

One day, as a small child, Thomas Edison came home from school and gave a paper to his mother. He told her, "My teacher gave this paper to me and told me to only give it to my mother."

His mother's eyes were tearful as she read the letter out loud to her child:

"Your son is a genius. This school is too small for him and doesn't have enough good teachers to train him. Please teach him yourself."

Many, many years after Edison's mother had died, he became one of the greatest inventors of the century.

One day he was looking through old family things. Suddenly he saw a folded paper in the corner of a drawer in a desk. He took it and opened it up. On the paper was written:

"Your son is addled [mentally ill]. We won't let him come to school anymore."

Edison cried for hours and then he wrote in his diary:

"Thomas Alva Edison was an addled child whose mother turned him into the genius of the century."
