Highway Safety Plan Course. Instructor Materials, 1977 **Programs & Services for Federal Court Personnel,** 1997 Federal Judicial Center. Court Education Division, 1997 **Case Studies in Couples Therapy** David K. Carson, Montserrat Casado-Kehoe, 2013-06-19 This up to date highly readable theory based and application oriented book fills a crucial void in literature on couple therapy Few books in the couple therapy market bridge the gap between theory and practice texts tend to lean in one direction or the other either emphasizing theory and research with little practical application or taking a cookbook approach that describes specific techniques and interventions that are divorced from any conceptual or theoretical base However couples therapy requires a high degree of abstract conceptual thinking as well as ingenuity inventiveness and skill on the part of the therapist Case Studies in Couples Therapy blends the best of all worlds clinical applications with challenging and diverse couples that have been derived from the most influential theories and models in couples and family therapy all written by highly experienced and respected voices in the field In Case Studies in Couples Therapy readers will grasp the essentials of major theories and approaches in a few pages and then see how concepts and principles are applied in the work of well known clinicians The case studies incorporate a wide variety of couples from diverse backgrounds in a number of different life situations It is simultaneously narrow including specific processes and interventions applied with real clients and broad clearly outlining a broad array of theories and concepts in scope and the interventions in it are directly linked to theoretical perspectives in a clear and systematic way Students and clinicians alike will find the theoretical overview sections of each chapter clear and easy to follow and each chapter s thorough descriptions of effective practical interventions will give readers a strong sense of the connections between theory and practice **A Guide to Educational Programs in Noncollegiate Organizations** University of the State of New York. Office on Noncollegiate Sponsored Instruction, American Council on Education. Project on Noncollegiate Sponsored Instruction, 1976 *Instructional Consultation Teams: Collaborating For Change* Gravois, Rosenfield, 2013-01-11 While there is considerable evidence for the effectiveness of school consultation teams for interventions with difficult or at risk students relatively little has been written on the implementation of such teams This book details that process and describes the important features of the Instructional Consultation Team including methods and instruments for evaluating student progress and system functioning Instructional Consultation Teams functions as a handbook for change The authors convincingly argue that the improvement of schools response to at risk students requires major modifications in the school culture and to engender that change professionals need special skills Bringing together literature on school consultation and school change this volume enables the school based professional who takes the role as change facilitator not only to implement new more effective services but also to ensure that the services become established functions of the school system
