Nemanja Radulović, Karolina Maria Hess, 2019-06-01 These papers examine how occult and esoteric themes appear in visual and verbal media connecting to intellectual history literature the arts present day pop culture and religious practices The topics range from the witchcraft motives in the love poetry of the 15th century Humanist poet Conrad Celtis through the activities of Polish and Russian theosophists Croatian Greek Polish painters of the spiritual the philosophy of wine by the Hungarian esoteric philosopher B la Hamvas to contemporary Serbian magic and neo shamanism Two studies touch upon the influence of Freemasonry and the Kabbalah in Western esotericism and although these are not specifically Central European topics they provide parallel perspectives to what the other papers of the collection are investigating Judaizing Christianity and Christian Zionism in Northern Ireland Véronique Altglas, 2025-04-22 This book explores the contemporary Judaization of evangelical Christianity through the ethnography of a Messianic congregation in Northern Ireland A

constellation of Messianic congregations have expanded worldwide over recent years combining Jewish liturgy symbols and artifacts with prophecies about the End Times and the return of Jesus Increasingly recognized as a legitimate subdivision within evangelicalism the Messianic movement has facilitated a popularization of Jewish practices and symbolism beyond its own congregations The author considers What insights do these congregations offer about the deregulation of religions Is there any logic to the combinations of Christian and Jewish sources in Messianic beliefs and practices How can we understand this fascination with Jews and Judaism Finally what is the political significance of Messianic relationship with Jewish people the state of Israel and Christian Zionism The book will be of particular interest to scholars of the sociology and anthropology of religion religion and politics and Jewish Christian relations **The Jews of Early Modern Venice** Robert C. Davis, Benjamin Ravid, 2001-03-28 The constraints of the ghetto and the concomitant interaction of various Jewish traditions produced a remarkable cultural flowering *Jews in the Early Modern World* Dean Phillip Bell, 2008 Jews in the Early Modern World argues that the years between 1400 and 1700 represented a discrete cohesive and important period in Jewish history Given the significant demographic shifts that began just before and ended just after this period remarkable changes occurred in the history and experiences of Jews around the world This volume begins with a broad context of Jewish experiences under medieval Christianity and Islam It then turns to the early modern period first providing an overview of Jewish demography and settlement Next the nature and structure of Jewish community and social structures in the early modern period are explored In the final two chapters this book presents a broad overview of Jewish religious and cultural life and Jewish relations with non Jews throughout the early modern period Publisher **The Nation and Athenaeum**, 1928

The Nation and Athenaeum, 1928 **The New Big Book of Christian Mysticism** Carl McColman, 2023 From beloved spiritual teacher Carl McColman comes a book about big possibility the hope of achieving authentic blissful experiential union with God He reveals the various ways Christian mysticism and contemplation have been in dynamic practice through the centuries proving inspirational for today's seekers regardless of faith tradition *Occult Roots of Religious Studies* Yves Mühlematter, Helmut Zander, 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must

be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas

Esotericism in Western Culture Wouter J. Hanegraaff, 2025-05-29 This accessible introduction by the world's leading expert explains why the study of esotericism is not a marginal pursuit but belongs at the center of modern research in the humanities Reflecting updates in the field since the foundational publication *Western Esotericism: A Guide for the Perplexed* 2013 Wouter J Hanegraaff demonstrates that the exclusion of rejected knowledge from normative accounts of Western civilization is the reflection of a narrow Eurocentric ideology that became the template for discrediting and ultimately destroying so called primitive cultures associated with superstition and pagan idolatry during the global colonial age Rejecting this rejection of rejected knowledge means restoring the suppressed to its legitimate place in history and cultural analysis Through this approach Wouter J Hanegraaff depicts a radically inclusive vision of the Greater West and its forgotten histories from pagan antiquity through Jewish Christian and Islamic cultures up to secular modernity and beyond

Polemical Encounters Olav Hammer, Kocku von Stuckrad, 2007-09-30 In its historical development from late antiquity to the present western esotericism has repeatedly been the issue of polemical discourse This volume engages the polemical structures that underlie both the identities within and the controversy about esoteric currents in European history From Jewish and Christian kabbalah through heretical discourse and interconfessional polemics in early modernity to the legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse

Christianity, Antiquity, and Enlightenment Victor Nuovo, 2011-01-05 The volume will consist of a series of interpretative studies of Locke's philosophical and religious thought in historical context and consider his contributions to the Enlightenment and modern liberal thought

The Cambridge History of Judaism: Volume 7, The Early Modern World, 1500-1815 Jonathan Karp, Adam Sutcliffe, 2017-11-30 This seventh volume of *The Cambridge History of Judaism* provides an authoritative and detailed overview of early modern Jewish history from 1500 to 1815 The essays written by an international team of scholars situate the Jewish experience in relation to the multiple political intellectual and cultural currents of the period They also explore and problematize the modernization of world Jewry over this period from a global perspective covering Jews in the Islamic world and in the Americas as well as in Europe with many chapters straddling the conventional lines of division between Sephardic Ashkenazic and Mizrahi history The most up to date comprehensive and authoritative work in this field currently available this volume will serve as an essential reference tool and ideal point of entry for advanced students and scholars of early modern Jewish history
