***Notorious New Jersey*** Jon Blackwell,2007-10-29 *Notorious New Jersey* is the definitive guide to murder mayhem the mob and corruption in the Garden State With tabloid punch Jon Blackwell tells riveting accounts of Alexander Hamilton falling mortally wounded on the dueling grounds of Weehawken Dutch Schultz getting pumped full of lead in the men s room of the Palace Chop House in Newark and a gang of Islamic terrorists in Jersey City mixing the witch s brew of explosives that became the first bomb to rock the World Trade Center Along with these dramatic stories are tales of lesser known oddities such as the nineteenth century murderer whose skin was turned into leather souvenirs and the state senator from Jersey City who faked his death in a scuba accident in the 1970s in an effort to avoid prison Blackwell also sheds light on some historical whodunits was Bruno Hauptmann really guilty of kidnapping the Lindbergh baby Who was behind the anthrax attacks of 2001 Not forgotten either are notorious characters who may actually be innocent including Rubin Hurricane Carter and those who have never been convicted of wrongdoing although they left office in scandal including Robert Torricelli and James McGreevey Through 100 historic true crime tales that span over 300 years of history Blackwell shows readers a side of New Jersey that would make even the Sopranos shudder

***The Material Unconscious*** Bill Brown,1996 Within the ephemera of the everyday old photographs circus posters iron toys lies a challenge to America s dominant cultural memory What this memory has left behind Bill Brown recovers in the material unconscious of Stephen Crane s work the textual residues of daily sensations that add up to a new history of the American 1890s As revealed in

Crane's disavowing appropriation of an emerging mass culture from football games and freak shows to roller coasters and early cinema the decade reappears as an underexposed moment in the genealogy of modernism and modernity Brown's story begins on the Jersey Shore in Asbury Park where Crane became a writer in the shadow of his father a grimly serious Methodist minister who vilified the popular amusements his son adored The coastal resorts became the stage for debates about technology about the body's visibility about a black service class and the new mass access to leisure From this snapshot of a recreational scene that would continue to inspire Crane's sensational modernism Brown takes us to New York's Bowery There in the visual culture established by dime museums minstrel shows and the Kodak craze he exhibits Crane dramatically obscuring the typology of race Along the way Brown demonstrates how attitudes toward play transformed the image of war the idea of childhood and nationhood and the concept of culture itself And by developing a new conceptual apparatus with such notions as recreational time abstract leisure and the amusement knowledge system he provides the groundwork for a new politics of pleasure A crucial theorization of how cultural studies can and should proceed The Material Unconscious insists that in the very conjuncture of canonical literature and mass culture we can best understand how proliferating and competing economies of play disrupt the so called logic and work of culture

### **James**

**Agee in Context** Michael A. Lofaro, 2023-01-17 It's difficult to overestimate the impact of the many new works by James Agee uncovered and published in the last twenty years These previously unknown primary works have in turn encouraged a parallel explosion of critical evaluation and reevaluation by scholars to which James Agee in Context is the latest contribution This superb collection from well known James Agee scholars features myriad approaches and contexts for understanding the author's fiction poetry journalism and screenwriting The essays bring the reader from the streets of James Agee's New York to travel with the author from Alabama to Hollywood to Havana Contributors explore overlapping and sometimes unique

subjects themes and accomplishments or lack thereof in Agee s uncovered works and highlight the diversity of interest that Agee s complete body of work inspires The insightful scholarship on influence examines connections between Agee and Wright Morris Helen Levitt John Dos Passos Ernest Hemingway and Stephen Crane Such juxtapositions serve to illustrate how Agee drew on literary influences as a young man how he used his work as a journalist to craft fiction as he was about to turn thirty and his influence upon others The volume concludes with three poems and a short story by Agee all previously unknown It seems astonishing that so much remains to be discovered about this protean author his materials and his circle Yet the recovery and analysis of neglected texts and information mined from newspapers and magazines proves the extent to which Agee kept his mind and his work as he himself put it patiently concentrated upon the essential quietudes of the human soul

Park tells the tale of the city's first 150 years guiding us through the development of its lavish amusement parks and bandstands as well as the decay of its working class neighborhoods and spread of its racially segregated ghettos. Featuring exclusive interviews with Springsteen and other prominent Asbury Park residents, Daniel Wolff uncovers the history of how this Jersey shore resort town came to epitomize both the promises of the American dream and the tragic consequences when those promises are broken. Hailed by The New York Times as a wonderfully evocative grand sad story when first published in 2006, this revised and expanded edition considers how Asbury Park has changed in the twenty-first century, experiencing both gentrification and new forms of segregation.

**Voices in the Silence** Gordon Thomas, 2012-01-24

Intelligence agent David Morton must avert a world crisis and destroy a Russian-made weapon capable of controlling the U.S. President's mind. David Morton and his new Hammer Force, an intelligence agency created by the United Nations after the carnage in Bosnia, have a formidable task. To avert a world crisis, they must win the deadly invisible battle for control of the mind of the President of the United States. The weapon they must destroy is born out of the technology which brought victory in the Gulf War and supremacy in Space for an American that is no longer master of all it surveys. Created by the former Soviet Union's most brilliant scientist, Professor Igor Tamasara, the weapon is designed to trigger responses in the President's mind, responses that will bring the United States and Japan into conflict and will lead to World War III. From that conflict will emerge Tamasara's new paymaster, China, as the superpower of the 21st century. Set against the background of Washington, Beijing, and Hong Kong, this highly original and totally credible futuristic thriller builds to a climax of nail-biting suspense. Once more showing an astonishing command of the inner workings of international politics and the world of secret intelligence, Gordon Thomas has created a first-rate work of fiction featuring unforgettable characters. Center stage is David Morton, and in *Voices in the Silence*, Morton's role as the James Bond of the 90s is firmly established, as is Gordon Thomas's reputation as a thriller writer of quality.
