Furniture-Makers and Consumers in England, 1754-1851 Akiko Shimbo,2016-04-15 Covering the period from the publication of Thomas Chippendale s *The Gentleman and Cabinet Makers Director* 1754 to the Great Exhibition 1851 this book analyses the relationships between producer retailers and consumers of furniture and interior design and explores what effect dialogues surrounding these transactions had on the standardisation of furniture production during this period This was an era before mass production when domestic furniture was made both to order and from standard patterns and negotiations between producers and consumers formed a crucial part of the design and production process This study narrows in on three main areas of this process the role of pattern books and their readers the construction of taste and style through negotiation and daily interactions through showrooms and other services to reveal the complexities of English material culture in a period of industrialisation A Short Dictionary of Furniture John Gloag,2022-10-24 Originally published in 1952 but enlarged and revised in 1969 this dictionary became a standard authoritative work of reference It contains 2 612 entries and over 1 000 illustrations reproduced from contemporary sources and from drawings by Ronald Escott Marcelle Barton and Maureen Stafford The work is divided into 6 sections the first and second concern the description and design of furniture the third contains the entries the fourth gives a list of furniture makers in Britain and North America section five records books and periodicals on furniture and design and the concluding section sets out in tabular form the periods with the materials used and types of craftsmen employed from 1100 to 1950 Wooden Furniture in Herculaneum Stephan T.A.M. Mols,2020-03-02 This study presents an overview of the wooden furniture that has come to light since the rediscovery of Herculaneum in the 18th century with an emphasis on the form function and the techniques employed The combination of comments in the excavation reports with the information derived from the surviving pieces of furniture and fittings made of other materials as well as indications for the presence of furniture in the architecture and decoration of the houses offers a representative idea of the role of wooden furniture in the interior arrangements of the houses at Herculaneum **Good Furniture** ,1915 **Furniture World** ,1928 **The Material World of Ancient Egypt** William H. Peck,2013-08-12 *The Material World of Ancient Egypt* examines the objects and artifacts the representations in art and the examples of documentation that together reveal the day to day physical substance of life in ancient Egypt This book investigates how people dressed what they ate the houses they built the games they played and the tools they used among many other aspects of daily life paying great attention to the change and development of each area within the conservative Egyptian society More than any other ancient civilization the ancient Egyptians have left us with a wealth of evidence about

their daily lives in the form of perishable objects from leather sandals to feather fans detailed depictions of trades and crafts on the walls of tombs and a wide range of documentary evidence from temple inventories to personal laundry lists Drawing on these diverse sources and richly illustrating his account with nearly one hundred images William H Peck illuminates the culture of the ancient Egyptians from the standpoint of the basic materials they employed to make life possible and perhaps even enjoyable Chinese Furniture Xiaoming Zhang,2011-03-03 This book provides an accessible illustrated introduction

to the long history production techniques and cultural significance of Chinese furniture Old Furniture ,1927 The Furniture Trade Review and Interior Decorator ,1920 *Texas Furniture, Volume Two* Lonn Taylor,David B.

Warren,2013-04-15 The art of furniture making flourished in Texas during the mid nineteenth century To document this rich heritage of locally made furniture Miss Ima Hogg the well known philanthropist and collector of American decorative arts enlisted Lonn Taylor and David B Warren to research early Texas furniture and its makers After more than a decade of investigation they published Texas Furniture in 1975 and it quickly became the authoritative reference on this subject An updated edition Texas Furniture Volume One was issued in the spring of 2012 Texas Furniture Volume Two presents over 150 additional pieces of furniture that were not included in Volume One each superbly photographed in color and accompanied by detailed descriptions of the piece s maker date materials measurements history and owner as well as an analysis by the authors Taylor and Warren have also written a new introduction for this volume in which they amplify the story of early Texas furniture In particular they compare and contrast the two important traditions of cabinetmaking in Texas Anglo American and German and identify previously unknown artisans The authors also discuss nineteenth century Texans desire for refinement and gentility in furniture non commercial furniture making and marquetry work And they pay tribute to the twentieth century collectors who first recognized the value of locally made Texas furniture and worked to preserve it A checklist of Texas cabinetmakers which contains biographical information on approximately nine hundred men who made furniture in Texas completes the volume *Furniture Manufacturer and Artisan* ,1926 *Ancient and Modern Furniture and Woodwork* John Hungerford Pollen,1875 Furniture Index ,1918 **Good Furniture & Decoration** ,1915
