The F-frame Moultons Tony Hadland, 2014. My intention in the creation of the Moulton bicycle was to take the evolution of that most remarkable device a stage beyond its classical form. In other words to produce a bicycle which was more pleasing to have and to use. One of the most pleasing consequences of the Moulton bicycle epic so far has been the spontaneous growth of the Moulton Users groups and to meet and to ride with them gives me special pleasure. Dr Alex Moulton. The purpose of this book is twofold. It introduces the Moulton bicycle to the many people cyclists and non cyclists alike who either know nothing of it or whose knowledge is limited by the virtual disappearance of this extraordinary machine from our roads by the numerous myths circulating about it and by the cursory mention it receives in most cycling books. Additionally the book offers to Moulton owners and devotees a further appreciation of the background history and capability of the bike. Beverly Taff, 2012-08-02. Synopsis. Mindful is a powerful novel about child abuse. It explores the divided mind and sexuality of Ian Evans, a transvestite child whose questions about his identity initiate the onset of telepathy. Without any telepathic adult mentors to guide him through his experiences, young Ian believes he is mad because of the inexplicable accusative and critical voices in his head. Ian ends up in a psychiatric unit run by paedophiles where he is seriously abused because of his transvestism. He escapes to end up as a child prostitute on the streets. Winter overwhelms Ian and he is delivered to another care unit where Doctor Mary Evans makes a breakthrough by encouraging a friendship between Ian and Sandra, a similarly abused girl. The unit is then closed and the children are placed in the community except for Ian, the violent transvestite, and Michael, an autistic mute. In a psychiatric unit, Ian and Michael develop a symbiotic telepathic relationship, but it is misinterpreted as a sexual liaison because of Ian's burgeoning transvestite femininity. Their separation causes Michael to commit suicide while Ian, now living as Iona, is left alone to deal with her growing telepathic skill. The psychiatric unit proves a perfect place to practice telepathy. Iona uses her telepathic skills to get released but then runs afoul of the military who want to use Iona for her Mindful talents. About the Author: Beverly Taff lives in South Wales and is working on the sequel. Publisher's website: <http://www.sbpra.com/BeverlyTaff>
