#### **Praxiology and the Reasons for Action** Piotr

Makowski,2017-07-05 This volume explores two traditions in practical philosophy action theory which concerns the nature of motivation for human action and praxiology the study of human action By bringing different perspectives together the volume strives to contribute to the international debate on theories of reasons for action as a philosophy of action The volume

consists of three main parts The first part Reasons for Action bridges the gap between reasons for action theories and praxiology The second part of the volume titled Theories of Action explores philosophical approaches to action Finally in the third part Applications the contributors show several ways of applying praxiological ways of thinking and acting to the problems of reflection assessment solving action incompleteness and knowledge management The ultimate goal of this volume is to broaden the scientific view of action to establish a perspective on action that is permeated by moral theories on the one hand and accounts focused on efficiency and economy of action on the other hand This work is the newest volume in Transaction s Praxiology series

*The Heart of Caring* Mark Vonnegut, 2022-02-22 Reflections from a life lived in medicine Pediatrician Mark Vonnegut has spent forty years treating children for coughs fevers ear infections and sometimes more serious complaints In that time he has seen the American medical system change in ways he couldn t have imagined as a medical student some of them good others not so good But what hasn t changed is his commitment to his young patients whose stories fill the pages of this book There s Anna Maria a little girl with an incurable case of bone cancer Adeline who has a syndrome so rare none of Vonnegut s fellow doctors have seen it before Marlowe whose life threatening anemia is cured by his just born baby brother Whether recounting the cases that have stuck with him or detailing larger changes in medicine the privatization of health care innovations in cancer treatment the rise of anti vaxxers and HMOs Vonnegut is a personable guide through what is often seen as an impersonal system and his stories sparkle with humanity candor and wry wisdom In pediatrics and most medical care he says if the doctor can just shut up and listen long enough the patient will give him the diagnosis Unfortunately there s not a procedure code or template for how to shut up Vonnegut doesn t pull any punches in his criticisms of the medical industrial complex but *The Heart of Caring* isn t a diatribe It s the story of a life lived in medicine with all the heartbreak hope and everyday heroism that entails

*Representation and Ultimacy* Jan-Olav Henriksen, 2020-05-18 Jan Olav Henriksen investigates the close relationship between God and human beings via an understanding of religion as clusters of practices that relate humans to ultimacy by different types of representation Christian religion articulates its belief in God as creator manifest in the power to be and redeemer represented in the life and ministry of Jesus Christ Christ thus is the primary representation of God as the ultimate reality of love He is also the true image of God and the model for how humans are also called to represent God in love The human features of desire and vulnerability as these express elements that shape form and articulate challenges for human life present humans with the need for orienting themselves and for different types of transformation Christian religion articulates a specific mode of how to cope with these challenges presented by desire and vulnerability by living in love Against this backdrop Henriksen argues that neither how one understands religion God nor how to live a life that relates to ultimacy can be tasks fulfilled as long as history goes on

*The Normativity of what We Care about* Katrien Schaubroeck, 2013 A love based reason theory as a new perspective in the debate on practical reasons Reasons and obligations pervade our lives The alarm clock gives us a reason to

get up in the morning the expectations of colleagues or clients give us a reason to do our jobs well the misery in developing countries gives us a reason to donate money headaches give us a reason to take an aspirin Looking for unity in variety philosophers wonder what makes a consideration count as a reason to do something The nature and source of practical reasons has been debated intensively over the last three decennia in analytic philosophy This book discusses the three most influential theories in current debates referred to as the desire based the value based and the rationality based theories of practical reasons The author argues that all three are defective because they overlook the role of what agents care about

Congress. Senate. Special Committee on Aging,1979      **Beyond the Razor Wire** Rick Conner,2001-09 The long strands of razor wire conceal from society what it is like on the inside There is another world filled with violence fear hopelessness and despair which is seldom shared with the outside world In this anthology thirty five inmates share their hearts and minds in poetry and prose Some are vengeful some are angry and others are resentful But each person expresses themselves freely from their point of view David Berkowitz the notorious murderer known as Son of Sam shares his testimony of how God touched his life one evening in a cold and lonely prison cell Today David Berkowitz is known as the Son of Hope Many inmates who will never see the light of day again share their poems and prose in this collection Beyond The Razor Wire      Welfare and Rational Care Stephen Darwall,2010-07-28 What kind of life best ensures human welfare Since the ancient Greeks this question has been as central to ethical philosophy as to ordinary reflection But what exactly is welfare This question has suffered from relative neglect And as Stephen Darwall shows it has done so at a price Presenting a provocative new rational care theory of welfare Darwall proves that a proper understanding of welfare

fundamentally changes how we think about what is best for people Most philosophers have assumed that a person's welfare is what is good from her point of view namely what she has a distinctive reason to pursue In the now standard terminology welfare is assumed to have an agent relative normativity Darwall by contrast argues that someone's good is what one should want for that person insofar as one cares for her Welfare in other words is normative but not peculiarly for the person whose welfare is at stake In addition Darwall makes the radical proposal that something's contributing to someone's welfare is the same thing as its being something one ought to want for her own sake insofar as one cares Darwall defends this theory with clarity precision and elegance and with a subtle understanding of the place of sympathetic concern in the rich psychology of sympathy and empathy His forceful arguments will change how we understand a concept central to ethics and our understanding of human bonds and human choices Empathy and Ethics Magnus Engländer, Susi Ferrarello, 2023-05-05

This book represents a unique indispensable reflection on the interconnection between empathy and ethics To what extent is it right to be empathetic Can empathy be unethical Or is there an ethical obligation to be empathetic Do we educate our citizens and train our professionals to use the right form of empathy Phenomenological ethics is a relatively new approach to ethics whose emphasis is put on the description of the lived experience and the ethical phenomenon The essays offer phenomenological descriptions of the thorny problem pertaining to the interconnection of empathy and ethics essential for professionals and scholars of different fields such as philosophy psychiatry health science psychology and sociology Contributors Michael Agostinelli Jr Elodie Boubil Francesca Brencio Manuel Camassa Scott D Churchill Nicolas de Warren Craig Derksen John J Drummond ngrid Vendrell Ferran Jannik M Hansen Simon H ffding Joel Krueger Carlos Lobo Esteban Mar n vila Alexander Montes Dermot Moran Henning N renberg Tone Roald Eva Schwarz Andrea Staiti Joona Taipale Stefano Vincini Maren Wehrle Dan Zahavi **Psychological Care for Families** Catherine A. Niven, 2013-10-22

Psychological Care for Families Before During and After Birth presents the significance of psychological care and the positive effect on outcomes when it is done well This book provides an understanding of the emotional needs of families Organized into six chapters this book begins with an overview of the improvements in outcomes that result from increased input by midwives and health visitors This text then examines the individual and interrelated needs of the fetus baby the mother primary caretaker and the father primary supporter Other chapters consider the provision of health care during pregnancy birth and postnatal period which involve the giving of psychological care to all the members of the family units This book discusses as well the interaction that develops between a newborn baby and the mother or the primary caretaker The final chapter deals with the serious problems that the mother father siblings and baby may experience through their mutual interactions This book is a valuable resource for midwives nurses and health care professionals **Catalog of Copyright**
