

# Straddling Borders

**Steven Hirsch, Lucien van der Walt**

## **Straddling Borders:**

Straddling Borders Elaine Rusinko, 2003-01-01 The Subcarpathian Rusyns are an east Slavic people who live along the southern slopes of the Carpathian mountains where the borders of Ukraine Slovakia and Poland meet Through centuries of oppression under the Austro Hungarian and Soviet empires they have struggled to preserve their culture and identity Rusyn literature reflecting various national influences and written in several linguistic variants has historically been a response to social conditions an affirmation of identity and a strategy to ensure national survival In this first English language study of Rusyn literature Elaine Rusinko looks at the literary history of Subcarpathia from the perspective of cultural studies and postcolonial theory presenting Rusyn literature as a process of continual negotiation among states religions and languages resulting in a characteristic hybridity that has made it difficult to classify Rusyn literature in traditional literary scholarship Rusinko traces Rusyn literature from its emergence in the sixteenth century through the national awakening of the mid nineteenth century and its struggle for survival under Hungarian oppression to its renaissance in inter war Czechoslovakia She argues that Rusyn literature provides an acute illustration of the constructedness of national identity and has prefigured international postmodern culture with its emphasis on border crossings intersecting influences and liminal spaces With extracts from Rusyn texts never before available in English Rusinko's study creates an entirely new perspective on Rusyn literature that rescues it from the clichés of Soviet dominated critical theory and makes an important contribution to Slavic studies in particular and post colonial critical studies in general

We, the People of Europe? Étienne Balibar, 2009-01-10 Étienne Balibar has been one of Europe's most important philosophical and political thinkers since the 1960s His work has been vastly influential on both sides of the Atlantic throughout the humanities and the social sciences In *We the People of Europe* he expands on themes raised in his previous works to offer a trenchant and eloquently written analysis of transnational citizenship from the perspective of contemporary Europe Balibar moves deftly from state theory national sovereignty and debates on multiculturalism and European racism toward imagining a more democratic and less state centered European citizenship Although European unification has progressively divorced the concepts of citizenship and nationhood this process has met with formidable obstacles While Balibar seeks a deep understanding of this critical conjuncture he goes beyond theoretical issues For example he examines the emergence alongside the formal aspects of European citizenship of a European apartheid or the reduplication of external borders in the form of internal borders nurtured by dubious notions of national and racial identity He argues for the democratization of how immigrants and minorities in general are treated by the modern democratic state and the need to reinvent what it means to be a citizen in an increasingly multicultural diversified world A major new work by a renowned theorist *We the People of Europe* offers a far reaching alternative to the usual framing of multicultural debates in the United States while also engaging with these debates

**The Routledge Handbook of Language and Superdiversity** Angela Creese, Adrian Blackledge, 2018-02-21

The Routledge Handbook of Language and Superdiversity provides an accessible and authoritative overview of this growing area the linguistic analysis of interaction in superdiverse cities Developed as a descriptive term to account for the increasingly stratified processes and effects of migration in Western Europe superdiversity has the potential to contribute to an enhanced understanding of mobility complexity and change with theoretical practical global and methodological reach With seven sections edited by leading names the handbook includes 35 state of the art chapters from international authorities The handbook adopts a truly interdisciplinary approach covering Cultural heritage Sport Law Education Business and entrepreneurship The result is a truly comprehensive account of how people live work and communicate in superdiverse spaces This volume is key reading for all those engaged in the study and research of Language and Superdiversity within Applied Linguistics Linguistic Anthropology and related areas

### **Social Work and Research in Advanced Welfare**

**States** Kjeld Hogsbro,Ian F Shaw,2017-06-14 The aim of this book is to exemplify the ways in which social work and research develop in advanced welfare states countries where public spending is relatively high as a proportion of GNP While such countries have traditionally been associated with Scandinavian countries in particular and North Western Europe more generally there are other countries where the public spend on welfare is relatively high The various contributors in this book explore and exemplify ways in which social work and research are distinctive for advanced welfare states This involves exploring their connection to professional identities histories and welfare systems their associations with academic theoretical and cultural traditions of collaboration between academic and social work practice and the distinctive links with community national policy governmentality and agency with respect to forms of knowledge discourses and conception of social problems Written by contributors who have experience of living and working in Belgium Denmark Ireland Italy Singapore and the UK this book speaks throughout about problems methods systems and ideas in language that is readily transferable and transcends national boundaries of thought and social work practice It will be read and understood by social work students across Europe

**Fairouz and the Arab Diaspora** Dima Issa,2023-05-18 With a discography of over 1000 songs 20 musicals and three motion pictures the Lebanese singer and performer Fairouz is an artist of pan Arab appeal who has connected with listeners from diverse backgrounds and geographies for over four often tumultuous decades In this book Dima Issa explores the role of Fairouz s music in creating a sense of Arab identity amidst changing political economic context Based on two years of research including 60 interviews it takes an ethnographic approach focussing on audience reception of Fairouz s music among the Arab diasporas of London and Doha It shows that for discussants talking about Fairouz meant discussing diasporic life bringing to the surface notions of Arabness and authenticity presence and absence naturalization and citizenship and the issue of gender Conversations with the research respondents shed light on the idea of iltizam commitment or how members of the Arab diaspora hold on to attributes that they feel define and differentiate them from others

*Routledge Handbook of World-Systems Analysis* Salvatore Babones,Christopher Chase-Dunn,2012-05-31 World

systems analysis has developed rapidly over the past thirty years Today s students and junior scholars come to world systems analysis as a well established approach spanning all of the social sciences The best world systems scholarship however is spread across multiple methodologies and more than half a dozen academic disciplines Aiming to crystallize forty years of progress and lay the groundwork for the continued development of the field the Handbook of World Systems Analysis is a comprehensive review of the state of the field of world systems analysis since its origins almost forty years ago The Handbook includes contributions from a global interdisciplinary group of more than eighty world systems scholars The authors include founders of the field mid career scholars and newly emerging voices Each one presents a snapshot of an area of world systems analysis as it exists today and presents a vision for the future The clear style and broad scope of the Handbook will make it essential reading for students and scholars of anthropology archaeology geography political science history sociology and development economics *Time's Language* Margaret Randall,2018-09-01 Time s Language contains powerful poems of witness as well as personal poems and autobiographical prose pieces that read like prose poems recounting a life of resistance the life of a life long literary and political revolutionary As US Poet Laureate Juan Felipe Herrera writes Here are Margaret Randall s decades of love ink tears contestation and light let us bow in gratitude for this truth telling daring border breaking pioneering long time volume of soul fire Urban-Scape Switzerland Angelus Eisinger,Michel Schneider,2003 Settlement areas today can no longer be aptly described as either urban or rural We now live in sprawling conglomerations collages of urban suburban and rural elements New political solutions need to be found challenging the institutional framework of federalism and the concept of local government Commissioned by the foundation avenir suisse Think Tank for Economic and Social Issues this publication gathers contributions by experts from the fields of sociology geography politics economics and architecture including Winy Maas MVRDV vision for a Switzerland of the future Whilst focusing on Switzerland as a case study this book is a thought provoking report on the gradual changes taking place in all industrialised countries Angelus Eisinger teaches at the Department of Architecture at the Swiss Federal Institute of Technology in Zurich Michael Schneider is the project leader at avenir suisse Cosmopolitan Learning for a Global Era Sarah Richardson,2015-09-16 Ensuring that higher education students are fully prepared for lives as global citizens is a pressing concern in the contemporary world This book draws on insights from cosmopolitan thought to identify how people from different backgrounds can find common ground By applying cosmopolitan insights to higher education practice Sarah Richardson charts how students can be given the opportunity to experience a truly international education which emphasises deep cultural exchange rather than mere transactional contact Written in an engaging and accessible style the author uses empirical evidence to show that simply studying alongside those different to themselves or studying overseas are inadequate in preparing students to lead the diverse societies of tomorrow Instead the book calls for a coherent approach to higher education that properly prepares students to lead global lives Chapters highlight a number of key aspects of higher education

practice from curriculum to pedagogy to educator skills to assessment and demonstrate how these can be reconsidered to give students the opportunity to gain cosmopolitan attributes during their higher education Cosmopolitan Learning for a Global Era will be of great interest to researchers scholars and postgraduate students with a particular focus on cosmopolitan thought international education and higher education more broadly as well as university educators and leaders across a wide range of disciplinary areas

**Thinking Strategically** Robert Legvold, 2003 The first volume in a series focusing on security challenges posed by the former Soviet Union addresses the economic political and security interests at stake in Kazakhstan for Russia the US China Europe and Japan

Metals Trading Handbook Paddy Crabbe, 1998-11-23 Drawing on his years of experience in the metal trading community the author examines the structure and workings of the London Metal Exchange LME risk identification and management plus trading techniques strategies and instruments available to today's metals traders Metals Trading Handbook also covers the crucial areas of internal control accounting and regulation The author conveys essential information for professionals in the metals business He provides an international outlook especially for financial investment and advisory specialists The book offers the most extensive scope available on the LMW

**Stones Witness** Margaret Randall, 2007 Starting from meditations on the ancient Pueblo Indian ruins at Kiet Seel a collection of photography poetry and personal essays ponders the histories of conquest and displacement religion and mythology humans relationship with space gender and womanhood nature and politics

**Mapping Minor/Small and World Literatures** Yanli He, Nicholas Birns, 2024-06-05 Mapping Minor Small and World Literatures Periphery and Center makes a declarative intervention in debates about world literature redefining the boundaries between the center and periphery to rejuvenate long established assumptions about significance and insignificance In this book African American literature emerging from the often overlooked pink periphery a cramped space of minor literature works from the Faroe Islands Basque literature First Nation Canadian literature Western narratives about peripheral China Kurdish literature the ultraminor literary space of Antigua the favela of Brazilian literature as well as the hyperlocal narratives of Australian and New Zealand literature are all studied for their meaningful role within the world literary system Additionally working class writing and the literary contributions of individuals on the margins of their own societies are given a voice ensuring that the world literary space does not merely represent the perspectives of dominant elites Unlike other descriptions of world literature which have frequently allowed the grandeur and breadth of the global to overshadow the imperative for authentic literary biodiversity this anthology featuring contributions from diverse scholars representing various countries and backgrounds actively deconstructs the structures of power and domination inherent in Western European centered world literature minor literature and small literature

**Global Environmental Governance** Louis J. Kotzé, 2012-01-01 This book is a novel sophisticated broad ranging and insightful study of the idea of global environmental governance but from a legal dimension and perspective While recognising that concepts and ideas used to describe governance are generally abstract

vague and slippery this project brings clarity to the field by being theoretically informed contextually sensitive and pragmatically circumscribed Its conclusions and arguments open up a field of inquiry that has to be genuinely interdisciplinary and in that sense has great potential to contribute to a better understanding of environmental themes and issues This book is destined to become a landmark for legal academics who will write about environmental governance in that its concern is with the global governance of nature rather than a text that uses the environment as a pretext for understanding governance It is well written easy and enjoyable to read and while it traverses through diverse bodies of literature it manages to effectively communicate with a variety of scholarly communities Afshin Akhtarkhavari Griffith Law School Australia Fourth generation global environmental regulation attempts to address the complex realities of an interconnected environment global environmental problems and collective regulatory responses It merits conceptual clarity Louis Kotz reveals the legal contours and content of global environmental governance by chipping away such parts of the conceptual marble block as are not needed For the environmental lawyer it is a welcome and much needed process of elimination This book provides a toolkit for lawyers to engage critically with the extra legal concept of environmental governance Its scrutiny and careful analysis contribute meaningfully to the environmental discourse Christine Voigt University of Oslo Norway Global Environmental Governance is a truly important book Drawing on a multitude of disciplines award winning environmental law Professor Louis Kotz masterfully explains the emerging concept of global environmental governance and its elements of globalism environmental law regulation and governance theory He makes a compelling case that the world has outgrown the sustainability model and moved toward this more all encompassing approach to environmental regulation This admirable book makes global environmental governance theory understandable and pertinent so environmental leaders lawyers and regulators can engage comfortably with this new vision for an ecologically and economically healthy world George Rock Pring University of Denver Sturm College of Law US This book in examining the relationship between global environmental governance and environmental law provides an important and timely contribution to the quest to fashion a more viable approach to regulating the relationship between humanity and the environment While the term governance is much employed in international environmental law scholarship its conceptual underpinnings have not on the whole been adequately addressed in the legal sphere and understanding of the symbiotic relationship between the two areas has suffered as a result This book makes a welcome start to tackling these issues and it is to be hoped will trigger renewed vigour in this socially and legally vital area of inquiry Karen Morrow University of Swansea Wales UK For years scholars of international law and international relations have developed parallel literatures In Global Environmental Governance Louis Kotz offers a common conceptual theoretical and normative ground in the global environmental field As a skillful lawyer he dissects terminology explains core assumptions and constructs causal chains But he does not stop there His shrewd analysis of power and authority individual incentives and collective action management and regulation builds a

bridge between law and politics as disciplines concerned about what global environmental governance is and how it can be improved Maria Ivanova University of Massachusetts US In search of shelter from the buffeting blasts of climate change biodiversity loss resource depletion famine and disease states and public agencies community representatives resource users advocacy networks and citizens huddle together under the vast and varied institutional umbrellas of environmental governance Louis Kotz s innovative study systematically describes the role of environmental law as the springs stretchers ribs and handles of the decision making umbrellas we so desperately hope will hold firm when they are opened up in times of need Jamie Benidickson University of Ottawa Canada The concept of global environmental governance has been part of the lexicon in accounts of global environmental politics for some time Yet to date it has escaped comprehensive assessment from a legal perspective This groundbreaking work fills this gap in the literature It offers a masterful analysis of the theoretical underpinnings of the environmental governance and highlights the critical importance of environmental regulation in ensuring that environmental governance lives up to its promise as a means for achieving truly ecologically sustainable development Tim Stephens University of Sydney Australia This timely book brings much needed clarity to the concept of environmental governance as manifested in the global regulatory domain The author argues that despite being used as a fashionable term by many including economists political scientists environmentalists and increasingly lawyers its theoretical contours and conceptual content remain unclear incoherent and inconsistent In addressing this problem the book begins by describing globalization as a general context of governance It comprehensively interrogates and clarifies both the governance and global governance concepts and then explains aspects and components of global environmental governance Finally it investigates the role of law in global environmental governance Providing a much needed definition of environmental governance and global environmental governance this comprehensive study will appeal to academics and researchers post graduate and under graduate students intergovernmental organizations such as UNEP WTO IUCN as well as governments and governmental agencies involved with environmental regulation

Twentieth Century China: An Annotated Bibliography of Reference Works in Chinese, Japanese and Western Languages James H. Cole, 2019-07-23 This bibliography of reference works from Chinese Japanese and Western language sources covers the 1911 Revolution the Republic of China 1912 1949 the People s Republic of China 1949 onwards post 1911 Hong Kong and Macau and post 1911 overseas Chinese Filled with helpful checklists charts and suggestions for further reading this practical comprehensive and multidisciplinary guide takes readers through the entire case writing process including skills for writing both teaching cases and research cases This edition includes new discussions of students as case writers and how to interpret and respond to reviews as well as updated and expanded material on video multimedia and Internet cases

*Deceiving (dis)appearances* Harlan Koff, 2007 The impact of recent shifts in global geopolitics and economic markets has led to the re conceptualization of national borders Scholars have shifted their analysis away from the narrow idea of borders and moved their attention

towards the wider view of borderlands border regions and border zones thus leading to the conceptual re definition of border politics These recent approaches have identified border areas as socially constructed territories that demonstrate many of the characteristics of independent polities Border communities seem to have come to life creating a degree of autonomy and separation from central state actors While the rich literature in border studies identifies important changes in local political and economic systems it does not necessarily identify the mechanisms that create these changes Why has integration occurred in some border regions while others are being reinforced Why has integration failed in some cases where opportunity structures are positive while it has succeeded in others saddled with more limited constraints The essays in this volume address such fundamental questions

[Anarchism and Syndicalism in the Colonial and Postcolonial World, 1870-1940](#) Steven Hirsch, Lucien van der Walt, 2010-11-11 Before communism anarchism and syndicalism were central to labour and the Left in the colonial and postcolonial world Using studies from Africa Asia Eastern Europe and Latin America this groundbreaking volume examines the revolutionary libertarian Left s class politics and anti colonialism in the first globalization and imperialism 1870 1930

*For Kin or Country* Stephen M. Saideman, R. William Ayres, 2008-07-01 The collapse of an empire can result in the division of families and the redrawing of geographical boundaries New leaders promise the return of people and territories that may have been lost in the past often advocating aggressive foreign policies that can result in costly and devastating wars The final years of the Austro Hungarian and Ottoman empires the end of European colonization in Africa and Asia and the demise of the Soviet Union were all accompanied by war and atrocity These efforts to reunite lost kin are known as irredentism territorial claims based on shared ethnic ties made by one state to a minority population residing within another state *For Kin or Country* explores this phenomenon investigating why the collapse of communism prompted more violence in some instances and less violence in others Despite the tremendous political and economic difficulties facing all former communist states during their transition to a market democracy only Armenia Croatia and Serbia tried to upset existing boundaries Hungary Romania and Russia practiced much more restraint The authors examine various explanations for the causes of irredentism and for the pursuit of less antagonistic policies including the efforts by Western Europe to tame Eastern Europe Ultimately the authors find that internal forces drive irredentist policy even at the risk of a country s self destruction and that xenophobia may have actually worked to stabilize many postcommunist states in Eastern Europe Events in Russia and Eastern Europe in 2014 have again brought irredentism into the headlines In a new Introduction the authors address some of the events and dynamics that have developed since the original version of the book was published By focusing on how nationalist identity interact with the interests of politicians *For Kin or Country* explains why some states engage in aggressive irredentism and when others forgo those opportunities that is as relevant to Russia and Ukraine in 2014 as it was for Serbia Croatia and Armenia in the 1990s

**The New Peplum** Nicholas Diak, 2018-01-12 Peplum or sword and sandal films an Italian genre of the late 1950s through the 1960s featured

ancient Greek Roman and Biblical stories with gladiators mythological monsters and legendary quests The new wave of historic epics known as neo pepla is distinctly different embracing new technologies and storytelling techniques to create an immersive experience unattainable in the earlier films This collection of new essays explores the neo peplum phenomenon through a range of topics including comic book adaptations like Hercules the expansion of genre boundaries in Jupiter Ascending and John Carter depictions of Romans and slaves in Spartacus and The Eagle and Centurion as metaphors for America's involvement in the Iraq War

**Border Theory** Scott Michaelsen, David E. Johnson, 1997 Border Theory was first published in 1997 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Challenging the prevailing assumption that border studies occurs only in the borderlands where Mexico and the United States meet the authors gathered in this volume examine the multiple borders that define the United States and the Americas including the Mason Dixon line the U S Canadian border the shifting boundaries of urban diasporas and the colonization and confinement of American Indians The texts assembled here examine the way border studies beckons us to rethink all objects of study and intellectual disciplines as versions of a border problematic These writers drawn from anthropology history and language studies critique the terrain limits and possibilities of border theory They examine among other topics the soft or friendly borders produced by ethnic studies antiassimilationist or difference multiculturalisms liberal anthropologies and benevolent nationalisms Referring to a range of theory anthropological sociological feminist Marxist European postmodernist and poststructuralist postcolonial and ethnohistorical the authors trace the genealogical and logical links between these discourses and border studies A timely critique of a field just now revealing its explosive potential this volume maps the intellectual topography of border theory and challenges the epistemological and political foundations of border studies Contributors are Russ Castronovo Elaine K Chang Louis Kaplan Alejandro Lugo Benjamin Alire S enz and Patricia Seed Scott Michaelsen is assistant professor of English at Michigan State University David E Johnson is lecturer in the Department of Modern Languages at the State University of New York at Buffalo

that i got them in is as follows forward interpolation

**introduction to numerical methods interpolation wikibooks** - Jun 12 2023

in numerical analysis newton s method also known as the newton raphson method named after isaac newton and joseph raphson is a root finding algorithm which produces successively better approximations to the roots or zeroes of a real valued function the most basic version starts with a single variable function  $f$  defined for a real variable  $x$  the function s derivative  $f'$  and an initial guess  $x_0$  for a root of  $f$  if the function satisfies sufficient assumptions and the initial guess is close

*newton s forward difference formula from wolfram mathworld* - Feb 08 2023

in the mathematical field of numerical analysis a newton polynomial named after its inventor isaac newton is an interpolation polynomial for a given set of data points the newton polynomial is sometimes called newton s divided differences interpolation polynomial because the coefficients of the polynomial are calculated using newton s divided differences method
