Sense of Decadence in Nineteenth-Century France Koenraad W. Swart,2013-11-11 It was the best of times It was the worst of times The famous opening sentence of Charles Dickens Tale of Two Cities can serve as a motto to characterize the mixture of optimism and pessimism with which a large number of nineteenth century intellectuals viewed the condition of their age It is nowadays hardly necessary to accentuate the optimistic elements in the nineteenth century view of history many recent historians have sharply contrasted the complacency and the great expectations of the past century with the fears and anxieties rampant in our own age It is often too readily assumed that a hundred years ago all leading thinkers as well as the educated public were addicted to the cult of progress and ignored or minimized those trends of their times that

paved the way for the catastrophes of the twentieth century In the nineteenth century the intoxicating triumphs of modern science undeniably induced the general public to believe that progress was not an accident but a necessity and that evil and immorality would gradually disappear Yet fears misgivings and anxieties were not as exceptional in the nineteenth century as is often imagined Such feelings were not restricted to a few dissenting philosophers and poets like Schopenhauer Kierkegaard Dostoevsky Baudelaire and Nietzsche *Hedderwick's miscellany of instructive and entertaining literature, ed. by J.
