Mishra, Andrews José de Lucena, Brij Maharaj, 2024-08-27 This volume showcases how the climate change phenomena CCP have been causing multifaceted threats to humankind through increasing numbers of extreme events affecting social economic and human development worldwide The Global South is especially showcased in this contributory volume where adverse effects of CCP and related disasters impact majority of the population which depends on land and natural resources for their livelihoods This book asserts that climate change and extreme events are potential threats to sustainable human development and micro spatial observations and analysis of impacts of CCP are vital for adopting resilience policies This book not enquiring why CCP is happening embarks on a quest to showcase how best to respond to such phenomena through detailed and well founded micro spatial investigations on poor farmers pastoralists fishermen folk migrant labours slum dwellers who are considered the most threatened by climate changes and weather shocks based on possible disruptions in the production process Scholarly contributions in this volume analyze how local and regional versions of CCP actively challenge the economies and livelihoods question the social securities and good governance and how such phenomena ultimately become a constraint in achieving sustainable development in the Global South This volume accommodates many aspects of regional adaptation strategies in vulnerable areas and groups in different parts of the Global South to ensure

stability and peacefulness Academicians research scholars and readers inquisitive about the socio economic dimensions of climate change in the Global South will find the discussions across different chapters of this volume interesting

**Socioeconomic Change and the Demand for Children in Rural Bangladesh**, 1995 **Inclusive Developments through Socio-economic Indicators** Ramesh Chandra Das, 2023-07-19 Proposing issues that hinder equal development Inclusive Developments through Socio economic Indicators New Theoretical and Empirical Insights focuses upon the roles of different socio economic indicators in explaining the convergence or inclusiveness of income across groups of varying wealth as well as within larger economies **Politics of Socio-economic Change in India** P. Sood, 1979 On the problem of constitutional changes in India to bring about socioeconomic progress *Integrated Protected Area Management* Michael Walkey, Ian R. Swingland, Shaun Russell, 2012-12-06 Protected areas have become an increasingly important tool both in the conservation of biodiversity and in revenue generation through sustainable use This is the only sure way to guarantee the protection necessary for many species habitats and ecosystems in the future Integrated Protected Area Management features contributions that consider the design management and sustainable use of these regions Three principal aspects are considered the theory and practice of designation community based conservation and the concept of sustainability identifying priorities for management The emphasis throughout is on the importance of an interdisciplinary approach to planning and the active involvement of all stakeholders in decision making processes as a means of ensuring long term sustainability

FORMAL AND INFORMAL SECTOR: CAUSES, CONSEQUENCES AND GOVERNMENT MEASURES IN SOCIO-ECONOMIC DEVELOPMENT Dr. Chinmoy Sarkar, Prof. Sandipan Bhattachariya, Dr. Ranjan Sarkar, 2024-02-15 Formal and Informal Sector in India Causes Consequences and Policy framework in socio economic development is an endeavor of the Research Wing of Siliguri College of Commerce Siliguri to get an insight about the emerging issues faced by the formal and informal sector in India As a developing economy India has grown in GDP terms since 2005 and is one of the fastest growing economies in the world as of now overtaking the GDP of Great Britain in 2022 Apart from her satisfactory growth in terms of formal planning the size and magnitude of India's informal sector is something which is a concern for both researchers and planners Large informal clusters in metro cities of Argentina Brazil and Mexico as well as in emerging metros like Surat Siliguri Bhopal and Vijaywada may thwart any comprehensive planning premises of a welfare state There are issues of livelihoods and educational attainments if the informal base is large and operate beyond the spectrum of Government initiatives The vulnerabilities of the migrant workers the livelihoods of small traders and the literacy attainments of the school going children enrolled in low cost public schools were severely impacted when India was closed down for almost 187 days in 2020 2022 during the COVID crisis The presence of informal workers in agricultural sector small scale industries MSMEs and informal employment is anything close to 235 million in India There has been sincere efforts by our Governments to uplift the rural poor and the marginalized urban clusters by means of self employment schemes and tax

incentives but such efforts do not reach the informal economy Therefore the main focus lies in integrating these clusters with the formal economy This is undoubtedly a formidable task Further there is a need for a national floor to protect the wages of the clusters operating in the informal sector in terms of minimum wage health and safety measures as well as literacy attainments On the other side schooling literacy attainments and livelihoods were severely affected during the lockdown

These are the issues which are raised in this publication **Changes in Socio Economic Status of Women in Bihar after Independence** Rajiv Kumar Jha, Women represent nearly half of the country s population Therefore the need to bring women into the mainstream of the development is the prime concern of the country today Investment towards women s capacity building and empowering them to exercise their choice is not only valuable in itself simultaneously it is also the surest way to contribute to economic growth and overall development of society The broad objectives of study are to examine the changes of socio economic status of women in Bihar "SOCIO-ECONOMIC DEVELOPMENT AND ENVIRONMENTAL SUSTAINABILITY : THE INDIAN PERSPECTIVE" Dr. Ranjan Sarkar,Gopal Das,2020-06-29 The book The Socio Economic Development and Environmental Sustainability The Indian Perspective presents a multi dimensional facet of Socio Economic Development and Environmental Sustainability in India The book consists of three parts under which a total number of 25 research articles are there The unscientific exploitation of natural resource and rapid urbanization results into the unwanted overshoot which ultimately making our earth vulnerable to natural disasters and calamities The book has also explored the demographic trends and urbanization in Indian Context It has also emphasized on the various dimensions of socio economic development and its regional disparity in a planned way The present volume is associated with such problems and accounted for the suitable measures to unlock a new direction towards balanced Economic growth and Environmental Sustainability

Sanderson,1978 **In Pursuit of Climate Resilience** Chiradeep Basak, Devapreeti Sharma, Krishangee Bhattacharyya, Lidia K Kharmih,2020-01-01 Our environment is affected by several factors namely physiographic biotic and climatic Across the globe we are witnessing several climatic events Although the climate is a common concern of humankind but human activities itself have been substantially contributing to the enhancement of concentrations of greenhouse gases The change in climate is attributed directly as well as indirectly to human actions affecting the totality of the biosphere This book is a humble attempt to bring some of the multidisciplinary aspects relating to Climate Change An effort has been made to maintain the original plan of this first environmental law publication and its distinctive qualities of explaining several multidisciplinary facets of Climate Change It is hoped that this first publication of Centre for Environmental Law National Law University and Judicial Academy will

occupy a premier status as an unrivalled classic on the cross disciplinary areas relating to Climate Change This book not only highlights the legal dimension of climate change ranging from international to national municipal frames but also socio economic aspects of Climate Change The editors hope that the readers will find this book enriching and informative

Deforestation and Socio-economic Environment Jasleen Kewlani,2012 Study conducted in Gurd spur District of Kandi area Punjab India      **Urban Environment and Smart Cities in Asian Countries** Uday Chatterjee,Anzhelika

Antipova,Shovan Ghosh,Sushobhan Majumdar,Martiwi Diah Setiawati,2023-05-27 This book offers a thorough description of the challenges posed by increasing global urbanization In addition comprehensive perspectives are offered on how the contemporary urban challenges of our time are tackled by existing designers architects urban planners and landscape architects thereby considering climate change migration resilience politics and environmental degradation It includes insights from environmental design geography strategic planning and engineering design It goes beyond the jargon of technical innovation and exposes the political social and physical effects of digitalizing the world in smart cities The book focuses on the application of geospatial technology of smart cities including system design for basic services real time control and the Internet of Things It highlights the planning of land use strategic development and ecosystem based knowledge to enhance economic growth and healthy urban environment and smart city management The book also shows the contradictory aspects of smart city studies and provides useful insights into the creation and execution of policies to strengthen decision making processes in smart cities This book leads the reader to a greater understanding of smart city growth both theoretical and realistic and as such it provides an interesting read for urban geographers urban designers and planners environmental specialists practitioners students      Cumulated Index Medicus ,1990      *State Power and Social Forces* Joel Samuel

Migdal,Atul Kohli,Vivienne Shue,1994-08-26 This eminently readable 1994 collection of high quality country specific essays on Third World politics provides through a variety of well integrated themes and approaches an examination of state theory as it has been practised in the past and how it must be refined for the future The contributors go beyond the previously articulated bringing the state back in model to offer their own state in society approach They argue that states which should be disaggregated for meaningful comparative study are best analysed as parts of societies States may help mould but are also continually moulded by the societies within which they are embedded States capacities further will vary depending on their ties to other social forces And other social forces will be capable of being mobilised into political contention only under certain conditions Political contention pitting states against other social forces may sometimes be mutually enfeebling but at other times mutually empowering      Ecological Footprints of Climate Change Uday Chatterjee,Angela Oyilieze

Akanwa,Suresh Kumar,Sudhir Kumar Singh,Abira Dutta Roy,2023-01-01 This book explores global implications of human activities that trigger changes in climate and the appropriate scientific adaptive and sustainable approaches as a proven information tool It reveals that the ecological social and economic dynamics of the changing earth encompasses huge

uncertainties coupled with its ability to be linked to other forms of global change From a scientific perspective multiple efforts are expedient to integrate the many aspects of global changes Increases in science and technology have afforded nations the ability to plan for the future by investing in adaptive and mitigative measures to monitor present and future changes Just as the climatic and ecological impacts of climate change are unequally distributed so is the adaptive capacity to cope with these impacts in different nations Considering that wealth infrastructure and political stability all contribute to a nation s capacity to anticipate and respond to change So global South nations who are disadvantaged in these areas are faced with more inequalities and more unique adaptive strategies There is need for increased aggregate efforts and interaction between scientists stakeholders and policy makers to improve both decision making and global change in science Scientists and researchers need to work on expanding the range of policies that are proposed debated and implemented This way novelty new ideas and methodologies are infused into the society At this point of multiple climate footprints there is an immense need to explore all ideas evaluating their possibilities in presenting alternative futures developing alternative policies and adaptive options to solve the intractable ecological footprints of climate change
