Daegling,2004-10-22 The myth of Bigfoot has captured the popular imagination since the creature s first public debut in 1958 numerous citations of evidence newspaper articles books hysterical personal accounts and even Hollywood movies illustrate the American public s enduring romance with the Sasquatch The scientific community on the whole however has stubbornly refused to comment on what it views as a very tall tale though Bigfoot s existence continues to be hotly argued between proponents of the beast and its skeptics Now biological anthropologist and primate physiology specialist David J Daegling enters the fray to offer both sides of the dispute benefit of objective scientific study A well crafted read Bigfoot Exposed will prove to be as much a model of scientific method for anthropologists and researchers as it is an engaging and persuasive debunking of the myth of Bigfoot Paranormal America Christopher D. Bader,F. Carson Mencken,Joseph O.

Baker,2011-01-05 A significant number of Americans spend their weekends at UFO conventions hearing whispers of government cover ups at New Age gatherings learning the keys to enlightenment or ambling around historical downtowns learning about resident ghosts in tourist targeted ghost walks They have been fed a steady diet of fictional shows with paranormal themes such as The X Files Supernatural and Medium shows that may seek to simply entertain but also serve to disseminate paranormal beliefs The public hunger for the paranormal seems insatiable Paranormal America provides the definitive portrait of Americans who believe in or have experienced such phenomena as ghosts Bigfoot UFOs psychic phenomena astrology and the power of mediums However unlike many books on the paranormal this volume does not focus on proving or disproving the paranormal but rather on understanding the people who believe and how those beliefs shape their lives Drawing on the Baylor Religion Survey a multi year national random sample of American religious values practices and behaviors as well as extensive fieldwork including joining hunts for Bigfoot and spending the night in a haunted house authors Christopher Bader F Carson Mencken and Joseph Baker shed light on what the various types of paranormal experiences beliefs and activities claimed by Americans are whether holding an unconventional belief such as believing in Bigfoot means that one is unconventional in other attitudes and behaviors who has such experiences and beliefs and how they differ from other Americans and if we can expect major religions to emerge from the paranormal Brimming with engaging personal stories and provocative findings Paranormal America is an entertaining yet authoritative look at a growing segment of American religious culture Big Foot or Sasquatch, I Believe Frederick Humberson,2021-02-15 As I grew up in

the 50s we didn t hear anything about Bigfoot Growing up in the timber business and in the woods a lot I saw things that I questioned as to what made or caused them a small tree broke over up to eight to ten feet or trees in a teepee together or rocks piled on top of each other in places where no people would have been and where roots had been dug up and stumps dug up Bears do not do these kinds of things and we didn t have many bears in our area anyhow Then in the 70s the Bigfoot stories started mostly from the Western states and the Rocky Mountains So I stated putting two and two together if it was true a creature in the woods that would do all these things that I saw I started slowly becoming a believer in this creature

What else would do all these things I never worried about what people thought of me So I started talking to people about Bigfoot and that I believed in them After a number of years these people started coming to me with these stories about their sightings Many people told me to write about Bigfoot so here it is the true stories of happenings from myself and other people Now do you believe

**Where Bigfoot Walks** Robert Michael Pyle, 2017-08-01 One of America's most esteemed natural history writers takes to the hills of the Pacific Northwest in search of Bigfoot and finds the wildness within ourselves A unique book in the bigfoot literature that understands what most lifetime bigfooters eventually come to know that bigfooting is about the journey more than the destination Cliff Barackman field researcher and star of Animal Planet's Finding Bigfoot Awarded a Guggenheim Fellowship to investigate the legends of Sasquatch Yale trained ecologist Dr Robert Pyle treks into the unprotected wilderness of the Dark Divide near Mount St Helens where he discovers both a giant fossil footprint and recent tracks On the trail of what he thought was legend he searches out Indians who tell him of an outcast tribe the Seeahtiks who had not fully evolved into humans A handful of open minded biologists and anthropologists counter the tabloids Pyle studies while rogue Forest Service employees and loggers swear of a vast conspiracy to keep six true stories of unknown upright hominoid apes among us He attends Sasquatch Daze where he meets scientists hunters and others who have devoted their lives to the search only to realize that these guys don't want to find Bigfoot they want to be Bigfoot Where Bigfoot Walks was the inspiration for the 2020 film The Dark Divide starring David Cross and Debra Messing Since the book's original publication Pyle's fresh experiences and findings have been added to his original work through an updated chapter With an evaluation of recent DNA evidence from Bigfoot hair and scat the study of speech phonemes in the Sierra Sounds purported Bigfoot recordings an examination of the impact of the wildly popular Animal Planet series Bigfoot Hunters the reemergence of the famous Bob Gimlin into the Bigfoot community and more Walking With Bigfoot keeps every Bigfoot enthusiast's mind wide open to one of the biggest questions in the land and brings Pyle's work on the legend of Bigfoot into the new century

**Abominable Science!** Daniel Loxton, Donald R. Prothero, 2013-08-06 A sharp analysis of the quest for unreal critters cryptids as they are called and the people who pursue them entertaining and thoroughly documented The Wall Street Journal Throughout our history humans have been captivated by mythic beasts and legendary creatures Tales of Bigfoot the Yeti and the Loch Ness monster are part of our collective experience Now comes a book from two dedicated investigators that explores and elucidates the fascinating world of cryptozoology Daniel Loxton and Donald R Prothero have written an entertaining educational and definitive text on cryptids presenting the arguments both for and against their existence and systematically challenging the pseudoscience that perpetuates their myths After examining the nature of science and pseudoscience and their relation to cryptozoology Loxton and Prothero take on Bigfoot the Yeti or Abominable Snowman and its cross cultural incarnations the Loch Ness monster and its highly publicized sightings the evolution of the Great Sea Serpent and Mokele Mbembe or the Congo dinosaur They conclude with an analysis of the psychology behind the

persistent belief in paranormal phenomena identifying the major players in cryptozoology discussing the character of its subculture and considering the challenge it poses to clear and critical thinking in our increasingly complex world As valuable for its analysis of the hunted as it is for the light it shines on the still hopeful hunters Publishers Weekly Highly recommended for readers looking for scientific but accessible evaluations of the existence of five notable cryptids that have captured our imaginations Library Journal starred review Bigfoot Infobase Holdings, Inc.,2010 Many people believe a giant ape inhabits the American Northwest Known as Bigfoot or Sasquatch this beast is one of the most popular of all cryptids See how scientists analyze the most famous sightings of this amazing animal including the most controversial encounter of all Roger Patterson s 1967 Bigfoot film from Bluff Creek California Bigfoot Fact or Fiction follows the footprint trail of the Yeti of the Himalayas and the Australian Yowie Bigfoot s relatives from distant lands This interesting book presents the evidence so readers can decide for themselves whether these creatures exist in the real world or if they simply reside in the human imagination **The De Facto Sasquatch (Book 2): Behavioral Patterns and Witness Accounts** Bobbie

Short,2025-09-25 What happens when 30 years of serious research reveals that everything we thought we knew about Sasquatch is wrong They re not hiding They re watching And what researcher Bobbie Short exposes after three decades of investigation will change how you see the wilderness forever The Mystery Deepens Why do experienced truckers report the same impossible behavior on remote highways What explains the mathematical precision found in their territorial markings And how do you account for witnesses across the continent describing identical communication methods they couldn t possibly have coordinated The answers lie buried in Short s unprecedented database of encounters but they re not the answers you expect Questions That Will Haunt You What does it mean when these creatures demonstrate knowledge that should be impossible for any undiscovered animal Why do Native American accounts from centuries ago perfectly match modern witness reports How do you explain documented cases of what appears to be revenge What are the implications of the strategic behaviors Short uncovers The Evidence You ve Never Heard Hidden within these pages are case studies that will make you question everything The railroad engineer s 1950 encounter that reads like science fiction but comes with documentation Strategic behaviors that suggest military level intelligence Communication abilities that blur the line between animal and something else Family dynamics that mirror our own in terrifying ways A Warning to Readers This isn t entertainment Short s methodology is rigorous her skepticism legendary and her conclusions unsettling She presents only what can be documented cross referenced and verified The patterns she uncovers suggest we may be dealing with something far more complex than a missing link For Those Who Dare to Know If you ve ever felt watched in the wilderness if you ve heard sounds that didn t belong if you ve wondered what s really out there in North America s vast remote areas This book contains answers But once you know what Short discovered you ll never look at a tree line the same way again Some mysteries are better left unsolved This isn t one of them Based on the largest behavioral database ever compiled featuring

witness accounts that span decades and defy conventional explanation What emerges from the data will challenge everything you thought you knew about what shares our continent Are you prepared for what three decades of serious research reveals Read at your own risk

**The Secret History of Bigfoot** John O'Connor,2024-02-06 A winning portrait of America at its weirdest Publishers Weekly STARRED Review From the shrouded forests of the Pacific Northwest to off the wall cryptozoological conventions one man searches high and low for the answer to the question real or not why do we want to believe Bigfoot is an instantly recognizable figure Through the decades this elusive primate has been featured in movies and books on coffee mugs beer koozies car polish and CBD oil Which begs the question what is it about Bigfoot that's caught hold of our imaginations Journalist and self diagnosed skeptic John O Connor is fascinated by Sasquatch Curious to learn more he embarks on a quest through the North American wilds in search of Bigfoot its myth and meaning Alongside an eccentric cast of characters he explores the zany and secretive world of cryptozoology tracking Bigfoot through ancient folklore to Harry and the Hendersons while examining the forces behind our ever widening belief in the supernatural As O Connor treks through the shrouded forests of the Pacific Northwest listens to firsthand accounts and attends Bigfoot conventions he's left wondering what happens when the lines between myth and reality blur Perfect for fans of Bill Bryson and Douglas Preston and with sharp wit and an adventurous spirit this heartfelt exploration of a cornerstone of American folklore unpacks why we believe in the things that we do what that says about us and how it shapes our world

**Searching for Sasquatch** B. Regal,2011-04-11 The first academic study of this subject is an entertaining look at the search for Sasquatch which considers not just the nature of monsters and monster hunting in the late 20th century but the more important relationship between the professional scientists and amateur naturalists who hunt them and their place in the history of science

their sources drawing from a huge archive of observations opinions and discussions This updated second edition boasts new illustrations and plenty of intriguing new sections from near death experiences to ghosts haunted houses and mysterious mass deaths There are many things which are not yet known or understood about our world as this guide shows there are many riddles to solve and wonders to experience Decide for yourself with The Rough Guide to Unexplained Phenomona

Squatch Files John Kuykendall, 2018-07-29 There is no greater mystery in the annals of the unexplained in America than Sasquatch the creature most commonly known as Bigfoot Reports of giant man and ape like monsters have been documented all over the country although primarily in the forested regions of the Pacific Northwest There are many tales of giant hairy figures in every state in America although the traditional Bigfoot is believed to roam the vast regions of California Oregon Washington Idaho and the western edge of Canada The narrative that follows will include history and lore from a variety of locations Although most mainstream scientists maintain that no such creatures exist and short of an actual specimen their minds will not be changed it is not inconceivable that undiscovered creatures could be roaming this wide region of mountains and forests There are areas here that have been almost completely untouched by man and where few signs of the modern world can be found even today
