Strange Catharsis Daniel Mallery, 1993      **The Wandering Scholars** Helen Waddell, 1927 A study of mediaeval Latin lyrics and their relation to learning      **The ^AMeanings of Social Life** Jeffrey C. Alexander, 2003-09-18 In *The Meanings of Social Life* Jeffrey Alexander presents a new approach to how culture works in contemporary societies Exposing our everyday myths and narratives in a series of empirical studies that range from Watergate to the Holocaust he shows how these unseen yet potent cultural structures translate into concrete actions and institutions Only when these deep patterns of meaning are revealed Alexander argues can we understand the stubborn staying power of violence and degradation but also the steady persistence of hope By understanding the darker structures that restrict our imagination we can seek to transform them By recognizing the culture structures that sustain hope we can allow our idealistic imaginations to gain more traction in the world A work that will transform the way that sociologists think about culture and the social world this book confirms Jeffrey Alexander's reputation as one of the major social theorists of our day      **Trauma** Jeffrey C. Alexander, 2013-04-26 In this book Jeffrey C. Alexander develops an original social theory of trauma and uses it to carry out a series of empirical investigations into social suffering around the globe Alexander argues that traumas are not merely psychological but collective experiences and that trauma work plays a key role in defining the origins and outcomes of critical social conflicts He outlines a model of trauma work that relates interests of carrier groups competing narrative identifications of victim and perpetrator utopian and dystopian proposals for trauma resolution the performative power of constructed events and the distribution of organizational resources Alexander explores these processes in richly textured case studies of cultural trauma origins and effects from the universalism of the Holocaust to the particularism of the Israeli right from postcolonial battles over the Partition of India and Pakistan to the invisibility of the Rape of Nanjing in Maoist China In a particularly controversial chapter Alexander describes the idealizing discourse of globalization as a trauma response to the Cold War Contemporary societies have often been described as more concerned with the past than the future more with tragedy than progress In *Trauma A Social Theory* Alexander explains why      **Remembering the Holocaust** Jeffrey C. Alexander, Martin Jay, 2009-07-27 This book brings together a wide range of leading historians social scientists and literary scholars to explore the controversy surrounding the legacy of the Holocaust Jeffrey Alexander's essay traces how the Holocaust gradually became the dominant representation of evil and what the consequences have been for the development of its moral relevance for all nations and peoples His inquiry is joined by essays from Martin Jay Nathan Glazer Elihu and Ruth Katz Michael Rothberg Robert Manne and Bernhard Giesen who further debate the geopolitical national and cultural limits and dangers of extending the tragic lessons of the Holocaust      Restore Me Tahereh Mafi, 2018-03-06 An instant New York Times bestseller Juliette and Warner's story continues in the electrifying fourth installment of Tahereh Mafi's bestselling *Shatter Me* series The girl with the power to kill with a single touch now has the world in the palm of her hand Juliette Ferrars thought she'd

won She took over Sector 45 was named the new Supreme Commander of North America and now has Warner by her side But when tragedy strikes she must confront the darkness that dwells both around and inside her Who will she become in the face of adversity Will she be able to control the power she wields and use it for good This bestselling series from powerhouse author Tahereh Mafi showcases relentlessly thrilling action heart stopping romance and a war torn world in which rebellion is the only path to freedom Will have fans groaning aloud for the next installment Booklist Cultural Trauma and Collective Identity Jeffrey C. Alexander, Ron Eyerman, Bernard Giesen, Neil J. Smelser, Piotr Sztompka, 2004-03-22 In this collaboratively authored work five distinguished sociologists develop an ambitious theoretical model of cultural trauma and on this basis build a new understanding of how social groups interact with emotion to create new and binding understandings of social responsibility Looking at the meaning making process as an open ended social dialogue in which strikingly different social narratives vie for influence they outline a strongly constructivist approach to trauma and apply this theoretical model in a series of extensive case studies including the Nazi Holocaust slavery in the United States and September 11 2001
