Character and Satire in Post War Fiction Ian Gregson, 2006-01-13 This monograph analyses the use of caricature as one of the key strategies in narrative fiction since the war Close analysis of some of the best known postwar novelists including Toni Morrison Philip Roth Joyce Carol Oates Angela Carter and Will Self reveals how they use caricature to express postmodern conceptions of the self In the process of moving away from the modernist focus on subjectivity postmodern characterisation has often drawn on a much older satirical tradition which includes Hogarth and Gillray in the visual arts and Dryden Pope Swift and Dickens in literature Its key images depict the human as reduced to the status of an object an animal or a machine or the human body as dismembered to represent the fragmentation of the human spirit Gregson argues that this return to caricature is symptomatic of a satirical attitude to the self which is particularly characteristic of contemporary culture

Something Happened Heller, Johnny, Joseph Heller, 1981-09 **Making Something Happen** Michael Thurston, 2003-01-14 Poetry makes nothing happen wrote W H Auden in 1939 expressing a belief that came to dominate American literary institutions in the late 1940s the idea that good poetry cannot and should not be politically engaged By contrast Michael Thurston here looks back to the 1920s and 1930s to a generation of poets who wrote with the precise hope and the deep conviction that they would move their audiences to action He offers an engaging new look at the political poetry

of Edwin Rolfe Langston Hughes Ezra Pound and Muriel Rukeyser Thurston combines close textual reading of the poems with research into their historical context to reveal how these four poets deployed the resources of tradition and experimentation to contest and redefine political common sense In the process he demonstrates that the aesthetic censure under which much partisan writing has labored needs dramatic revision Although each of these poets worked with different forms and toward different ends Thurston shows that their strategies succeed as poetry He argues that partisan poetry demands reflection not only on how we evaluate poems but also on what we value in poems and therefore which poems we elevate

Semantics : Primes and Universals Anna Wierzbicka,1996-03-28 This book provides a synthesis of Wierzbicka s theory of meaning which is based on conceptual primitives and semantic universals using empirical findings from a wide range of languages While addressed primarily to linguists the book deals with highly topical and controversial issues of central importance to several disciplines including anthropology psychology and philosophy Conceptual primitives and semantic universals are the cornerstones of a semantic theory which Anna Wierzbicka has been developing for many years *Semantics Primes and Universals* is a major synthesis of her work presenting a full and systematic exposition of that theory in a non technical and readable way It delineates a full set of universal concepts as they have emerged from large scale investigations across a wide range of languages undertaken by the author and her colleagues On the basis of empirical cross linguistic studies it vindicates the old notion of the psychic unity of mankind while at the same time offering a framework for the rigorous description of different languages and cultures A major synthesis of Anna Wierzbicka s work

Postmodern Fiction in Canada Johannes Willem Bertens,1992 *Critique of Religion and Philosophy* Walter A. Kaufmann,2020-06-16 From one of the major figures of twentieth century intellectual life an incisive critique of faith and reason in the secular age Originally published in 1958 *Critique of Religion and Philosophy* is Walter Kaufmann s luminous appraisal of the orthodoxies of his day Although he was a philosopher first and foremost Kaufmann was not immune to the wellsprings from which religion originates considering it to be among the most vital and radical expressions of the human intellect In this panoramic and uniquely personal book he tests the limits of faith and reason in our secular age Kaufmann discusses topics ranging from positivism and existentialism to language scripture and Eros and shares his views on thinkers such as Plato Aquinas Kant Bultmann Niebuhr and Freud Challenging playful and disarmingly honest *Critique of Religion and Philosophy* is as bold and provocative as when it was first published

My Journey Naomi Tammi Palmer,2017-04-03 This is a revised version of my first publication from 2009 This represents the start of my journey A collection of my poetry from the age of 10 years I lost so many of my poems along my journey I am happy to be able to share these ones that are remaining I am working on 2 more books In this revised version I have added some insights into my 2nd and 3rd book at the end This one contains Poems of Woes Hardship Love and many more experiences My Spiritual Journey and the Wisdom I learned along the way Journey with me and may you find some upliftment and inspiration We often start out our journey on a survival story This book is a

testament that all is meant in order to shape our destiny to a successful outcome Thank you for purchasing my book I hope you enjoy Peace Love and Light to All in All Oneness BeINenerGy **Experience, Evidence, and Sense** Anna Wierzbicka,2010-06-24 This book is based on two ideas first that any language English no less than any other represents a universe of meaning shaped by the history and experience of the men and women who have created it and second that in any language certain culture specific words act as linchpins for whole networks of meanings and that penetrating the meanings of those key words can therefore open our eyes to an entire cultural universe In this book Anna Wierzbicka demonstrates that three uniquely English words evidence experience and sense are exactly such linchpins Using a rigorous plain language approach to meaning analysis she unpacks the dense cultural meanings of these key words disentangles their multiple meanings and traces their origins back to the tradition of British empiricism In so doing she reveals much about cultural attitudes embedded not only in British and American English but also English as a global language An interdisciplinary work Experience Evidence and Sense will be of interest to both scholars and students in linguistics and English as well as historians of ideas sociologists anthropologists literary scholars and scholars of communication Semantics and Comprehension Herbert H.
