Strange Death Of Moral Britain

Stephen Hunt

Strange Death Of Moral Britain:

The Strange Death of Moral Britain Christie Davies, 2017-09-08 In the last half of the twentieth century a once respectable and religious Britain became a seriously violent and dishonest society one in which person and property were at risk family breakdown ubiquitous and drug and alcohol abuse rising The Strange Death of Moral Britain demonstrates in detail the roots of Britain's decline It also shows how a society strongly Protestant in both morality and identity became one of the most secular societies in the world The culture wars about abortion capital punishment and homosexuality that have convulsed the United States have little meaning in Britain where there is neither a moral majority nor an indigenous emphasis on rights In the period when Britain had a strong national and religious identity defense of this identity led to legal persecution of male homosexuals As Britain's identity crumbled homosexuality ceased to be an important issue for most people Similarly all the pressing questions on abortion capital punishment and homosexuality were settled permanently on a purely utilitarian basis in Britain where all sources of moral argument are weak The ending of the death penalty marked the decline of the influence of the official hierarchies of church and state the Church of England the armed forces and their representative the Conservative Party The Strange Death of Moral Britain is a study of moral change secularization loss of identity and the growth of deviant behavior in Britain in the twentieth century Based on detailed scholarship it is a tightly argued and clearly written volume that will be of interest to scholars of religious studies and British social history

The Strange Death of Moral Britain Christie Davies, 2004 In the last half of the twentieth century a once respectable and religious Britain became a seriously violent and dishonest society one in which person and property were at risk family breakdown was ubiquitous and drug and alcohol abuse was rising The Strange Death of Moral Britain demonstrates in detail the roots of Britain's decline It also shows how a society strongly Protestant in both morality and identity became one of the most secular societies in the world The culture wars about abortion capital punishment and homosexuality which have convulsed the United States have little meaning in Britain where there is neither a moral majority nor any indigenous emphasis on rights In the period when Britain had a strong national and religious identity defense of this identity led to legal persecution of male homosexuals As Britain's identity crumbled homosexuality ceased to be an important issue for most people Similarly all the pressing questions on abortion capital punishment and homosexuality were settled permanently on a purely utilitarian basis in Britain where all sources of moral argument are weak The ending of the death penalty marked the decline of the influence of the official hierarchies of church and state the Church of England the armed forces and their representative the Conservative Party The Strange Death of Moral Britain is a study of moral change secularization loss of identity and the growth of deviant behavior in Britain in the twentieth century Based on detailed scholarship it is tightly argued and clearly written with a minimum of jargon It will be of interest to scholars in religious studies and British social history and to a general reading public concerned with timely moral controversies

The Rise and Fall of the Rehabilitative

Ideal, 1895-1970 Victor Bailey, 2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history **Archbishop Fisher, 1945-1961** Andrew Chandler, David Hein, 2016-04-15 Archbishop Fisher's archiepiscopate reflected the central issues of his time and place It was Fisher who oversaw an immense programme of reforms which effectively recast the institutions of the Church of England for generations to come It was Fisher who proved to be the essential architect politician and diplomat behind the creation of a worldwide Anglican Communion His determination to promote the development of relations with other churches produced a vital contribution to the cause of ecumenism which culminated in his momentous meeting with Pope John XXIII Archbishop Fisher was a vigorous participant in the questions which defined national and international life This book explores Fisher's influence on major contemporary issues and events including divorce law reform and capital punishment at home and the end of Empire and the most dangerous years of the Cold War abroad This new biography establishes the continuing significance not only of the office of Archbishop in the Church but also of the Church at large in the tumultuous world of the later twentieth century A final section of original source material includes letters sermons and other writings bringing vividly to life the range and character of Fisher's public and private role Secularisation, Pentecostalism and Violence David Martin, 2017-03-16 In this book David Martin brings together a coherent summary of his many years of ground breaking academic work on the sociology of religion Covering key and contentious areas from the last half century such as secularisation religion and violence and the global rise of Pentecostalism it presents a critical recuperation of these themes some of them first initiated by the author and a review of their reception history As such this collection is vital reading for all academics with an interest in David Martin's work as well as those involved with the sociology of religion and the study of secularisation more generally *Freemasonry and the Press in the Twentieth Century* Paul Calderwood, 2016-04-15 By the end of the twentieth century Freemasonry had acquired an unsavoury reputation as a

secretive network of wealthy men looking out for each others interests The popular view is of an organisation that if not actually corrupt is certainly viewed with deep mistrust by the press and wider society Yet as this book makes clear this view contrasts sharply with the situation at the beginning of the century when the public s perception of Freemasonry in Britain was much more benevolent with numerous establishment figures including monarchs government ministers archbishops and civic worthies enthusiastically recommending Freemasonry as the key to model citizenship Focusing particularly on the role of the press this book investigates the transformation of the image of Freemasonry in Britain from respectability to suspicion It describes how the media projected a positive message of the organisation for almost forty years based on a mass of news emanating from the organisation itself before a change in public regard occurred during the later twentieth century This change in the public mood the book argues was due primarily to Masonic withdrawal from the public sphere and a disengagement with the press Through an examination of the subject of Freemasonry and the British press a number of related social trends are addressed including the decline of deference the erosion of privacy greater competition in the media the emergence of more aggressive and investigative journalism the consequences of media isolation and the rise of professional Public Relations The book also illuminates the organisation s collisions with nationalism communism and state welfare provision As such the study is illuminating not only for students of Freemasonry but those with an interest in the wider social history of modern Britain

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain s past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain s political past and a thought provoking long view for those interested in current political challenges

Modernities, Memory and Mutations Abby Day, Mia Lövhelm, 2016-03-03 Grace Davie one of the world s most influential scholars in contemporary sociology of religion has furthered a tradition developed by David Martin and others in comparative sociology of religion and modernity in European and international perspective Davie s writings on belief and belonging particularly in a context outside active Church participation have contributed important understandings of the cultural role of religion as memory and practice in contemporary European societies

Through her most recent work on new roles of religion in relation to the political legal and welfare sectors of society she has addressed debates on the resurgence of religion and the post secular condition Modernities Memory and Mutations presents an overview and critical engagement with contemporary themes in the sociology of religion which will inform current and forthcoming generations of scholars Reflecting on how Grace Davie s contributions have influenced their own work and wider debates in the field leading international scholars engage with themes Davie has critically explored across religious studies and mainstream sociology evolving a new research agenda for sociology of religion

The Abolition of Christianity Mark Walia,2022-05-26 Thanks to a wave of militant secularism now sweeping across America and the entire Western World Traditional Christianity stands on the verge of destruction Secularism has already triumphed on multiple fronts be it abortion euthanasia homosexuality or the right to sexual freedom and aspires to further revolutionary changes including elimination of marriage the family and gender itself That is the provocative message set forth in Mark Walia s *The Abolition of Christianity* Tailor made for people of faith seeking to understand exactly why our culture has become so hostile towards Christian principles this lively book will also appeal to anyone who enjoys controversial material on religion and politics

The English and Their History Robert Tombs,2015 *The English and Their History* presents in a single volume an account of the English and their history The book spans 700 000 years from the island s very first inhabitants to the present day stopping along the way to recount the tales of conquerors kings and queens a nation s myths and legends facts and extraordinary truths

Becoming Atheist Callum G. Brown,2017-01-12 *The Western World is becoming atheist* In the space of three generations churchgoing and religious belief have become alien to millions We are in the midst of one of humankind s great cultural changes How has this happened *Becoming Atheist* explores how people of the sixties generation have come to live their lives as if there is no God It tells the life narratives of those from Britain Western Europe the United States and Canada who came from Christian Jewish and other backgrounds to be without faith Based on interviews with 85 people born in 18 countries Callum Brown shows how gender ethnicity and childhood shape how individuals lose religion This book moves from statistical and broad cultural analysis to use frank humorous and sometimes harrowing personal testimony *Becoming Atheist* exposes people s role in renegotiating their own identities and fashioning a secular and humanist culture for the Western world

Reconceiving the Family Robin Fretwell Wilson,2006-07-17 This 2006 book provides a critical examination of and reflection on the American Law Institute s ALI Principles of the Law of Family Dissolution Analysis and Recommendations Principles arguably the most sweeping proposal for family law reform attempted in the US over the last quarter century The volume is a collaborative work of individuals from diverse perspectives and disciplines who explore the fundamental questions about the nature of family parenthood and child support The contributors are all recognized authorities on aspects of family law and provide commentary on the principles examined by the ALI fault custody child support property division spousal support and domestic partnerships utilizing a wide range of analytical tools including economic theory constitutional

law social science data and linguistic analysis This volume also includes the perspectives of US judges and legislators and leading family law scholars in the United Kingdom Europe Canada and Australia Atheism and Secularity Phil Zuckerman,2009-12-21 This important two volume contribution to the field of secular studies offers the first comprehensive examination of atheists and non religious people around the world Who are atheists How does atheism relate to various aspects of our social world such as politics feminism globalization and the family And what is the current state of atheism internationally Atheism and Secularity addresses the growing interest in the non religious world by exploring these and related questions It is a comprehensive and compelling look at atheists and atheism both nationally and internationally covering a range of topics often overlooked in other books on the subject Atheism and Secularity is not a philosophical polemic work but rather an exploration of who atheists are what they believe how they relate to the world and how the world relates to them The first volume focuses on topics such as family life gender sexuality politics and social movements The second volume looks at atheism and secularity around the world exploring the lives of non religious people in North America Japan China India Europe the Arab World and other locations Conscience Martin van Creveld,2015-04-15 Many consider conscience to be one of the most important if not the fundamental quality that makes us human distinguishing us from animals on one hand and machines on the other But what is conscience exactly Is it a product of our biological roots as Darwin thought or is it a purely social invention If the latter how did it come into the world In this biography of that most elusive human element Martin van Creveld explores conscience throughout history ranging across numerous subjects from human rights to health to the environment Along the way he considers the evolution of conscience in its myriad occasionally strange and ever surprising permutations He examines the Old Testament which erroneously it turns out is normally seen as the fountainhead from which the Western idea of conscience has sprung Next he takes us to meet Antigone the first person on record to explicitly speak of conscience We then visit with the philosophers Zeno Cicero and Seneca with Christian thinkers such as Paul Augustine Aquinas and above all Martin Luther as well as modern intellectual giants such as Machiavelli Rousseau Kant Hegel Nietzsche and Freud Individual chapters are devoted to Japan China and even the Nazis as well as the most recent discoveries in robotics and neuroscience and how they have contributed to the ways we think about our own morality Ultimately van Creveld shows that conscience remains as elusive as ever a continuously mysterious voice that guides how we think about right and wrong **Imagine There's No Heaven** Mitchell Stephens,2014-02-25 The historical achievements of religious belief have been large and well chronicled But what about the accomplishments of those who have challenged religion Traveling from classical Greece to twenty first century America Imagine There's No Heaven explores the role of disbelief in shaping Western civilization At each juncture common themes emerge by questioning the role of gods in the heavens or the role of a God in creating man on earth nonbelievers help move science forward By challenging the divine right of monarchs and the strictures of holy books nonbelievers including Jean Jacques Rousseau and Denis

Diderot help expand human liberties and influence the early founding of the United States. Revolutions in science in politics in philosophy in art and in psychology have been led on multiple occasions by those who are free of the constraints of religious life. Mitchell Stephens tells the often courageous tales of history's most important atheists like Denis Diderot and Salman Rushdie. Stephens makes a strong and original case for their importance not only to today's New Atheist movement but to the way many of us believers and nonbelievers now think and live. *Execution, State and Society in England, 1660-1900* Simon Devereaux, 2023-10-26 This book provides the first comprehensive account of execution practices in England and their extraordinary transformation from 1660 to 1900. Agonizing execution rituals were once common. Male traitors were hanged, disembowelled while still alive, then decapitated and quartered. Female traitors were burned alive. And common criminals slowly choked to death beneath wooden crossbeams erected at the margins of towns. Some of their bodies were either left to rot on roadside gibbets or dissected by anatomy instructors. Two centuries later, only murderers and traitors were executed, both by hanging and they died alone, usually quickly and behind prison walls. In this major contribution to the history of crime and punishment in England, Simon Devereaux reveals how urban growth and the unique public culture it produced challenged and largely displaced those traditional elites who valued the old Bloody Code as an instrument of their rule. Contemporary Christianity and LGBT Sexualities Stephen Hunt, 2016-05-13 The subject of gay and lesbian sexuality is perhaps the most vexed issue in the contemporary Christian Church. Many churches have been forced to confront the matter both theologically and pastorally and in consequence controversies have proved divisive within the Church, most notably between conservative and liberal orientated denominations as well as evangelical churches. This book explores these themes from a sociological perspective, addressing not only gay and lesbian sexualities but also bi and transgendered sexualities. With rich empirical material being presented by a team of experts, this book constitutes the first comprehensive sociological study of non-hetero sexualities in relation to contemporary Christianity. As such, it will appeal to sociologists, scholars of religion and theology as well as readers across a range of social sciences. **Harold Wilson** Andrew S. Crines, Kevin Hickson, 2016-03-11 This year marks the centenary of Harold Wilson's birth, the fiftieth anniversary of his most impressive general election victory and forty years since his dramatic resignation as Prime Minister. He was one of the longest serving premiers of the twentieth century, having won a staggering four general elections yet despite this monumental record, his place in Labour's history remains somewhat ambiguous. By the end of his two periods in power, both the left and right of the party were highly critical of Wilson, the former regarding him as a traitor to socialism, the latter as contributing directly to British decline. With contributions from leading experts in the fields of political study and from Wilson's own contemporaries, this remarkable new study offers a timely and wide-ranging reappraisal of one of the giants of twentieth-century politics, examining the context within which he operated, his approach to leadership and responses to changing social and economic norms, the successes and failure of his policies and how he was viewed by peers from across

the political spectrum Finally it examines the overall impact of Harold Wilson on the development of British politics **Love Now, Pay Later?** Nigel Yates,2011-01-01 Nigel Yates brings together the religious and social dimensions of the 1950s and 60s and examines the enormous changes in moral attitudes that took place in these two decades Much of the popular literature on post war Britain tends to present the 1950s as a period of continuing repression and respectability in the area of private and public morality and the 1960s as one in which there was rapid social change Using a wide range of contemporary sources books including novels magazines newspapers advertising fashion catalogues films and television as well as a number of significant archive collections Nigel Yates argues that changes in attitudes to religion and morality in the 1960s were only made possible by developments in the 1950s The Home We Build Together Jonathan Sacks,2025-07-03 Rabbi Sacks thesis on the future of British society and the dangers facing liberal democracy With a new foreword by Daniel Finkelstein Arguing that global communications have fragmented national cultures and that multiculturalism intended to reduce social frictions is today reinforcing them Sacks argues for a new approach to national identity making the case for integrated diversity within a framework of shared political values Britain he argues will have to construct a national narrative as a basis for identity reinvigorate the concept of the common good and identify shared interests among currently conflicting groups It must restore a culture of civility protect neutral spaces from politicization and find ways of moving beyond an adversarial culture in which the loudest voice wins He argues for a responsibility rather than rights based model of citizenship that connects the ideas of giving and belonging Offering a new paradigm to replace previous models of assimilation on the one hand multiculturalism on the other he argues that we should see society as the home we build together bringing the distinctive gifts of different groups to the common good Sacks warns of the hazards free and open societies face in the twenty first century and offers an unusual religious defence of liberal democracy and the nation state
