Crossover Picturebooks Sandra L. Beckett, 2013-06-17 This book situates the picturebook genre within the widespread international phenomenon of crossover literature examining an international corpus of picturebooks including artists books wordless picturebooks and celebrity picturebooks that appeal to readers of all ages Focusing on contemporary picturebooks Sandra Beckett shows that the picturebook has traditionally been seen as a children's genre but in the eyes of many authors illustrators and publishers it is a narrative form that can address any and all age groups Innovative graphics and formats as well as the creative often complex dialogue between text and image provide multiple levels of meaning and

invite readers of all ages to consider texts that are primarily marketed as children's books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult adult themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies, have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation and contributes significantly to the field of children's literature as a whole.

**Guns in America** Donald J. Campbell, 2021-08-09. This work provides readers with an authoritative resource for understanding the true extent and nature of gun violence in America, examining the veracity of claims and counterclaims about mass shootings, gun laws, and public attitudes about gun control. This work is part of a series that uses evidence-based documentation to examine the veracity of claims and beliefs about high-profile issues in American culture and politics. Each book in the Contemporary Debates series is intended to puncture rather than perpetuate myths that diminish our understanding of important policies and positions, to provide needed context for misleading statements and claims, and to confirm the factual accuracy of other assertions. This particular volume examines beliefs, claims, and myths about gun violence, gun laws, and gun rights in the United States. Issues covered in the book include trends in firearm violence, mass shootings, the impact of gun ownership on rates and types of crime, regulations, and Supreme Court decisions regarding gun control and the Second Amendment, and the activities and influence of organizations ranging from the National Rifle Association to Everytown for Gun Safety. All of these topics are examined in individualized entries with objective responses grounded in up-to-date evidence.

**On the Subject of Drama** David Hornbrook, 2002-01-04. Although much has been written on how the drama elements of the English curriculum might be taught in schools, there is less guidance available for teachers who regard drama not as an adjunct of English but as an arts subject in its own right. In this volume, David Hornbrook and a team of experienced drama specialists show how the subject of drama may be defined and taught. Drawing on literature, visual art, music, and dance, as well as the rich and varied traditions of drama itself, they map out an eclectic subject curriculum for students of all ages. Opening up the field in new and exciting ways, the book embraces the widest possible range of dramatic knowledge and skills, from the Natyashastra of ancient India to contemporary classroom improvisation. The book is divided into three sections. The teaching and learning of drama, ideas about interculturalism, creativity, and craft, key concepts informing the drama curriculum, are interrogated and re-theorised for the classroom. Making and performing drama in school, the fundamental processes of reading and writing plays for performance, are explored along with the potential of dance to

enhance and extend students experience of dramatic performance Watching and understanding drama ensuring the curriculum is appropriately balanced between the production and reception of drama this last section emphasises the role of students as audience for both live and electronic performances and the development of a dramatic vocabulary Animate Planet Kath Weston,2017-01-06 In Animate Planet Kath Weston shows how new intimacies between humans animals and their surroundings are emerging as people attempt to understand how the high tech ecologically damaged world they have made is remaking them one synthetic chemical radioactive isotope and megastorm at a time Visceral sensations she finds are vital to this process which yields a new animism in which humans and the environment become thoroughly entangled In case studies on food water energy and climate from the United States India and Japan Weston approaches the new animism as both a symptom of our times and an analytic with the potential to open paths to new and forgotten ways of living
