Strange Life Of Pd Ouspensky:

The Strange Life of P.D.Ouspensky Colin Wilson, 2019-02-21 One of the most original thinkers of the twentieth century Pyotr Demianovich Ouspensky was a complex and romantic soul A promising young intellectual in Tsarist Russia he won recognition as a novelist and philosopher yet descended into self chosen obscurity as a teacher of the Work the system of his great contemporary Gurdjieff Today it is as Gurdjieff's chief disciple that he is remembered yet Colin Wilson argues convincingly that he is to be considered a major writer and man of genius in his own right A nostalgic melancholy Russian one of Ouspensky's deepest instincts was that man can find his own salvation yet towards the end of his turbulent life he lost faith in the System and drank himself to death With sympathy and admiration Colin Wilson throws new light on this gentle man and deep thinker

Strange Life of Ivan Osokin, by P.D. Ouspensky P. D. Ouspensky, 1947 **In Search of P. D. Ouspensky** Gary Lachman, 2014-03-17 P D Ouspensky's classic work *In Search of the Miraculous* was the first to disseminate the ideas of G I Gurdjieff the mysterious master of esoteric thought in the early twentieth century who still commands a following today Gurdjieff's mystique has long eclipsed Ouspensky once described by Gurdjieff as nice to drink vodka with but a weak man Yet Ouspensky was a brilliant accomplished philosopher in his own right and some consider his meeting with the charismatic Mr G the catastrophe of his life Indeed in subsequent years Ouspensky tried hard with limited success to break away This book moves Ouspensky's own story center stage against the backdrop of the Russian Revolution the dervishes of Constantinople and a cosmopolitan Europe entre deux guerres The archetypal encounter it describes echoes that of Don Juan and Castaneda or perhaps Mephistopheles and Faust One of the great mystical adventures of our time it will fascinate everyone interested in the farthest reaches of what it means to be human The paperback edition includes a new chapter on Gary Lachman's own former work in Gurdjieff's psychology

Strange Life of Ivan Osokin Peter Demianovich Ouspensky, 1947-01-01 ON THE SCREEN a scene at Kursk station in Moscow A bright April day of 1902 A group of friends who came to see Zinaida Krutitsky and her mother off to the Crimea stand on the platform by the sleeping car Among them Ivan Osokin a young man about twenty-six Osokin is visibly agitated although he tries not to show it Zinaida is talking to her brother Michail Osokin's friend a young officer in the uniform of one of the Moscow Grenadier regiments and two girls Then she turns to Osokin and walks aside with him I am going to miss you very much she says It's a pity you cannot come with us Though it seems to me that you don't particularly want to otherwise you would come You don't want to do anything for me Your staying behind now makes all our talks ridiculous and futile But I am tired of arguing with you You must do as you like Ivan Osokin becomes more and more troubled but he tries to control himself and says with an effort I can't come at present but I shall come later I promise you You cannot imagine how hard it is for me to stay here No I cannot imagine it and I don't believe it says Zinaida quickly When a man wants anything as strongly as you say you do he acts I am sure you are in love with one of your pupils here some nice poetical girl who studies fencing Confess She laughs Zinaida's words and tone hurt

Osokin very deeply He begins to speak but stops himself then says You know that is not true you know I am all yours How am I to know says Zinaida with a surprised air You are always busy You always refuse to come and see us You never have any time for me and now I should so much like you to come with us We should be together for two whole days Just think how pleasant the journey would be She throws a quick glance at Osokin And afterwards there in the Crimea we would ride together and we would sail far out to sea You would read me your poems and now I shall be bored She frowns and turns away Osokin tries to reply but finding nothing to say he stands biting his lips I shall come later he repeats Come when you like says Zinaida indifferently but this chance is lost already I shall be bored travelling alone Mother is a very pleasant travelling companion but that is not what I want Thank God I have seen one man I know evidently going by this train He may amuse me on the way Osokin again begins to speak but Zinaida continues I m only interested in the present What do I care for what may happen in the future You don t realize this You can live in the future I cannot I understand it all says Osokin and it s very hard for me Yet I cannot help it But will you remember what I asked you Yes I shall remember and I ll write to you But I don t like writing letters Don t expect many come soon instead I shall wait a month for you two months after that I will not wait any more

The Cosmos and the Creative Imagination Anna-Teresa Tymieniecka, Patricia Trutty-Cooill, 2016-02-03 The essays in this book respond to Anna Teresa Tymieniecka's recent call to explore the relationship between the evolution of the universe and the process of self-individuation in the ontopoietic unfolding of life The essays approach the sensory manifold in a number of ways They show that theories of modern science become a strategy for the phenomenological study of works of art and vice versa Works of phenomenology and of the arts examine how individual spontaneity connects with the designs of the logos of the whole and of the particulars while the designs rest not on some human concept but on life itself Life's pliable matrices allow us to consider the expansiveness of contemporary science and to help create a contemporary phenomenological sense of cosmos

Science Fact and Science Fiction Brian Stableford, 2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed
