*The Mayan Calendar and the Transformation of Consciousness* Carl Johan Calleman, 2004-03-25 Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future

Shows the connection between cosmic evolution and actual human history Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster Explains how the end of the Mayan calendar is not the end of the world but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies Instead it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows providing a new science of time The calendar is associated with nine creation cycles which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster Time in fact is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness the Galactic Underworld in preparation for the final Universal level of conscious enlightenment Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment **2013** Marie D.

Navigating the Collapse of Time David Cowan, 2025-09-12 The signs are everywhere Economic crisis dramatic hurricanes floods earthquakes and increased rates of species extinction According to New Age metaphysician David Ian Cowan we are in

the midst of a 25 year transitional period of planetary shift as our solar system approaches the Galactic Photon Band a shift that is also affecting our perception of time The Mayans had a term for this transitional period the Time of No Time indicating that post 2012 time as we know it or experience it may not exist at all or will have changed dramatically In Navigating the Collapse of Time Cowan synthesizes a broad range of perspectives about this time of transition from the writings of the ancient Mayans Aztecs and Incas to speculative theory quantum physics philosophy and the nature of illusion and reality posed by a range of theorists and academics including Ken Carey Barbara Hand Clow William Gammill Zecharia Sitchin Carl Calleman Gary Renard Ken Wapnick Brent Haskel and many others He also lets us know what to expect as events continue to unfold and how to navigate this time of change **The Purposeful Universe** Carl Johan

Calleman,2009-10-13 Identifying the Mayan World Tree with the central axis of the cosmos the author shows how evolution is not random Shows how the evolution of the universe emanates from the cosmic Tree of Life Explains the origin and evolution of biological life and consciousness and how this is directed Using recent findings within cosmology coupled with his broad understanding of the Mayan Calendar biologist Carl Johan Calleman offers a revolutionary and fully developed alternative to Darwin s theory of biological evolution and the theory of randomness that holds sway over modern science He shows how the recently discovered central axis of the universe correlates with the Tree of Life of the ancients This provides an entirely new context for physics in general and especially for the origin and evolution of life and suggests that we look upon ourselves as parts of a hierarchy of systems that are all interrelated and evolve in a synchronized way Calleman s research demonstrates that life did not just accidentally pop up on our planet but that Earth was a place specifically tagged for this He demonstrates how the Mayan Calendar describes different quantum states of the Tree of Life and presents a new explanation for the origin and evolution of consciousness Calleman uses his scientific background in biology and cosmology to show that the idea of the Purposeful Universe is real He explains not only how DNA but also entire organisms have emerged in the image of the Tree of Life a theory that has wide ranging consequences not only for medicine but also for the origin of sacred geometry and the human soul With this new theory of biological evolution the divide between science and religion disappears **2012**

**The Global Mind and the Rise of Civilization** Carl Johan Calleman,2016-05-17 How the global mind drives the evolution of both consciousness and civilization Explains how our brains receive consciousness from the global mind which upgrades human consciousness according to a pre set divine time frame Reveals how the Mayan Calendar provides a blueprint for these consciousness downloads throughout history Examines the mind shift in humans and the development of pyramids and civilization in ancient Egypt Sumer South America and Asia beginning in 3115 BCE In each culture the origins of civilization can be tied to the arising of one concept in the human mind straight lines Straight and perpendicular lines are not found in nature so where did they come from What shift in consciousness occurred around the globe that triggered the start of rectangular building methods and linear organization as well as written language pyramid construction mathematics and art Offering a detailed answer to this question Carl Calleman explores the quantum evolution of the global mind and its holographic resonance with the human mind He examines how our brains are not thinking machines but individual receivers of consciousness from the global mind which creates holographic downloads to adjust human consciousness to new cosmological circumstances He explains how the Mayan Calendar provides a blueprint for these downloads throughout history and how the global mind rather than the individual has the power to make civilizations rise and fall He shows how at the beginning of the Mayan 6th Wave Long Count in 3115 BCE the global mind gave human beings the capacity to conceptualize spatial relations in terms of straight and perpendicular lines initiating the building of pyramids and megaliths around the world and leading to the rise of modern civilization He examines the symbolism within the Great Pyramid of Giza and the pyramid at Chich n Itz and looks at the differences between humans of the 6th Wave in ancient Egypt Sumer South America and Asia and the cave painters of the 5th Wave He reveals how the global mind is always connected to the inner core of the Earth and discusses how the two halves of the brain parallel the civilizations of the East and West Outlining the historical psychological geophysical and neurological roots of the modern human mind Calleman shows how studying early civilizations offers a means of understanding the evolution of consciousness     *Science of Spirit* Robert Donald Tonelli,2011-01-17 Beyond the Secret Beyond the Power of Now is the Science of Spirit a Deeper look at life Why are we here alive on planet earth trapped in a life of 9 to 5 wage slavery Science of Spirit Lost Keys to the Kingdom of Heaven on Earth shows that all life on planet earth and in the universe is based on an evolution of consciousness from the beginning of timethe Big Bang It clarifies the connectedness of all life with Science and to Spirit through the understanding of world old Hermetic Teachings in a balance of Reason and Faith Consciousness is the very fabric that all form is made out of and is the ground of all beingness of life Consciousness and the energy that makes up matter are inextricably combined or linked

emerging in a sequence of events called occasions of experience that ultimately create our experiences in life and our reality. The universe isn't made of things or particles. It's a process. It's made up of events. The result of this evolution of consciousness is an Analogical Awareness of life living in the now moment of unlimited potentials for the growth of a new super-conscious species of humanity moving through an Omega Point in time between 2011-2013. These Hermetic Teachings were clarified for me through the teaching of Ramtha and his Ancient Gnostic School, much of what I have learned in 20 years. My philosophy of life has its foundation in Ramtha's philosophy. Our accelerating consciousness is moving to a quantum existence of Spirit in Mass. God-Man realized alive with all the lower species of life, specifically the Sheeple of Economic Western Society. The Science of Spirit is based on my personal experience, my research, and my understanding of the ancient philosophy that this work comes from. It uses from research the philosophy and experience of other very credible people that have studied different aspects of a Science of Spirit as a philosophy to live by. I use this eclectic approach to build an accurate model of reality based in consciousness that allows us to create our own reality once we rid ourselves of the illusions of society. This approach gives credibility to my overall viewpoint, a modern interpretation of a very old philosophy and way of life. A Science of Spirit that is inherent in Mother Nature. It goes in depth about understanding What Consciousness Is. An Analogical State of Awareness that is continuously evolving faster and faster to the eternal Now Moment. It uses the discovery of a new perspective of the Mayan Calendar that is supposed to end in a religious Apocalypse at The Omega Point in time around 2012 as its foundational understanding of an Evolution of Consciousness on earth. This philosophy and research show an Evolution of Consciousness, a rising of an Analogical Awareness of life, revealing a Science to the nature of Spirit. It explains from a new perspective this battle between the Forces of Good and Evil at The End of Time. This Ancient Science of Spirit philosophy explains how the primeval forces of life, Spirit, that are inherent in Mother Earth, growing for 16.4 billion years, are pitted against the dogmatic, stagnant, god-fearing personalities that run the Engines of Commerce of our Global Society with their focus on monetary control of the people and the planet. This is a real-life battle between evolving evolutionary beings against the Anti-Christ Social Consciousness of The Multi-National Corporations. Religious dogmas talk about an Apocalypse at the end of time to help warn us of our impending doom. The remarkable thing is that the word Apocalypse means the lifting of a veil or a disclosure to certain privileged persons of something hidden from the majority of humankind. I will show in this book that the lifting of a veil is a rising of consciousness that knows no fear of the unknown and clarifies ancient predictions of the end days and the real battle of Armageddon. This ancient Science     Tranceformers Shamans of the 21st Century John Jay Harper, 2009. Tranceformers Shamans of the 21st Century is the true story of this author's contact with a dead optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions. Harper draws from this deep well of wisdom, astrology, biology, near-death experiences, paranormal psychology, quantum physics, as well as Egyptian and Mayan cosmology overall. He does an excellent

job of synthesizing massive amounts of information making this shift of the ages comprehensible to the general reader Clearly this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness climate culture and civilization However the theme of this book is that by learning to use trance the techniques employed by mystics prophets and shamans one can unlock the mysteries of existence for themselves Indeed this is the big idea behind the Eternal Return of the Sun of God in 2012 Self Empowerment      *443 Questions and Answers on New Age* Giovanni A.
