and that he ought to renounce poetry The prophecy came from an elder renowned for his piety but Petrarch admonished that too often dishonesty and fraud are couched in religious sentiments Nothing not even death according to Petrarch ought to divert us from literature For Petrarch Virgil was the source for understanding how literary studies not only promote eloquence but enhance morals If anything literature dispels the fear of death The claims of this volume is that it may be the case that the virtuous life can be achieved by those ignorant of letters but a more direct and certain route is guaranteed by a devotion to literature The collected works in this new volume of the Transaction series Religion and Public Life heeds Petrarch s advice that literature not only orients us to life s developmental stages it can provide us with a more complete understanding of the human character while artfully advancing morals To this end Michelle Darnell s opening chapter entitled A New Age of Reason explains how existentialism is an argument for how literature can take on philosophical form not as formal argument but as persuasive narrative Over the objections of even those who study Sartre Darnell uses Sartre s The Age of Reason as a model and shows how his literary output was a legitimate philosophical inquiry In addition to the Darnell piece the volume boasts a series of outstanding and innovative works by scholars in the field Taken together as a whole these authors not only illustrate the moral consequences of an original choice but oblige the reader to explore the ramifications of such a choice in one s own life Gabriel R Ricci is professor of humanities and the chair of the Department of History at Elizabethtown College He is the author of Time Consciousness The Philosophical Uses of History and the editor of Transaction s much admired Religion and Public Life series

Italo Calvino's Architecture of Lightness Letizia

Modena,2011-05-09 This study recovers Italo Calvino's central place in a lost history of interdisciplinary thought politics and literary philosophy in the 1960s Drawing on his letters essays critical reviews and fiction as well as a wide range of works primarily urban planning and design theory and history circulating among his primary interlocutors this book takes as its point of departure a sweeping reinterpretation of Invisible Cities Passages from Calvino's most famous novel routinely appear as aphorisms in calendars posters and the popular literature of inspiration and self help reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box The shadow of postmodern studies has had a similarly diminishing effect on this text rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals the shiny surfaces of play and the ultimately rigged game of self referentiality In contrast this study draws on an archive of untranslated Italian and French language materials on urban planning architecture and utopian architecture to argue that Calvino's novel in fact introduces readers to the material history of urban renewal in Italy France and the U S in the 1960s as well as the multidisciplinary core of cultural life in that decade the complex and continuous interplay among novelists and architects scientists and artists literary historians and visual studies scholars His last love poem for the dying city was in fact profoundly engaged deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired The Revolutionary Imagination Alan M. Wald,1983 Revolutionary Imagination The Poetry and Politics of John Wheelwright and Sherry Mangan **Consciousness and Society** H. Stuart Hughes,2017-07-05 Hughes ideas and the way they are expressed in Consciousness and Society have become paradigms of twentieth century scholarship In dealing with the changing social thought after 1890 in Europe Hughes covers a wide array of thinkers and issues in a scholarly yet graceful manner His is a study of the cluster of genius of Europe at that time Croce Durkheim Freud Weber and Nietzsche as well as other great European minds The book explores questions that are still relevant in today's society Is the separation of facts and values tenable or even desirable Can rationality accommodate the ideas of a Bergson or a Freud Is there or should there be a relationship between science and religion And does history have any ultimate meaning for later generations *Pessimism - Bailey* Joe Bailey,2013-11-26 First Published in 1988 Pessimism is a peculiar idea It is either seen as a psychological problem or as a metaphysical issue but in neither sense is it treated as useful or illuminating or in any way relevant to our understanding of the world It is the thesis of this book that pessimism and optimism are unavoidable kinds of social judgment of the future which we all display and act upon
