Behavioral Science Series**

David Finkelhor

Sociological Methodology 1973 1974 The Jossey Bass Behavioral Science Series:

Library of Congress Catalogs Library of Congress,1976 **Monographic Series** Library of Congress,

Longitudinal Field Research Methods George P. Huber,Andrew van de Ven,1995-08-02 Eleven papers some of which have appeared previously as contributions to the journal *Organizational Science* emphasize a range of methodological issues involved in longitudinal field research including ethnographic methods longitudinal and comparative case studies event history analysis and real time tracking of events as well as procedural *Political Violence, Crises and Revolutions*

(Routledge Revivals) Ekkart Zimmermann,2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups D tat Revolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items **Methods of Social Research**

Kenneth D. Bailey,1994 An introduction for undergraduates to every stage of sociological research showing how to deal effectively with typical problems they might encounter The book is fully updated to include examples from the LA riots and the 1992 presidential elections *Progress in Behavior Modification* Michel Hersen,Richard M. Eisler,Peter M. Miller,2013-10-22 *Progress in Behavior Modification* Volume 10 covers the developments in behavior modification The book discusses the conceptual structure for the assessment of social skills the statistics to evaluate measurement accuracy and treatment effects in single subject research designs and the behavioral treatment of obesity in children and adolescents The text also describes social cueing processes the therapeutic utility of abbreviated progressive relaxation and social skills training for the job interview The role and uses of psychopharmacological agents in behavior therapy are also considered Psychologists psychiatrists and sociologists will find the book invaluable *The Dark Side of Families* David

Finkelhor,1983-03 This series of articles portrays the state of the art on family violence and abuse research crystallizes the key interdisciplinary issues confronting family violence and abuse researchers and suggests a research agenda for the coming years Although the chapters cover a broad spectrum of issues and controversies in the areas of wife abuse child abuse the sexual abuse of children and marital rape a number of common themes and issues emerge First many chapters share the perspective that violence and abuse emerge from the nature of social arrangements Second even though many different forms of family violence and abuse are discussed several chapters explore their commonalities and important etiological differences A number of articles examine the common effects of victimization across various forms of family

violence and abuse A third common theme of the papers is an expansion of research efforts to groups other than victims of family violence and abuse as there are chapters that examine the individual and social characteristics of male perpetrators of both wife abuse and child abuse as well as chapters that focus on the attitudes and behaviors of professional groups concerned with the treatment of victims of family violence and abuse The volume shows great methodological diversity and attention to theoretical detail the research presented reveals the possibility of a more comprehensive social science approach to the study of family violence and abuse In work related to theory building one chapter explains a number of findings in the child abuse and neglect literature using propositions derived from evolutionary biology another paper distills propositions from several theoretical traditions In conjunction with these efforts several chapters report research designed to test competing propositions Chapter references and research data are provided Typologies and Taxonomies Kenneth D. Bailey,1994-06-13 How do we group different subjects on a variety of variables Should we use a classification procedure in which only the concepts are classified typology one in which only empirical entities are classified taxonomy or some combination of both In this clearly written book Bailey addresses these questions and shows how classification methods can be used to improve research Beginning with an exploration of the advantages and disadvantages of classification procedures including those typologies that can be constructed without the use of a computer the book covers such topics as clustering procedures including agglomerative and divisive methods the relationship among various classification techniques including the relationship of monothetic qualitative typologies to polythetic quantitative taxonomies a comparison of clustering methods and how these methods compare with related statistical techniques such as factor analysis multidimensional scaling and systems analysis and lists classification resources This volume also discusses software packages for use in clustering techniques Methods of Social Research, 4th Edition Kenneth Bailey,2008-06-30 An introduction for undergraduates to every stage of sociological research showing how to deal effectively with typical problems they might encounter The book is fully updated to include examples from the LA riots and the 1992 presidential elections **Political Survival** Barry Ames,2024-03-29 In Political Survival Barry Ames shows how public policy especially the public budget is used by political leaders seeking to construct coalitions insuring their survival in office Political theorists comparative politics specialists public policy experts and scholars of Latin America will want to read this book This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 In Political Survival Barry Ames shows how public policy especially the public budget is used by political leaders seeking to construct coalitions insuring their survival in office Political theorists comparative politics specialists public policy e *The 5-year Outlook on Science and Technology, 1981* ,1981 Surveying Subjective Phenomena Charles Turner,Elizabeth

Martin,1985-03-28 In January 1980 a panel of distinguished social scientists and statisticians assembled at the National Academy of Sciences to begin a thorough review of the uses reliability and validity of surveys purporting to measure such subjective phenomena as attitudes opinions beliefs and preferences This review was prompted not only by the widespread use of survey results in both academic and non academic settings but also by a proliferation of apparent discrepancies in allegedly equivalent measurements and by growing public concern over the value of such measurements This two volume report of the panel s findings is certain to become one of the standard works in the field of survey measurement Volume I summarizes the state of the art of surveying subjective phenomena evaluates contemporary measurement programs examines the uses and abuses of such surveys and candidly assesses the problems affecting them The panel also offers strategies for improving the quality and usefulness of subjective survey data In volume II individual panel members and other experts explore in greater depth particular theoretical and empirical topics relevant to the panel s conclusions For social scientists and policymakers who conduct analyze and rely on surveys of the national state of mind this comprehensive and current review will be an invaluable resource *Courts of Appeals in the Federal Judicial System* J. Woodford Howard Jr.,2014-07-14 Courts of Appeals were designed to be a unifying force in American law and politics but they also contribute to decentralization and regionalization of federal law Woodford Howard studies three aspects of this problem first what binds the highly decentralized federal courts into a judicial system second what controls the discretion of judges in making law and policy and third how can quality judicial decisions be maintained under heavy volume pressure Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Estimating the Effects of Social Intervention** Charles M. Judd,David A. Kenny,1981-10-30 **Economic Decline and Political Change** Harold D. Clarke,Marianne C. Stewart,Gary Zuk,2010-11-23 In the 1970 s an age of affluence ended abruptly in Canada Great Britain and the United States Skyrocketing inflation persistent unemployment and sluggish growth became new oppressive realities for government and citizens alike This book examines the changes that occurred in economic policymaking on the governmental level and the public s response to such changes This timely collection of essays sheds light on the political economy of three of the world s oldest democracies in an era of economic distress and uncertainty Sociological Human Ecology Michael Micklin,Harvey M Choldin,2019-09-18 First published in This volume grew out of concerns raised by the contributors and a few others over the current status of human ecology within the field of sociology Stemming from conferences and subsequent discussions by a group of sociologist demographers on recent developments in sociological human ecology which started at the annual

meeting of the Population Association of America in 1976 the original essays contained in this book are designed to review and assess the current state of knowledge in the field Homeward Bound Glenn R. Parker, 2010-11-23 Richard Fenno first coined the term home style to describe the ways in which members of Congress cultivate the voters of their home constituencies He suggested that incumbents were paying more attention to their constituents than they had in the past In this book Glenn Parker examines the relationship between activities at home and in Washington asking specifically Why and when did congressmen and senators begin to pay more attention to their constituents And what are the institutional consequences of this change Using data drawn from the travel vouchers filed by incumbent senators and congressmen between 1959 and 1980 Parker shows that since the mid 1960s incumbents have been placing greater emphasis on service to their state or district Congress has facilitated this change in various ways such as by increasing travel allowances and by scheduling that minimizes the conflict between legislative business in Washington and time spent with constituents Parker's study includes both the Senate and House and he draws distinctions between the home style behaviors of senators and representatives He also provides a historical context for understanding the dynamics of changes in home style The time series data generate explanations that specify relationships among historical conditions individual behavior and institutional structures Structural Equation Modeling Robert Cudeck, K. G. Jöreskog, Dag Sörbom, Stephen Du Toit, 2001 Handbook of Child Psychopathology Michel Hersen, 2013-11-11 Although the field of child psychopathology is of relatively recent origin it is a healthy burgeoning one Within the past 10 to 20 years numerous articles and books have been published and the field can now be described as emerging with an identity of its own No longer can child psychopathology be viewed simply as a downward extension of adult psychopathology Rather children must be viewed as children not as miniature adults Such a situation requires that issues of child psychology and developmental psychology be intimately considered when delineating the problems of children Such a focus has guided our efforts in soliciting contributors and topics for this volume All contributors are active researchers and clinicians in the area of child psychopathology and all are acutely aware of the special considerations of child and developmental psychology as they relate to child behavior problems Further all contributors are empirically minded consequently the various chapters are data based and represent the most up to date knowledge available However since research based knowledge is more abundant in some topic areas than in others the chapters vary in length and scope **Rhetoric And Reality** Terrence R. Tutchings, 2019-07-11 Since 1945 the role of the president in shaping domestic and foreign policy has changed dramatically Though the prodigious growth of the federal bureaucracy under the Executive Branch reflects much of this change bureaucratic response to the major issues of the past three decades has been ineffective or nonexistent and a notable parallel development has been the increasing use of public commissions in the policymaking process Dr Tutchings studies more than 100 public commissions using a model of the policymaking process that includes demands decision and information costs and policy results and outcomes Reviewing the

results of the commissions as reflected in presidential support of recommendations via proposed legislation and in congressional response he notes that their membership has typically been dominated by government corporate elites as this membership has become more pluralistic there has been a sharp decline in the contributions of the commissions to the policymaking process Perhaps the most significant contribution of the book is its detailed development of the concept of rhetorical policy as a first step in the policymaking process

This is likewise one of the factors by obtaining the soft documents of this **Sociological Methodology 1973 1974 The Jossey Bass Behavioral Science Series** by online. You might not require more become old to spend to go to the books establishment as competently as search for them.
