The Edge of Words Rowan Williams, 2014-09-25 The Edge of Words is Rowan Williams' first book since standing down as Archbishop of Canterbury Invited to give the prestigious 2014 Gifford Lectures Dr Williams has produced a scholarly but eminently accessible account of the possibilities of speaking about God taking as his point of departure the project of natural theology Dr Williams enters into dialogue with thinkers as diverse as Augustine and Simone Weil and authors such as Joyce Hardy Burgess and Hoban in what is a compelling essay about the possibility of language about God

New York State Police Evidence Tampering Investigation Nelson E. Roth, 1997 **The Oxford Guide to Australian Languages** Claire Bowern, 2023 This book is a wide ranging reference work covering the more than 550 Indigenous languages of Australia The chapters in the book explore typology and classification linguistic structures sociolinguistics and language variation and language in the community The final part offers sketches of a selection of languages sub groups and families

On the Edge of the Field Richard Sievers, 2018-06-13 These poems are the recordings of my journey from neophyte farmer and father to a more seasoned and solid soul These words are the chronicle of eight years working on and stewarding an organic farm in the Pacific Northwest of the USA I wrote most of these poems in an old cabin sitting behind a picture window above the farm and pasture You may notice how the first entries reflect a steep learning curve on how to be a sensitive man in an intense world of parenting marriage and business For these were my first years inhabiting all three of these labels These years began with hope and idealism They end with both losing the farm and gaining a much deeper set of inner resources to be alive and to be of service

Education at the Edge of Experience Marla Morris, 2024-06-03 Presenting a unique exploration of education at the edge of experience this book investigates how unassimilable concepts can reconceptualize education in order to grapple with what is beyond understanding Working at the intersection of curriculum theory philosophy and psychoanalysis Morris examines how each of these unassimilable concepts such as lament disavowal breathlessness and the Kafkaesque point toward currere as the edge of experience It addresses what Lee Braver calls the groundless grounds and what Avital Ronell calls the quicksand that is philosophy to approach slippage and breaking points through an interdisciplinary lens Pointing to an understanding of our largely social ills and extending William F Pinar's early work on currere in new and innovative directions this book will appeal to curriculum theorists education philosophers psychoanalysts and those with interests in the philosophy and theory of education
