**Attuned to Alien Moonlight** Dennis Haskell, 2002 Bruce Dawe is Australia's most popular and widely studied poet This first full scale critical study of his poetry to date reveals a richly complex and varied poet Dennis Haskell argues that the widespread view of Dawe as a social satirist is limiting and that Dawe is a more imaginative and lyrical poet than he has been given credit for as the title *Attuned to Alien Moonlight* indicates Dawe's apparent topicality and ease of access hides deeper more mysterious and more Romantic elements in his work Haskell analyses well known and some quite unknown poems in order to build up a picture of Dawe's poetry as a whole and his chapters approach Dawe from some surprising perspectives for example in relation to Asia and as a love poet Aimed at both students of Dawe's work and the general literary reader the book places Dawe in the context of Australian poetry and cultural values and in relation to the larger traditions of poetry in English It includes a substantial bibliography and a comprehensive chronology

The Experience of God Robyn Horner, 2022-10-20 Belief and credal commitment sometimes seem to make less and less sense in the West A kind of cultural amnesia has taken hold where formal religious adherence begins to seem almost unthinkable This is especially so for the idea of divine revelation Robyn Horner argues this means we need to re-evaluate how theology proceeds focusing not so much on beliefs but on experience Exploring ways in which the experiential might open human beings up to divine possibility the author turns to phenomenology especially in the French philosophical tradition because it seeks to examine unrestrictedly what is given through involved encounter Bringing phenomenology and poststructuralism together Horner develops the idea of revelation as an event wherein God interrupts and exceeds human experience affecting and transforming it This striking concept named but largely unexplored by theology articulates a notion of supernatural revelation which now starts to appear both coherent and plausible
