The Local Origins of Modern Society David Rollison, 2005-08-11

Through a series of sharply focused studies spanning three centuries, David Rollison explores the rise of capitalist manufacturing in the English countryside and the revolution in consciousness that accompanied it. Combining the empiricism of English historiography with the rationalism of Annales and drawing on ideas from a wide range of disciplines, he argues that the explosive implications of the rise of rural industry created new social formations and altered the communal, cultural and social contexts of people's lives. Using localized case studies of families and individuals, the book starts with significant detail and moves out to build up a subtle and innovative view of English cultural identities in the early modern period.

**The Realms of Apollo** Raymond A. Anselment, 1995-07. In *The Realms of Apollo*, literary scholar Raymond A. Anselment examines how seventeenth century English authors confronted the physical and psychological realities of death. Focusing on the dangers of childbirth and the terrors of bubonic plague, venereal disease and smallpox, the book reveals in the discourse of literary and medical texts the meanings of sickness and death in both the daily life and culture of seventeenth century England. These perspectives show each realm anew as the domain of Apollo, the deity widely celebrated in myth as the god of poetry and the god of medicine. Authors of both formal elegies and simple broadsides saw themselves as healers who tried to find in language the solace physicians could not find in medicine. Within the context of the suffering so unmistakable in the medical treatises and in the personal diaries, memoirs and letters, the poet's struggles illuminate a new cultural consciousness of sickness and death.

Theatre, Court and City, 1595-1610 Janette Dillon, 2006-11-02. This book explores the vital and interactive relationship between city and court in the drama of Shakespeare's time. The growth of purpose-built playhouses in late sixteenth century London began to shift the focus of performance for many companies away from provincial touring, making the city a more conspicuous presence in drama. Janette Dillon looks at relations between drama and city through the wider lens of fashion.

and commercialism examining in particular the developing West End area along the Strand She argues that the drama is oriented towards both the city of London and the court rather than to one or the other as previous studies have assumed The book is organized around physical and social forms of theatre space It ranges from analysis of well known plays such as Shakespeare's *Love's Labour's Lost* and Jonson's *Epicoene* to lesser known drama by Heywood and the newly discovered Jonsonian entertainment Britain's Bourse

**Flesh in the Age of Reason** Roy Porter, 2004 Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul Roy Porter charts how through figures as diverse as Locke Swift Johnson and Gibbon ideas about medicine politics and religion fundamentally changed notions of self He shows how the Enlightenment with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries provided a lens through which we can best see the profound shift from the theocentric otherworldly Dark Ages to the modern earthly body centered world we live in today As man made in God's image gave way to the Enlightenment's notion of the Self made man the body moved center stage Porter writes brilliantly on the ways in which men and women flaunted decorated tanned and dieted themselves activities that we find familiar but that a Puritan divine would have considered satanic And he explores how at the end of the century the human soul took on a new significance in the works of Godwin Blake and Byron

**The Shepheardes Calender** Lynn Staley Johnson, Lynn Staley, 2010-11 The Shepheardes Calender is the poem that launched Edmund Spenser's career and changed the direction of English poetry In this reappraisal Lynn Staley Johnson demonstrates that Spenser himself made a self conscious effort to create a new literature a new esthetic for a new era Drawing upon a wide range of primary sources she places the poem in its literary social political and cultural context contributing to our understanding of the relationship between Spenser and his times She

pays particular attention to the emergence of the myth of Elizabeth and of England during the first half of Elizabeth's reign and the ways in which the young Spenser manipulated the concerns and issues of the time transforming popular culture into literary expression. By its active engagement with both the present and the past the Calender suggests Spenser's conception of poetry as informed dialogue designed for social work offering a reinterpretation of the relationship between the poet and his community. Choosing not to be circumscribed by the voices of his significant historical and literary past the Calender proclaims the poet not as transmitter or mediator but as an active and shaping force capable of remaking the present by offering his age a picture of a new and potentially more glorious reality. Johnson seeks to bridge the gap between the literature of the Middle Ages and the Renaissance by linking Spenser's strategies and themes to those of his medieval forebears especially Chaucer. Both Edmund Spenser and his enigmatic Calender stand facing two ways back into the age dubbed as it's study demonstrates only by bringing these views into a single focus can we begin to appreciate the radical and innovative nature of a poem that for many heralds the renaissance of English poetry.

**Historical Criticism and the Challenge of Theory** Janet Levarie Smarr, 1993

**The Discontented Cavalier** Robert Wilcher, 2007 Presents a study of the literary output of Sir John Suckling. This work reconstructs the various contexts in which the poems, plays, letters and prose tracts were produced and reveals the nature of one writer's engagement both creative and subversive with the social, religious, political and cultural dimensions of Caroline England.
