**Strange Land** Fraser Harrison,1982      **The Countryside Ideal** Michael Bunce,2005-10-26 Draws together diverse images of landscape to explore the historical processes shaping our continuing attachment to the countryside seen in artistic expression attitudes to nature country life and the development of rural and urban land      *Imagined Country* John Rennie Short,2005-11-15 Explores the relationship between society and the physical world through representation the artistic re creation of the physical world which reflects interpretation      *Contested Countryside Cultures* Paul Cloke,Jo Little,2005-08-12 This book examines the other side of the countryside a place also inhabited and visited by women children teenagers the elderly gay men and lesbians black and ethnic minorities the unemployed and the poor These groups have remained largely excluded by both rural policies and the representations of rural culture The book charts the experiences of these marginalised groups and sets this exploration within the context of postmodern poststructuralist postcolonial and late feminist analysis This theoretical framework reveals how notions of the rural have been created to reflect and reinforce divisions amongst those living in the countryside      **The Roots of Modern Environmentalism** David Pepper,2019-12-06 Originally published in 1984 *The Roots of Modern Environmentalism* provides a historical philosophical and ideological background to environmentalism Topics covered include the roots of technological environmentalism the medieval cosmology and Bacon s philosophy the non scientific roots of ecological environmentalism such as Romanticism and its scientific roots in the theories of Malthus and Darwin The Marxist perspective on Nature is also discussed The concluding chapter is a criticism of education which challenges its usefulness as an agent of socio economic change This book will be of interest to academics and students of environmentalism and geography      *Garlic Capital of the World* Pauline Adema,2009 How a local festival celebrating the odiferous lily gave a town a marketable identity      *Iron Britannia* Anthony Barnett,2012-04-17 On April 2 1982 Argentine forces seized the British dependent Falkland Islands Within 48 hours a British task force was sailing for the South Atlantic One in five Britons opposed this war but Argentina s surrender 74 days later set Margaret Thatcher on course for her second election victory Anthony Barnett s *Iron Britannia* first published in 1982 turned down the din of war and diagnosed something rotten in the British state This new edition offers a new extended preface by Barnett addressing UK foreign policy post Falklands plus additional texts Barnett wrote at the time A furious sometimes gleeful and often witty polemic against the decaying British political system which the conflict revealed Neal Ascherson London Review of Books Anthony Barnett makes a variety of telling points Most tellingly of all the concept he puts forward of Churchillism the rhetoric of national unity which overrides party and class considerations Geoffrey Wheatcroft Times Literary Supplement Done with almost Swiftian vigour I warmly recommend it John Fowles Guardian      **Ageing and Change in Pit Villages of North East England** Andrew Dawson,2011-02 Britain s coal mining communities are often regarded as exemplars of the working class community without compare However to what extent can it be said that such communities persist in the face of

the loss of their central material referent The coal industry in Britain has been in dramatic decline since the 1950s and that decline become practically terminal following the Miner s Strike of 1984 85 In this book Andrew Dawson considers this question in relation to the last generation of coal mining people in a large Northumbrian mining town What becomes clear is that the idea of the coal mining community persists as a resource that is central in the mediation of life s crises from unemployment to death

**Animal Characters** Bruce Thomas Boehrer, 2011-06-29 During the Renaissance horses long considered the privileged even sentient companions of knights errant gradually lost their special place on the field of battle and with it their distinctive status in the world of chivalric heroism Parrots once the miraculous articulate companions of popes and emperors declined into figures of mindless mimicry Cats which were tortured by Catholics in the Middle Ages were tortured in the Reformation as part of the Protestant attack on Catholicism And sheep the model for Agnus Dei imagery underwent transformations at once legal material and spiritual as a result of their changing role in Europe s growing manufacturing and trade economies While in the Middle Ages these nonhumans were endowed with privileged social associations personal agency even the ability to reason and speak in the early modern period they lost these qualities at the very same time that a new emphasis on and understanding of human character was developing in European literature In *Animal Characters* Bruce Thomas Boehrer follows five species the horse the parrot the cat the turkey and the sheep through their appearances in an eclectic mix of texts from romances and poetry to cookbooks and natural histories He shows how dramatic changes in animal character types between 1400 and 1700 relate to the emerging economy and culture of the European Renaissance In early modern European culture animals not only served humans as sources of labor companionship clothing and food these nonhuman creatures helped to form an understanding of personhood Incorporating readings of Shakespeare s plays Milton s *Paradise Lost* Margaret Cavendish s *Blazing World* and other works Boehrer s series of animal character studies illuminates a fascinating period of change in interspecies relationships

Doctors, Ambassadors, Secretaries Douglas Biow, 2002-07 Examining a wide range of works that humanists wrote as doctors ambassadors and secretaries and about medical ambassadorial and secretarial vocations Biow shows how humanists embraced and discussed different professions in profoundly different ways

*Pig* Brett Mizelle, 2012-01-01 Known as much for their pink curly tails and pudgy snouts as their low brow choice of diet and habitat pigs are prevalent in popular culture from the Three Little Pigs to Miss Piggy to Babe Today there are more than one billion pigs on the planet and there are countless representations of pigs and piggishness throughout the world s cultures In *Pig* Brett Mizelle provides a richly illustrated and compelling look at the long complicated relationship between humans and these highly intelligent sociable animals Mizelle traces the natural and cultural history of the pig focusing on the contradictions between our imaginative representation of pigs and the real world truth of the ways in which pigs are prized for their meat used as subjects in medical research and killed in order to make hundreds of consumer products *Pig* begins with the evolution of the suidae animals that were domesticated in multiple

regions 9 000 years ago and points toward a future where pigs and humans are even more closely intertwined as a result of biomedical breakthroughs Pig both examines the widespread art entertainment and literature that imagines human kinship with pigs and the development of modern industrial pork production In charting how humans have shaped the pig and how the pig has shaped us Mizelle focuses on the unresolved contradictions between the fiction and the reality of our relations with pigs *Places on the Margin* Rob Shields,2013-12-16 The debate on modernity and postmodernity has awakened interest in the importance of the spatial for cultural formations But what of those spaces that exist as much in the imagination as in physical reality This book attempts to develop an alternative geography and sociology of space by examining places on the margin *The Bookseller* ,1982 **New Society** ,1984 **Enemies of the Country** John C. Inscoe,Robert C. Kenzer,2004-09-01 Exploring family and community dynamics *Enemies of the Country* profiles men and women of the Confederate states who in addition to the wartime burdens endured by most southerners had to cope with being a detested minority With one exception these featured individuals were white but they otherwise represent a wide spectrum of the southern citizenry They include natives to the region foreign immigrants and northern transplants affluent and poor farmers and merchants politicians and journalists slaveholders and nonslaveholders Some resided in highland areas and in remote parts of border states the two locales with which southern Unionists are commonly associated Others however lived in the Deep South and in urban settings Some were openly defiant others took a more covert stand Together the portraits underscore how varied Unionist identities and motives were and how fluid and often fragile the personal familial and local circumstances of Unionist allegiance could be For example many southern Unionists shared basic social and political assumptions with white southerners who cast their lots with the Confederacy including an abhorrence of emancipation The very human stories of southern Unionists as they saw themselves and as their neighbors saw them are shown here to be far more complex and colorful than previously acknowledged **The Listener** ,1982 **The Countryman** John William Robertson Scott,1983 *Food Culture & History* ,1993 *Advocates for the Oppressed* Malcolm Ebright,2014-12-01 Struggles over land and water have determined much of New Mexico s long history The outcome of such disputes especially in colonial times often depended on which party had a strong advocate to argue a case before a local tribunal or on appeal This book is partly about the advocates who represented the parties to these disputes but it is most of all about the Hispanos Indians and Gen zaros Hispanicized nomadic Indians themselves and the land they lived on and fought for Having written about Hispano land grants and Pueblo Indian grants separately Malcolm Ebright now brings these narratives together for the first time reconnecting them and resurrecting lost histories He emphasizes the success that advocates for Indians Gen zaros and Hispanos have had in achieving justice for marginalized people through the return of lost lands and by reestablishing the right to use those lands for traditional purposes *Humanities Index* ,1983
