Systematic Instruction In Reading For Spanish Speaking Students:

SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS Elva Duran, 2013-04-01

Students whose first language is not English are the fastest growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken and presently most schools in the U S are under educating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years and this book describes the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide excellent review of the literature in language development and address developing language instruction listening and speaking with Spanish speaking students and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction while the next addresses the components of instruction in Spanish. Chapter 6 offers lesson plan suggestions for Spanish speaking students while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction. Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs. Finally Chapter 10 discusses two way bilingual immersion and shares actual classroom schedules and lessons. This unique text will help in the preparation of primary grade teachers throughout the U S so that they may be successful with Hispanic students entering the public schools with little or no English background. It will also be a useful tool for school districts staff development in addressing school improvement goals for increasing the achievement of Hispanic students. **The Teaching**

of Reading in Spanish to the Bilingual Student: La Enseñanza de la Lectura en Español Para El Estudiante

Bilingüe Angela Carrasquillo, Philip Segan, 2013-10-14 This dual language text provides theory and methodology for teaching reading in Spanish to Spanish English bilingual or Spanish dominant students. The goal is to help educators teach these students the skills necessary to become proficient readers and thus successful in the school system. At the very core of the book are the hispano parlantes the Spanish speaking children who bring to the schools along with their native language and cultures a wealth of resources that must be tapped and to whom all educators have a responsibility to respond. True to the concepts of developing bilingual educators to serve bilingual students the text presents chapters in English and Spanish. Each chapter is written in only one language at the preference of the author. Thus to be successful with this book the reader must be bilingual. Themes emphasized in the text include current reading methodologies the concept of reading as developmental literacy skills reading in the content areas new views of the development of proficiency in the second language issues related to students with special learning needs assessment and the uses of technology in the delivery of instruction. Never losing sight of its goal to teach reading in Spanish to bilingual or Spanish dominant students the book includes a series of focusing questions and follow up activities these are not simply translations of existing activities strategies and techniques intended

for monolingual English students but specifically designed to be appropriate for Spanish speaking students Directed to university preservice and in service instructors of reading and bilingual education as well as administrators and district and school level staff developers who work with Hispanic populations the book is sensitive at all times to nuances of the languages and cultures of the intended audiences

Teaching English Learners in Inclusive Classrooms

Elva Duran,2020-08-11 This newly revised text Teaching English Learners in Inclusive Classrooms updates and expands upon issues of great concern to those working with students who are English learners as well as having special learning challenges Given the unacceptable school drop out rates of these students this book provides practical tools and strategies for educators to approach the unique learning needs of these students It draws upon the most current laws and research in the interconnected fields of bilingual and multicultural education language and literacy and special needs Additionally Dr Duran draws upon her extensive experiences via classroom teaching university level instruction and textbook writing in these fields to present a highly useful compendium of ideas The range of chapters exemplifies the width and breadth of this material A sampling of these chapters include topics such as functional language teaching students with more extensive needs working with cross cultural and linguistic diverse students in the U S and Central America helping students with autism and includes information in the area of transition for mild moderate and students with more extensive needs There is also information as before on literacy and a chapter in the content subjects as it relates to social studies as well as a chapter on families of cross cultural students Many of the chapters look to use of direct instruction approaches that have proven to be successful strategies in addressing these educational areas Teachers and teacher trainers will find this clear well written text to be an invaluable resource in addressing the needs of myriad and unique students
