Soma & séma Jacques Fontanille, 2004 Les sciences de l'homme de la sociologie aux études littéraires de la phonologie aux sciences cognitives rendent finissent depuis quelques décennies leur rapport au corps. Pour les sciences des textes des images et de la signification en général le corps comme tout autre motif sera apprécier dans son inscription dans les semiotiques objets sous forme de signes de figures ou d'opérations observables ou reconstruisibles. Soma et Sema Figures du corps propose un parcours de différentes conceptions du corps dans les sciences de l'homme anthropologie psychanalyse sciences cognitives philosophie pour en extraire des représentations courantes et donner de ces dernières une formulation opératoire pour l'analyse. Et ce parcours qui peu à peu donne corps aux procédures semiotiques partant de l'identification et du recensement des figures du corps dans les langages textes et images notamment aboutit pour finir la définition et la typologie des figures corps qui débouchent elles-mêmes sur une semiotique de l'emprunte dans ce renversement de perspective il ne s'agit plus alors seulement d'intégrer la problématique corporelle dans la théorie et la méthode semiotiques mais de se demander comment les corps peuvent faire signe comme ils peuvent devenir figures textes images objet de sens **The**

Intersubjectivity of Embodiment, Introduction to the Semiotics of the Text Gianfranco Marrone, 2021-11-08 This book aims to demonstrate how semiotic models of textual analysis can be used to study any social reality or cultural process. In addition it shows how semiotic models work by using examples from everyday life and social praxis communicative processes and modes of consumption online interactions and cross media procedures political experiences and scientific universes Body - Language - Communication. Volume 2 Cornelia Müller, Alan Cienki, Ellen Fricke, Silva Ladewig, David McNeill, Sedinha Tessendorf, 2014-10-29 Volume II of the handbook offers a unique collection of exemplary case studies. In five chapters and 99 articles it presents the state of the art on how body movements are used for communication around the world. Topics include the functions of body movements their contexts of occurrence their forms and meanings their integration with speech and how bodily motion can function as language. By including an interdisciplinary chapter on embodiment volume II explores the body and its role in the grounding of language and communication from one of the most widely discussed current theoretical perspectives. Volume II of the handbook thus entails the following chapters VI Gestures across cultures VII Body movements functions contexts and interactions VIII Gesture and language IX Embodiment the body and its role for cognition emotion and communication X Sign Language Visible body movements as language. Everyday Aesthetics Katya Mandoki,2016-04-22 Katya Mandoki advances in this book the thesis that it is not only possible but crucial to open up the field of aesthetics traditionally confined to the study of art and beauty toward the richness and complexity of everyday life She argues that in every process of communication

whether face to face or through the media fashion and political propaganda there is always an excess beyond the informative and functional value of a message This excess is the aesthetic Following Huizinga's view of play as an ingredient of any social environment Mandoki explores how various cultural practices are in fact forms of playing since for the author aesthetics and play are Siamese twins One of the unique contributions of this book is the elaboration and application of a semiotic model for the simultaneous analysis of social interactions in the four registers namely visual auditory verbal and body language to detect the aesthetic strategies deployed in specific situations She argues that since the presentation of the self is targeted towards participants sensibilities aesthetics plays a key role in these modes of exchange Consequently the author updates important debates in this field to clear the way for a socio aesthetic inquiry through contexts such as the family school medical artistic or religious traditions from which social identities emerge

The Invention of the Text Gianfranco Marrone, 2016-04-13T00:00:00+02:00 The notion of text is perhaps the most used and discussed within social and human sciences Nevertheless it is surprisingly one of the worst defined Philology and Linguistics Literary Criticism and Aesthetics Philosophy of Language Hermeneutics Ethnology Psychoanalysis Sociology Semiotics all these disciplines refer in various ways to the text to make of it the basic object of their analysis or to measure the distance they keep from it So what does text mean What genealogy does this concept have Why is there no salvation outside the text This book shows why the text should be the formal model to explain all human social cultural and historic phenomena and as a consequence the product of a double invention first as a sociocultural configuration secondly as an analytical reconstruction

Le corps communicant Béatrice Galinon-Melenec, 2008-01-01 Pour saisir toute la complexité du sens des pratiques corporelles des chercheurs en sciences humaines et sociales se sont reunis afin de mettre en corrélation les logiques sociales de construction et d'appropriation des messages corporels Dans cette perspective il convient de considérer les pratiques du corps comme des lieux privilégiés de l'expression d'un rapport individu-société toujours située culturellement dans une poque donnée

Fontanille,2008 L'existence humaine a vu son déclassement en périodes de la vie profondément modifiées est bien ce qu'il nomme de segmentation et surtout de remise en question multiples qu'il affronte ici un collectif de chercheurs analysant les productions médiatiques touchant aux différents types de la vie et couvrant un champ socio culturel très vaste littérature, discours médiatiques, campagnes publicitaires, compétences linguistiques comparées, pratiques musicales ou plastiques, séquences comportementales typiques. Ainsi l'on verra comment par exemple les discours médiatiques construisent un destinataire cible : bandes de jeunes violents, adultes surmenés ou bien encore seniors hyper actifs alimentant efficacement les représentations sociales ouvrant de nouvelles parts de marché œuvrant au changement culturel. La médiatisation des types de la vie apparaît donc comme un important chapitre de la médiatisation des cultures liée fondamentalement au corps et ses significations. C'est encore une fois la question du temps qui en constitue le centre avec toutes les variations passionnelles qui induit le changement de perspective sur le temps. En définitive il s'agit bien de comprendre comment un genre de la vie l'autre le point de vue sur le temps change comment se constituent des régimes temporels distincts représentations du temps qui scandent notre existence et forment le cœur de toute culture.

La vida por las ideas

Mariano Dagatti, 2020-06-02 Este libro brinda al público un estudio sobre la configuración de la identidad política del kirchnerismo teniendo en cuenta los discursos públicos de Nicanor Kirchner. ¿Qué significa ser kirchnerista? Los imaginarios de la política se despliegan en sus palabras y rituales a quienes busca representar la fuerza con quienes se enfrenta electoralmente y simbólicamente. Que tradiciones activa mitiga o oblitera en su desafío por convencer a los argentinos de su proyecto político. Estas preguntas cobran toda su pertinencia cuando se las piensa en relación con la crisis de 2001, el conflicto con el campo, el papel de los medios de comunicación masivos y la progresiva crisis de hegemonía de su fuerza que permitió en 2015 el triunfo de Cambiemos. Sin dudas un libro clave para repensar la construcción discursiva ideológica y política de uno de los grandes líderes políticos de nuestro país desde la vuelta a la democracia y una puerta de acceso a nuestra historia reciente.

La historia audiovisual Paolo Bertetti, 2017-02-22 El cine, la televisión y otros medios audiovisuales son el caballo de batalla de las grandes historias de nuestra contemporaneidad. Pero cómo hace una película una obra de teatro o incluso un anuncio comercial para contar sus historias? Cómo nos fascina y nos entusiasma transmitir valores y visiones del mundo? Y más en general, cuáles son los mecanismos de la narrativa y las características específicas del relato audiovisual? A través de una relectura clara pero también problemática de las teorías semióticas y contribuciones metodológicas que vienen de la narratología y la semiótica del texto, el autor identifica una serie de instrumentos útiles para entender e investigar los mecanismos de la sensación de imágenes en movimiento. Por otro lado, quiere reiterar la necesidad de retomar y profundizar en una serie de cuestiones temáticas quizás demasiado superficialmente dejadas al margen en un momento en que la evolución del sistema de medios y formas recientes de contar historias inter y transmedia requieren volver a discutir las categorías establecidas e imponer nuevas reflexiones.
