Introducing Romans Richard N.

Longenecker, 2011-03-25 Paul's Letter to the Romans has proven to be a particular challenge for commentators with its many highly significant interpretive issues often leading to tortuous convolutions and even dead ends in their understanding of the letter. Here Richard N. Longenecker takes a comprehensive look at the complex backdrop of Paul's letter and carefully unpacks a number of critical issues including Authorship, integrity, occasion, date, addressees, and purpose. Important recent interpretive approaches: Greco-Roman oral rhetorical and epistolary conventions; Jewish and Jewish-Christian thematic and rhetorical features; The establishing of the letter's Greek text; The letter's main focus, structure, and argument.

The Epistle to the Romans

Richard N. Longenecker, 2016 Paul's letter to believers in Jesus at Rome has always been very highly regarded within the Christian church, playing a central role in the formulation and proclamation of Christian doctrine. Yet despite its status in the church and its importance for Christian thought, life, and proclamation, Romans is not a simple writing; it is one of the most difficult New Testament letters to analyze and interpret. In this commentary, prominent New Testament scholar Richard Longenecker offers a clear analysis of Romans that builds on the work of past commentators while still being informed by significant studies and insights of interpreters today. His analysis is critical, exegetical, and constructive but pastoral in its application. Longenecker also sets a course for the future that will promote a better understanding of this most famous of Paul's letters and a more relevant contextualization of its message.
