There has been a dramatic increase in academic research activity and practical initiatives on the topic of sports and Christianity and its cultural significance during the past decade. The Faculty of Health and Life Sciences at York St John University York UK hosted the Inaugural Global Congress on Sports and Christianity IGCSC 24-28th August 2016 in collaboration with the Bible Society at which there were 180 delegates from 22 countries in attendance. For the area of sports studies, the social scientific study of sport, there was a thematic strand at the congress titled Christian sociological perspectives on sport from which a special edition of the journal *Sport in Society* partially emanated. This book is based upon this journal special edition. The papers selected for inclusion in the special edition were purposely eclectic in order to demonstrate the diversity of current research occurring in the area of Christianity and social scientific perspectives on sport. The goal was to bridge divisions between various social science disciplines and theology or religious studies through varied novel and interesting explorations of sport in its various forms. We hope this collection inspires further studies into this area. The chapters in this book were originally published in a special issue in *Sport in Society*.

Caring For the South Asian Soul , Brief History of Social Problems Frank J. McVeigh, Loreen Therese Wolfer, 2004. In this book Frank McVeigh and Loreen Wolfer take an historical approach to examine the causes and conflicts behind ten major social problems that have existed for nearly 230 years. Using a critical thinking perspective of the history, sociology, politics, and economics of the period, the authors analyze social problems as a series of conflicts between those with power and those who were at one time virtually powerless. Embedded in this analysis is a discussion of how the shift from a *Gemeinschaft* to *Gesellschaft* society has influenced how we address these problems. Using these themes, McVeigh and Wolfer provide thought-provoking insight into the ways individuals, groups, and social institutions change over time, gaining or losing power. The book contains a preface by Arthur Shostak, Drexel University.

A Christian Approach to Interdisciplinary Studies William Dennison, 2007-05-01. In an academic world that has rejected a Christian ontology, metaphysics, and epistemology as well as the secular foundationalism of modernity, one is hard-pressed to find any secular academician in the field of interdisciplinary studies (IDS) advocating a definitive starting point and methodology for IDS. In *A Christian Approach to Interdisciplinary Studies*, William D. Dennison asks: is such a study truly integrative that does not have an ontological integrative starting point and the constitutive component of method? To put the question another way: without the God of the Bible as the author of integration within creation, can there truly be IDS? Indeed, Dennison calls for the integration of approach and method, integration provided and modeled by the triune God of Scripture. Adapted from the Preface.

Approach to Catholic Social Teaching Vivencio O. Ballano, 2022-10-31 This book introduces Catholic social teaching CST and its teaching on the common good to the reader and applies them in the realm of public health to critically analyze the major global issues of COVID 19 that undermine public interest It uses the sociotheological approach that combines the moral principles of CST and the holistic analysis of modern sociology and also utilizes the secondary literature as the main source of textual data Specifically it investigates the corporate moral irresponsibility and some unethical business practices of Big Pharma in the sale and distribution of its anti COVID vaccines and medicines the injustice in the inequitable global vaccine distribution the weakening of the United States Congress s legislative regulation against the pharmaceutical industry s overpricing and profiteering the inadequacy of the World Health Organization s WHO law enforcement system against corruption and the lack of social monitoring in the current public health surveillance system to safeguard the public good from corporate fraud and white collar crime This book highlights the contribution of sociology in providing the empirical foundation of CST s moral analysis and in crafting appropriate Catholic social action during the pandemic It is hoped that through this book secular scholars social scientists religious leaders moral theologians religious educators and Catholic lay leaders would be more appreciative of the sociotheological approach to understanding religion and COVID 19 This book

brings into dialogue two bodies of literature documents of Catholic social teaching and modern sociology and its core thinkers and texts The author does especially well to describe how taking the sociotheological turn will benefit the credibility and dissemination of Catholic social thought Rev Fr Thomas Massaro S J Professor of Moral Theology Jesuit School of Theology Santa Clara University Berkeley California
