Britain and Ballistic Missile Defence, 1942-2002 Jeremy Stocker, 2004-08-02 Defence against ballistic missiles has been a subject of UK political policy and technical investigation since World War II this book analyses that long history **Energy Abstracts for Policy Analysis**, 1988 *Strategic Defences in the 1990's* Ivo H. Daalder, 1991-06-18 Examines the value of deploying strategic missile defences to counter the threat of nuclear accidents It concludes that the deployment of strategic defences in the 1990s will not be strategically desirable technically feasible or economically affordable Justifying Ballistic Missile Defence Columba Peoples, 2010 Examines the ways in which views of technology have been used in debates over ballistic missile defence **Future Survey Annual 1987** Michael Marien, 1988-01-01 **A Shield in Space?** Sanford Lakoff, Herbert F. York, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 Children of Ezekiel Michael Lieb, 1998 Discusses the relationship between the biblical prophet Ezekiel's vision of wheels in the air and the present day end of time concept as seen in various religious sects **Strategic Review**, 2001 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States *Perspectives on International Law* Nandasiri Jasentuliyana, 2023-10-09 In the spirit of the 50th anniversary of the United Nations and the United Nations Decade of International Law the contributors to Perspectives on International Law honour with this legal treatise a devoted friend of the United Nations and international law Judge Manfred Lachs a noted judge diplomat humanist and above all teacher The work includes a variety of perspectives on international law relating to what were Judge Lachs four main areas of interest the theory and practice of international law the United Nations the World Court and space law The

book meets the need for a reference work covering selected subject areas and providing different perspectives on some of the key issues of current concern. Many eminent experts in various fields related to international law including Judges of the International Court of Justice, diplomats and professors of law, most of whom knew Judge Lachs personally, have contributed. Each chapter has been prepared specifically for the book. The contributors represent all political, legal and cultural regions of the world and provide a range of backgrounds and viewpoints offering a variety of new ideas for strengthening international law based on their assessment of the lessons of the past. *Contemporary Military Theory* Jan Angstrom, J.J.

Widen, 2014-07-17 The book aims to provide the reader with a state of the art introduction to classic and modern military theory. The text accounts for the most important theories within the field by developing and analyzing these theories as well as problematizing both their normative and explanatory aims. While focusing on military theory, the book does not only reflect a single way of relating to knowledge of war and warfare but furthers learning by introducing contrasting perspectives as well as constantly criticizing the theories. There is a clear need for an introductory text for the entire field of military theory that focuses wholeheartedly on the theories, not on their context or how they are expressed in practice during war. This book covers such questions as how we should understand the changing character of war, the utility of force and how the pursuit of political ends is achieved through military means. It draws upon and illustrates military thought through a wide ranging number of examples from the Napoleonic Wars to the current war in Afghanistan. This book will be of great interest for students of military theory, strategic studies, security studies and defence studies. **Perspectives on International**

Relations Henry R. Nau, 2018-01-03 *Perspectives on International Relations: Power, Institutions and Ideas* shows students new to the field how theories and perspectives of international affairs, realism, liberalism, constructivism, identity and critical theory play a decisive role in explaining every day debates about world affairs. Why, for example, do politicians and political scientists disagree about the causes of the ongoing conflict in Syria even though they all have the same facts? Or why do policymakers disagree about how to deal with North Korea when they are all equally well informed? The new Sixth Edition of this best seller includes updates on Brexit, the rise of Donald Trump and other populist leaders and continuing developments for ISIS, Syria and Russia. **The SAGE Encyclopedia of War: Social Science Perspectives** Paul Joseph, 2016-06-15

Traditional explorations of war look through the lens of history and military science, focusing on big events, big battles and big generals. By contrast, *The SAGE Encyclopedia of War: Social Science Perspective* views war through the lens of the social sciences, looking at the causes, processes and effects of war and drawing from a vast group of fields such as communication and mass media, economics, political science and law, psychology and sociology. Key features include: More than 650 entries organized in an A to Z format, authored and signed by key academics in the field. Entries conclude with cross references and further readings, aiding the researcher further in their research journeys. An alternative Reader's Guide table of contents groups articles by disciplinary areas and by broad themes. A helpful Resource Guide directing researchers to classic books.
