System Crash:

Crash Records Systems National Cooperative Highway Research Program, 2005 TRB's National Cooperative Highway Research Program NCHRP Synthesis 350 *Crash Records Systems* examines crash records systems practices and programs as applied to highway and traffic safety. The report covers crash data collection, crash processing and management and data linkages for reporting and analysis. While no single comprehensive system examples are identified in the report, many examples of one or more successful components were found to address the needs of three groups of stakeholders: data collectors, data managers, and data users. The report also contains information about lessons learned from examples of successful systems addressing the needs and concerns of stakeholders.
