Alves, 2011-05-01 All theories of social change says Alves rest squarely on the economic and structural forces operative in society at any given moment in history Thus many of the proposals offered by today s futurologists fall considerably short of social revolution They are in effect extrapolations from the functional matrix of our society Like the dinosaurs who disappeared not because they were too weak but because they were too strong our civilization is motivated less by the desire for internal growth and existential relevance than it is by blind outward expansion We are determined by a triangle of interlocking systems each deriving and giving life to the others the power of the sword

the power of money and the power of science In this context to be a realist is to accept the rules of the game laid down by the power lords of our rational society whose goals are war production and consumption But the utopian mentality argues Alves wants to create a qualitatively new order in which economy must abandon the goal of infinite growth The only way out then is to abort realism from the body politic and impregnate it with the power of the imagination This book clears away the debris of realism and lays the groundwork for a constructive theory of creative imagination moving us toward new forms of social organization where the community of faith can be found Tomorrow's Bread Anna Jean Mayhew, 2019-03-26 From the author of the acclaimed *The Dry Grass of August* comes a richly researched yet lyrical Southern set novel that explores the conflicts of gentrification a moving story of loss love and resilience In 1961 Charlotte North Carolina the predominantly black neighborhood of Brooklyn is a bustling city within a city Self contained and vibrant it has its own restaurants schools theaters churches and night clubs There are shotgun shacks and poverty along with well maintained houses like the one Loraylee Hawkins shares with her young son Hawk her Uncle Ray and her grandmother Bibi Loraylee's love for Archibald Griffin Hawk's white father and manager of the cafeteria where she works must be kept secret in the segregated South Loraylee has heard rumors that the city plans to bulldoze her neighborhood claiming it's dilapidated and dangerous The government promises to provide new housing and relocate businesses But locals like Pastor Ebenezer Polk who's facing the demolition of his church know the value of Brooklyn does not lie in bricks and mortar Generations have lived loved and died here supporting and strengthening each other Yet street by street longtime residents are being forced out And Loraylee searching for a way to keep her family together will form new alliances and find an unexpected path that may yet lead her home Tomorrow's Kin Nancy Kress, 2017-07-11 Nancy Kress at her very best First in the hard science fiction trilogy based on the Nebula Award winning novella *Yesterday's Kin* Greg Bear New York Times bestselling author Locus 2017 Recommended Reading List The aliens have arrived they've landed their Embassy ship on a platform in New York Harbor and will only speak with the United Nations They say that their world is so different from Earth in terms of gravity and atmosphere that they cannot leave their ship The population of Earth has erupted in fear and speculation One day Dr Marianne Jenner an obscure scientist working with the human genome receives an invitation that she cannot refuse The Secret Service arrives at her college to escort her to New York for she has been invited along with the Secretary General of the UN and a few other ambassadors to visit the alien Embassy The truth is about to be revealed Earth's most elite scientists have ten months to prevent a disaster and not everyone is willing to wait Sparingly constructed and cleverly resolved it provides everything readers need for an immersive plunge into a frightening fascinating and inescapable predicament The Seattle Times Kress mixes contemporary issues of isolationism and refugee status with classic SF first contact tropes threaded neatly with solid scientific theory and speculation Publishers Weekly starred review Most inviting introduction to science fiction for new readers Chicago Tribune Language, Symbolization, and Psychosis Giovanna Ambrosio, Simona

Argentieri, Jorge Canestri, 2018-04-24 In this book the authors compare different psychoanalytic thinking and models all of a rigorously Freudian stamp on three concepts of great theoretical and clinical importance language symbolization and psychosis

Tomorrow's People Susan Greenfield, 2004-09-30 The book is an exploration of how this century is going to change not just the way we think but also what we actually think with our own individual minds How will new technologies transform the way we see the world At the beginning of the twenty first century we may be standing on the brink of a mind make over far more cataclysmic than anything that has happened before As we appreciate the dynamism and sensitivity of our brain circuitry so the prospect of directly tampering with the essence of our individuality becomes a possibility

significant and often turbulent period for immigrant and migrant labor in both settings Angeles vivid simple language takes us into the heart of an early Filipino family as its members come to terms with poverty and racism and struggle to build new lives in a new world But even as Angeles recounts the hardships of immigrant life her diary of everyday things never lets us forget that she and the people around her went to school and church enjoyed music and dancing told jokes went to the movies and fell in love Essays by Jonathan Okamura and Dawn Mabalon enlarge on Angeles account of early working class Filipinos and situate her experience in the larger history of Filipino migration to the United States Tomorrow's Treasure Linda Lee Chaikin, 2010-03-09 Raised by her aunt and uncle at the rectory in the small English village of Grimston Way lovely Evy Varley remembers little of her missionary parents and nothing of South Africa the land where she was orphaned during the Zulu War of 1878 But when Sir Rogan Chantry the arrogant and handsome son of the local Squire accuses Evy's mother of stealing the infamous Kimberly Black Diamond Evy sets out to prove the rogue wrong and clear her mother's name Secrets abound however from the diamond mines of South Africa to the halls of her own beloved rectory Strangers come to Grimston Way for their own mysterious purposes a stunned Evy finds that her own aunt and uncle may have concealed disturbing truths about her family and the dashing Sir Rogan has his own reasons to seek the missing diamond Yet despite Rogan's seemingly rakish ways and the class differences that render a romance between them impossible Evy finds herself drawn to the man who was once her childhood friend and now holds the keys to her heart Faced with a dangerous past and an uncertain future Evy must draw upon her wits and her faith to pursue Tomorrow's Treasure A story of faith danger and romance Tomorrow's Treasure is a masterpiece of historical suspense fiction From the Trade Paperback edition
