Villani, 1998 Villani education Bradley U presents an outline and argument for a interconnected interdisciplinary and multicultural curriculum for the American school system Her model represents the curriculum as a series of interlocking wheels with centers representing art language math science social studies technology physical education and foreign language and spokes representing different methods of teaching which should be continually spun around the centers Annotation copyrighted by Book News Inc Portland OR *Synergy and Synthesis for Teaching in the 21st Century* Joan Della Valle, Sherrye Dotson, 2015-12-15 With so many excellent theories and tools available to educators why is teaching so challenging in the twenty first century The simple reason according to authors Sherrye Dotson and Joan Della Valle is that teachers just don't know how or when to use them to create relevant and engaging lessons for today's students Synergy and Synthesis for Teaching in the 21st Century has the solution It empowers teachers by showing them how to integrate the most effective new methodologies into their curricula without abandoning the tried and true strategies that work for them Starting with a high level overview of P21 designed by the Partnership for 21st Century Learning this handbook guides you through the Core 21 planning model weaving together the common threads between problem based project based learning and brain research that supports the many models of learning created by the educational experts It provides students the opportunity to solve problems connect learning to life experiences and exhibit the skills necessary to thrive in a global society And it can be tailored to your teaching style and needs Inspired by the work of many educational researchers Core 21 gives you a flexible framework for creating synergy in the classroom *Educating Americans for the 21st Century* National Science Board (U.S.).
